**2009 Annual Report
2010 Proxy Statement**

Travelzoo Inc.
590 Madison Avenue, 37th Floor
New York, NY 10022

April 30, 2010

Dear Stockholder:

You are cordially invited to attend the Annual Meeting of Stockholders of Travelzoo Inc. on June 3, 2010. We will hold the meeting at 590 Madison Avenue, 37th Floor, New York, New York 10022 at 10:00 a.m. local time.

In connection with the meeting, we enclose a notice of the meeting, a proxy statement and a proxy card. Detailed information relating to Travelzoo's activities and operating performance is contained in our 2009 Annual Report on Form 10-K, as filed with the Securities and Exchange Commission, which is also enclosed.

Whether or not you plan to attend the Annual Meeting of Stockholders, please vote your shares via mail with the enclosed proxy card. Please note that you can attend the meeting and vote in person, even if you have previously voted by proxy. If you plan to attend the meeting in person, please provide advance notice to Travelzoo by checking the box on your proxy card. In addition, you may provide notice to Travelzoo that you plan to attend in person by delivering written notice to Travelzoo's Corporate Secretary at 590 Madison Avenue, 37th Floor, New York, New York 10022.

If you hold your shares in street name through a bank, broker, or other nominee, please bring identification and proof of ownership, such as an account statement or letter from your bank or broker, for admittance to the meeting. An admission list containing the names of all of those planning to attend will be placed at the registration desk at the entrance to the meeting. You must check in to be admitted.

Travelzoo will make available an alphabetical list of stockholders entitled to vote at the meeting for examination by any stockholder during ordinary business hours at Travelzoo's principal executive offices, located at 590 Madison Avenue, 37th Floor, New York, New York 10022, for ten days prior to the meeting. A stockholder may examine the list for any legally valid purpose related to the meeting.

On behalf of the entire Board of Directors, we look forward to seeing you at the meeting.

Sincerely,

RALPH BARTEL
Chairman of the Board of Directors

TRAVELZOO INC.
590 Madison Avenue
37th Floor
New York, New York 10022

NOTICE OF ANNUAL MEETING OF STOCKHOLDERS
To Be Held on June 3, 2010

To the Stockholders of Travelzoo Inc.:

NOTICE IS HEREBY GIVEN that the Annual Meeting of Stockholders of Travelzoo Inc., a Delaware corporation, will be held on Thursday, June 3, 2010, at 10:00 a.m., local time, at 590 Madison Avenue, 37th Floor, New York, New York 10022, for the following purposes:

1. To elect five directors for terms expiring in 2011; and
2. To transact such other business as may properly come before the Annual Meeting or any adjournment or postponement of the Annual Meeting.

Only stockholders of record at the close of business on April 16, 2010 may vote at the Annual Meeting. Your vote is important. Whether you plan to attend the Annual Meeting or not, **please cast your vote by completing, dating and signing the enclosed proxy card and returning it via mail to the address indicated.** If you attend the meeting and prefer to vote in person, you may do so even if you have previously voted by proxy.

By Order of the Board of Directors,

TRAVELZOO INC.

WAYNE LEE
Corporate Secretary

**PROXY STATEMENT
FOR THE TRAVELZOO INC.
2010 ANNUAL MEETING OF STOCKHOLDERS
INFORMATION ABOUT THE ANNUAL MEETING**

Why am I receiving these proxy materials?

Travelzoo's Board of Directors is soliciting proxies to be voted at the 2010 Annual Meeting of Stockholders. This proxy statement includes information about the issues to be voted upon at the meeting.

On or about May 7, 2010, we intend to mail and send electronically these proxy materials to all stockholders of record at the close of business on April 16, 2010. On the record date, there were 16,443,828 shares of our common stock outstanding.

Where and when is the Annual Meeting?

The Annual Meeting of Stockholders will take place on June 3, 2010 at 590 Madison Avenue, 37th Floor, New York, New York 10022. The meeting will begin at 10:00 a.m. local time.

What am I voting on?

We are asking our stockholders to elect five directors.

How many votes do I have?

You have one vote for each share of our common stock that you owned at the close of business on April 16, 2010, the record date. These shares include:

- Shares held directly in your name as the "stockholder of record" and
- Shares held for you as the beneficial owner through a broker, bank, or other nominee in "street name."

If I am a stockholder of record, how can I vote my shares?

You can vote by proxy or in person.

How do I vote by proxy?

If you are a stockholder of record, you may vote your proxy by mail. If you receive a paper copy of the Proxy Statement, simply mark the enclosed proxy card, date and sign it, and return it in the postage paid envelope provided. If you receive the Proxy Statement via e-mail, please print the attached proxy card, date and sign it, and return it via mail to Travelzoo Inc., Attention: Corporate Secretary, 590 Madison Avenue, 37th Floor, New York, New York 10022.

If you vote by proxy, the persons named on the card (your "proxies") will vote your shares in the manner you indicate. You may specify whether your shares should be voted for all, some or none of the nominees for director or any other proposals properly brought before the Annual Meeting. If you sign your proxy card and do not indicate specific choices, your shares will be voted "FOR" the election of all nominees for director. If any other matter is properly brought before the meeting, your proxies will vote in accordance with their best judgment. At the time of submitting this Proxy Statement for printing, we knew of no matter that will be acted on at the Annual Meeting other than those discussed in this Proxy Statement.

If you wish to give a proxy to someone other than the persons named on the enclosed proxy card, you may strike out the names appearing on the card and write in the name of any other person, sign the proxy, and deliver it to the person whose name has been substituted.

May I revoke my proxy?

If you give a proxy, you may revoke it in any one of three ways:

- Submit a valid, later-dated proxy before the Annual Meeting,
- Notify our Corporate Secretary in writing before the Annual Meeting that you have revoked your proxy, or
- Vote in person at the Annual Meeting.

How do I vote in person?

If you are a stockholder of record, you may cast your vote in person at the Annual Meeting.

If I hold shares in street name, how can I vote my shares?

You can submit voting instructions to your broker or nominee. In most instances, you will be able to do this over the Internet or by mail. Please refer to the voting instruction card included in the materials provided by your broker or nominee.

What vote is required to approve each proposal?

Each share of our common stock is entitled to one vote with respect to each matter on which it is entitled to vote. Our directors are elected by a plurality of votes, which means that the nominees who receive the greatest number of votes will be elected. Under our bylaws, a majority of the shares present at the meeting in person or by proxy is required for approval of all other items.

In order to have a valid stockholder vote, a stockholder quorum must exist at the Annual Meeting. A quorum will exist when stockholders holding a majority of the outstanding shares of our stock are present at the meeting, either in person or by proxy.

If a broker indicates on its proxy that it does not have authority to vote certain shares held in “street name” on particular proposals, the shares not voted (“broker non-votes”) will not have any effect with respect to such proposals. Broker non-votes occur when brokers do not have discretionary voting authority on certain proposals and the beneficial owner has not instructed the broker how to vote on these proposals.

Azzurro Capital Inc., whose beneficial owner is Ralph Bartel, holds an aggregate of 10,900,489 shares of our common stock, representing approximately 66% of the outstanding shares, as of March 31, 2010. Azzurro Capital Inc. has indicated that it intends to vote in favor of all of the director nominees.

Who is paying the costs of soliciting these proxies?

We are paying the cost of preparing, printing, mailing and otherwise distributing these proxy materials. We will reimburse banks, brokerage firms, and others for their reasonable expenses in forwarding proxy materials to beneficial owners and obtaining their instructions. A few of our officers and employees may also participate in the solicitation, without additional compensation, by telephone, e-mail, other electronic means, or in person.

Where can I find the voting results of the meeting?

We intend to announce preliminary voting results at the meeting. We will publish the final results in a report on Form 8-K, which we intend to file on or before June 7, 2010. You can obtain a copy of the Form 8-K by logging on to Travelzoo’s investor relations Web site at www.travelzoo.com/ir, by calling the Securities and Exchange Commission at (800) SEC-0330 for the location of the nearest public reference room, or through the EDGAR system at www.sec.gov. Information on our Web site does not constitute part of this proxy statement.

ELECTION OF DIRECTORS (PROXY ITEM NO. 1)

Under Travelzoo’s bylaws, the number of directors of Travelzoo is fixed, and may be increased or decreased from time to time, by resolution of the Board of Directors. Each director holds office for a term of one year, until the annual meeting of stockholders next succeeding the director’s election and until a successor is elected and qualified or until the earlier resignation or removal of the director. Holger Bartel, Ralph Bartel, David J. Ehrlich, Donovan Neale-May, and Kelly M. Urso are currently directors of Travelzoo.

Nominees for a One-Year Term That Will Expire in 2011:

The ages, principal occupations, directorships held and other information as of March 31, 2010, with respect to our nominees are shown below.

<u>Name</u>	<u>Age</u>	<u>Position</u>
Holger Bartel, Ph.D.	43	Director and Chief Executive Officer
Ralph Bartel, Ph.D.(2)	44	Chairman of the Board of Directors
David J. Ehrlich(1).	47	Director
Donovan Neale-May(1)(3)	57	Director
Kelly M. Urso(1)(2)(3).	44	Director

- (1) Member of the Audit Committee
- (2) Member of the Compensation Committee
- (3) Member of the Disclosure Committee

Each of the director nominees listed above was elected to be a director at the Company’s Annual Meeting of Stockholders held on June 4, 2009. Our Board of Directors has determined that each of Mr. Ehrlich, Mr. Neale-May, and Ms. Urso meet the independence requirements of the listing standards of the NASDAQ Stock Market (the “NASDAQ”).

Holger Bartel, Ph.D., has served as a Director since June 2005. Mr. Bartel has served as Chief Executive Officer since October 2008, after serving as Executive Vice President from September 1999 to November 2007. From 1995 to 1998, Mr. Bartel worked as an Engagement Manager at McKinsey & Company in Los Angeles. From 1992 to 1994, Mr. Bartel was a research fellow at Harvard Business School. Mr. Bartel holds a Ph.D. in Economics and an MBA in Finance and Accounting from the University of St. Gallen, Switzerland. He is the brother of Ralph Bartel.

Areas of Holger Bartel’s relevant experience: Deep knowledge of Travelzoo’s operations. Internet, strategy, management of growth companies, travel, international management.

Ralph Bartel, Ph.D., founded Travelzoo in 1998 and has served as Chairman of the Board of Directors since inception. From May 1998 to September 2008, Mr. Bartel served as Travelzoo’s Chief Executive Officer and President. Mr. Bartel is a professionally trained journalist who also holds a Ph.D. in Communications from the University of Mainz, Germany, a Master’s degree in Journalism from the University of Eichstaett, Germany, and a Ph.D. in Economics and an MBA in Finance and Accounting from the University of St. Gallen, Switzerland. He is the brother of Holger Bartel.

Areas of Ralph Bartel’s relevant experience: Media, journalism, Internet, finance, start-up experience.

David J. Ehrlich has served as a Director since February 1999. From March 2007 to January 2010, Mr. Ehrlich served as Chief Executive Officer of ParAccel, Inc., a technology company. From 2003 to 2006, Mr. Ehrlich was Senior Vice President, Marketing and Chief Strategy Officer of NetIQ Corporation. From 1998 to 2002, Mr. Ehrlich was Vice President, Product Management and Strategic Partnering for Visual Networks, Inc. From 1993 to 1998, Mr. Ehrlich worked as a consultant for McKinsey & Company. Mr. Ehrlich holds a bachelor’s degree in Sociology from Stanford University, a Master’s degree in Industrial Engineering from Stanford University, and an MBA from Harvard Business School.

Areas of Mr. Ehrlich’s relevant experience: Technology, corporate development, mergers & acquisitions.

Donovan Neale-May has served as a Director since February 1999. Mr. Neale-May is the president and managing partner of GlobalFluency, Inc., a global organization of independent marketing and communication firms with 70 offices in over 40 countries. Since 1987, Mr. Neale-May has been managing and running his own marketing and public relations agency business, Neale-May & Partners, operating from Silicon Valley and New York offices. Previously, Mr. Neale-May held senior positions with marketing, promotions and public relations agencies, such as Ogilvy & Mather, in Silicon Valley, New York, London and Los Angeles. During his 30 years as an international marketing and brand strategist, Mr. Neale-May has consulted with over 300 leading multi-nationals, new venture starts and emerging growth companies. Mr. Neale-May is the founder and executive director of the Chief Marketing Officer (CMO) Council, a global affinity network of more than 3,000 senior marketing and branding executives. Mr. Neale-May is a journalism graduate of Rhodes University in South Africa and serves on the board of trustees for the Rhodes University Trust, USA.

Areas of Mr. Neale-May’s relevant experience: Brand strategy, public relations, marketing, international management.

Kelly M. Urso has served as a Director since February 1999. Since 2003, Ms. Urso has been a principal at K. M. Urso & Company, LLC, a firm that provides U.S. and international tax consulting and compliance services. From 2001 to 2003, Ms. Urso was a tax attorney with Reynolds & Rowella LLP. From 1997 to 2001, Ms. Urso was the leader of the expatriate tax group at General Electric International, Inc. Ms. Urso holds a bachelor’s degree in business administration from the University of Cincinnati and a Juris Doctor degree from the Thomas M. Cooley Law School in Lansing, Michigan.

Areas of Ms. Urso’s relevant experience: Tax planning, tax compliance, international management.

The Board of Directors is not aware that any nominee named in this Proxy Statement is unwilling or unable to serve as a director. If, however, a nominee is unavailable for election, your proxy authorizes the named designees to vote for a replacement nominee if the Board of Directors names one.

YOUR BOARD OF DIRECTORS RECOMMENDS A VOTE “FOR” THESE NOMINEES.

The Board of Directors believes that each director nominee possesses the qualities and experience it believe that nominees should possess. The Board of Directors seeks out, and the Board of Directors is comprised of, individuals whose background and experience complement those of other Board members.

Board Meetings and Committees

The Board of Directors has appointed an Audit Committee, a Compensation Committee, and a Disclosure Committee. Below is a table indicating the membership of each of the Audit Committee, Compensation Committee, and Disclosure Committee and how many times the Board of Directors and each such committee met in fiscal year 2009. Each of Mr. Ralph Bartel, Mr. Holger Bartel, Mr. Ehrlich, Mr. Neale-May, and Ms. Urso attended at least 75 percent of the total number of meetings of the Board of Directors and of the committees on which he or she serves.

	<u>Board</u>	<u>Audit</u>	<u>Compensation</u>	<u>Disclosure</u>
Mr. Holger Bartel	Member			
Mr. Ralph Bartel	Chair		Member	
Mr. Ehrlich	Member	Chair		
Mr. Neale-May	Member	Member		Member
Ms. Urso	Member	Member	Chair	Chair
Number of 2009 Meetings	4	5	1	4

The Company does not require that directors attend the Annual Meeting. Mr. Ralph Bartel attended the 2009 Annual Meeting.

Audit Committee

The Audit Committee's primary responsibilities are to oversee and monitor (i) the integrity of Travelzoo's financial statements, (ii) the qualifications and independence of our independent registered public accounting firm, (iii) the performance of our independent registered public accounting firm and internal audit staff, and (iv) the compliance by Travelzoo with legal and regulatory requirements. A complete description of the committee's responsibilities is set forth in its written charter. A copy the written charter can be found in Appendix A of our 2008 Proxy Statement. The Audit Committee is responsible for appointing the independent registered public accounting firm and is directly responsible for the compensation and oversight of the work of our independent registered public accounting firm. The Audit Committee is composed solely of independent directors as defined in the listing standards of the NASDAQ. The Board has determined that Mr. Neale-May qualifies as an audit committee financial expert within the meaning of the regulations of the Securities and Exchange Commission ("SEC").

Compensation Committee

The Compensation Committee reviews and approves the compensation and benefits for the Company's executive officers and directors, and makes recommendations to the Board of Directors regarding such matters. The Compensation Committee also approves the Company's non-equity incentive plans. The Compensation Committee further reviews and discusses with management the Compensation Discussion and Analysis section of this Proxy Statement. The Compensation Committee does not have a charter. The Report of the Compensation Committee is included on page 14. The Company is not required to have a Compensation Committee consisting entirely of independent directors since it is a "Controlled Company" under NASDAQ Rule 5615(c), on account of the stock ownership by Azzurro Capital Inc.

Disclosure Committee

The Disclosure Committee's primary responsibilities are (i) to design, establish and evaluate controls and other procedures that are designed to ensure the accuracy and timely disclosure of information to the SEC and investment community and (ii) to review and supervise preparation of all SEC filings, press releases and other broadly disseminated correspondence.

Nominating Committee

Travelzoo does not have a nominating committee of the Board of Directors. Since it is a "Controlled Company" as referred to above, such a committee is not required. Through its share ownership, Azzurro Capital Inc. is in a position to control Travelzoo and to elect our entire Board of Directors. Azzurro Capital Inc. considers candidates for director nominees.

The Board's Role in Risk Oversight

The full Board oversees enterprise risk as part of its role in reviewing and overseeing the implementation of the Company's strategic plans and objectives. The risk oversight function is administered both in full Board discussions and in individual committees that are tasked by the Board with oversight of specific risks. On a regular basis, the Board and its committees receive information and reports from management on the status of the Company and the risks associated with the Company's strategy and business plans. In addition, the Audit Committee reviews the Company's risk assessment and risk management policies and procedures at least annually, including steps taken to monitor and control such exposures. The Board believes the continuity of Board membership, as well as the independent directors constituting a majority of the Board and separation of the roles of Chairman and Chief Executive Officer, encourage open discussion and assessment of the Company's ability to manage its risks.

Communications With Directors

The board has established a process to receive communications from stockholders. Stockholders and other interested parties may contact any member (or all members) of the board, or the non-management directors as a group, any board committee or any chair of any such committee by mail. To communicate with the Board of Directors, any individual directors or any group or committee of directors, correspondence should be addressed to the Board of Directors or any such individual directors or group or committee of directors by either name or title. All

such correspondence should be sent “c/o Corporate Secretary” at Travelzoo Inc., 590 Madison Avenue, 37th Floor, New York, NY 10022.

All communications received as set forth in the preceding paragraph will be opened by the Corporate Secretary for the sole purpose of determining whether the contents represent a message to our directors. Any contents that are not in the nature of advertising, promotions of a product or service, patently offensive material or matters deemed inappropriate for the Board of Directors will be forwarded promptly to the addressee. In the case of communications to the board or any group or committee of directors, the Corporate Secretary will make sufficient copies of the contents to send to each director who is a member of the group or committee to which the correspondence is addressed.

Audit Committee Report

The information contained in this report shall not be deemed to be “soliciting material” or “filed” with the SEC or subject to the liabilities of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), except to the extent that Travelzoo specifically incorporates it by reference into a document filed under the Securities Act of 1933, as amended (the “Securities Act”) or the Exchange Act.

The Audit Committee oversees Travelzoo’s financial reporting process on behalf of the Board of Directors. Management is primarily responsible for the financial statements and reporting processes including the systems of internal controls, while the independent auditors are responsible for performing an independent audit of Travelzoo’s consolidated financial statements in accordance with auditing standards of the Public Company Accounting Oversight Board (“PCAOB”), and expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States.

In this context, the committee has met and held discussions with management and the independent auditors regarding the Company’s audited consolidated financial statements for the fiscal year ended December 31, 2009. The committee discussed with Travelzoo’s independent auditors the overall scope and plan for their audit. The committee met, at least quarterly, with the independent auditors, with and without management present, and discussed the results of their examinations, their evaluations of Travelzoo’s internal controls, and the overall quality of Travelzoo’s financial reporting. Management represented to the committee that Travelzoo’s consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States. The committee has reviewed and discussed the consolidated financial statements with management and the independent auditors, including their judgments as to the quality, not just the acceptability, of Travelzoo’s accounting principles and such other matters as are required to be discussed with the committee under auditing standards of the PCAOB.

Travelzoo’s independent auditors also provided to the committee the written disclosures required by applicable requirements of the PCAOB regarding the independent accountant’s communications with the audit committee concerning independence, and the committee discussed with the independent auditors that firm’s independence, including those matters required to be discussed by Statement on Auditing Standards No. 61, as amended.

In reliance on the reviews and discussions referred to above, the committee recommended to the Board of Directors (and the Board of Directors has approved) that the audited financial statements be included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2009 filed with the SEC. The committee has not yet selected Travelzoo’s independent auditors for fiscal year 2010.

While the committee has the responsibilities and powers set forth in its charter, it is not the duty of the committee to plan or conduct audits or to determine that Travelzoo’s financial statements are complete and accurate and are in accordance with generally accepted accounting principles. This is the responsibility of management and the independent auditors. Nor is it the duty of the committee to conduct investigations or to assure compliance with laws and regulations or Travelzoo’s business conduct policies.

Audit Committee

David J. Ehrlich (*Chair*)
Donovan Neale-May
Kelly M. Urso

Director Compensation

Directors who are employed by the Company or its subsidiaries do not receive compensation for serving as directors. Directors who are not employees of the Company or its subsidiaries are entitled to receive certain retainers and fees. On June 6, 2009, the Compensation Committee reviewed its director compensation policy and determined that no adjustments to this director compensation policy were necessary. The retainers and meeting fees are as follows:

- Annual board member retainer — \$30,000;
- Annual Audit Committee chair retainer — \$30,000;
- Fee for attendance of a board meeting — \$1,680;
- Fee for attendance of an Audit Committee meeting — \$2,800;
- Fee for attendance of a Disclosure Committee meeting — \$1,680;
- Fee for attendance of a Compensation Committee meeting — \$2,800; and
- Fee for attendance of a strategy meeting — \$4,480.

We reimburse non-employee directors for out-of-pocket expenses incurred in connection with attending meetings.

Mr. Ralph Bartel chose not to receive any compensation for his services.

The following table shows compensation information for Travelzoo’s non-employee directors for fiscal year ended December 31, 2009.

<u>Name</u>	<u>Fees Earned or Paid in Cash (\$)</u>	<u>Total (\$)</u>
Mr. Ralph Bartel	—	—
Mr. Ehrlich	80,720	80,720
Mr. Neale-May	57,440	57,440
Ms. Urso	57,440	57,440

Security Ownership of Certain Beneficial Owners and Management

The following table shows the amount of our common stock beneficially owned as of March 31, 2010 by (a) each director and nominee, (b) each named executive officer, (c) all executive officers and directors as a group, and (d) each person known by the Company, as of December 31, 2009, to beneficially own more than 5% of the outstanding shares of common stock of the Company. In general, shares “beneficially owned” include those shares a person has or shares the power to vote, or the power to dispose of.

<u>Beneficial Owner</u>	<u>Beneficial Ownership</u>	
	<u>Number of Shares(1)</u>	<u>Percent of Total(2)</u>
Directors and Named Executive Officers		
Holger Bartel	—	—
Ralph Bartel(3)	10,900,489	66.3%
David J. Ehrlich	—	—
Wayne Lee	1,500	*
Christopher Loughlin	12,540	*
Donovan Neale-May	—	—
Max Rayner	—	—
Shirley Tafoya	—	—
Kelly M. Urso(4)	17,725	*
Directors and executive officers as a group (9 persons)(4)	10,932,254	66.5%
Persons Owning More Than 5% of Common Stock		
JPMorgan Chase & Co.(5). 270 Park Avenue New York, New York 10017	1,624,622	9.9%

* Less than 1%

- (1) Except as otherwise indicated and subject to applicable community property laws, the persons named in the table have sole voting and investment power with respect to all their shares of common stock.
- (2) For each person and group indicated in this table, percentage ownership is calculated by dividing the number of shares beneficially owned by such person or group by the sum of 16,443,828 shares of common stock outstanding as of March 31, 2010, plus the number of shares of common stock that such person or group had the right to acquire within 60 days after March 31, 2010.
- (3) Ralph Bartel indirectly holds 100% of Azzurro Capital Inc., which is the holder of 10,900,489 shares, through the Ralph Bartel 2005 Trust.
- (4) Consists of options to purchase 17,725 shares which are currently exercisable or will be exercisable within 60 days of March 31, 2010.
- (5) Based solely on information reported on a Schedule 13G/A filed with the SEC on January 22, 2010 by JPMorgan Chase & Co. As of December 31, 2009, 1,624,622 shares were beneficially held by JPMorgan Chase & Co. of which it possessed sole voting power to 1,504,751 shares and sole dispositive power to 1,622,522 shares.

Section 16(a) Beneficial Ownership Reporting Compliance

Under Section 16(a) of the Securities Exchange Act of 1934, the Company’s directors, executive officers and the beneficial holders of more than 10% of the Company’s common stock are required to file reports of ownership and changes in ownership with the SEC. Such directors, executive officers and beneficial holders of more than 10% of the Company’s common stock are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file.

To the Company’s knowledge, based solely on a review of the copies of such forms furnished to the Company or written representations from reporting persons, during fiscal 2009, all Section 16(a) filing requirements were satisfied on a timely basis.

Code of Ethics

We have adopted a code of ethics that applies to our Chief Executive Officer and our Chief Financial Officer, who also serves as our principal accounting officer. This code of ethics is posted on our Web site located at corporate.travelzoo.com/governance. We intend to satisfy the disclosure requirement under Item 10 of Form 8-K regarding an amendment to, or waiver from, a provision of this code of ethics by posting such information on our Web site, at the address and location specified above. A copy of the code of ethics is also available in print to stockholders and interested parties without charge upon written request delivered to our Corporate Secretary at Travelzoo Inc., 590 Madison Avenue, 37th Floor, New York, NY 10022.

Executive Compensation

Compensation Discussion and Analysis

Overview of Compensation Program

The following Compensation Discussion and Analysis, or “CD&A,” describes our overall compensation philosophy and the primary components of our compensation program. Furthermore, the CD&A explains the process by which the Compensation Committee, or “Committee”, determined the 2009 compensation for our Chief Executive Officer, Chief Financial Officer and other most highly compensated officers. We refer to these individuals collectively as the “named executives” or the “named executive officers.”

Compensation Philosophy and Objectives

The fundamental objectives of our executive compensation program are to attract and retain highly qualified executive officers, motivate these executive officers to materially contribute to our long-term business success, and align the interests of our executive officers and stockholders by rewarding our executives for individual and corporate performance based on targets established by the Committee.

We believe that achievement of these compensation program objectives enhances long-term profitability and stockholder value. The elements utilized to help achieve the Committee’s objectives include the following:

- *Accountability for Individual Performance.* Compensation should in large part depend on the named executive’s individual performance in order to motivate and acknowledge the key contributors to our success.
- *Recognition for Business Performance.* Compensation should take into consideration our overall financial performance and overall growth.
- *Attracting and Retaining Talented Executives.* Compensation should generally reflect the competitive marketplace and be designed to attract and retain superior employees in key competitive positions.

We implement our compensation philosophy through setting base salaries for our executive officers, through the use of our executive bonus plan and through reviewing and approving other terms of employment agreements.

Compensation Determination Process

Compensation Committee Members. The Committee is responsible for establishing, overseeing and reviewing executive compensation policies and for approving, validating and benchmarking the compensation and benefits for named executive officers. The Committee is also responsible for determining the fees paid to our outside directors. The Committee includes Ms. Kelly M. Urso (Chair) and Mr. Ralph Bartel. Ms. Urso satisfies the independence requirements of the NASDAQ. The Compensation Committee does not have a charter.

Role of Management. During 2009, the Committee engaged in its annual review of executive compensation with the goal of ensuring the appropriate combination of fixed and variable compensation linked to individual and corporate performance. In the course of its review, the Committee considered the advice and input of the Company’s CEO and data prepared by management, including a comparison of the current compensation of the named executive officers with publicly available industry data from *The Wall Street Journal*. *The Wall Street Journal* data utilized by the Committee included salary and total compensation information based on the title, job description,

and geographic location of similarly situated executives. The most significant aspects of the CEO's role in the compensation determination process are evaluating employee performance, establishing business performance targets, goals and objectives and recommending salary and bonus levels. The CEO does not participate in discussions regarding his compensation.

The Committee compared the compensation received by the Company's named executive officers with the levels of compensation received by similarly situated executives in the same geographic location in light of the named executives' responsibilities, performance, experience and tenure, in order to arrive at the total compensation package for each of the named executive officers. In some cases, the compensation package that the Committee awarded a named executive officer was at or below the median compensation received by executives per *The Wall Street Journal* data, while in other instances the compensation was higher due to the executive's responsibilities, performance, experience and tenure.

The Committee did not engage an outside consulting firm to provide advice on executive compensation.

Components of Executive Compensation

The Committee has structured an executive compensation program comprised of base salary, cash bonus and non-equity incentive pay.

Base Salary. The Committee considered two types of potential base salary increases for the named executive officers in 2009: (1) "merit increases" based upon each named executive's individual performance; and/or (2) "market adjustments" based upon the salary range for similarly situated executives.

In determining merit increases, the Committee considers the specific responsibilities of the executive and the executive's overall performance and tenure with the Company. In addition, the Committee also considers the CEO's evaluation of each named executive officer in making the decision regarding merit increases.

The Committee determines any market adjustments based on the Committee's comparison of the executive's compensation with statistical information on average compensation for similarly situated executives that is publicly available through *The Wall Street Journal*.

The Committee did not make any changes to the salaries of Mr. Holger Bartel, Mr. Wayne Lee or Ms. Shirley Tafoya in 2009. In 2009, the Committee increased the annual salary of Mr. Max Rayner from \$450,000 to \$517,500. In 2009, the Committee also reviewed and approved the compensation components of a new employment agreement with Mr. Christopher Loughlin, pursuant to which he will become the Company's Chief Executive Officer beginning on July 1, 2010. Pursuant to the terms of the employment agreement, which was entered into on November 18, 2009, Mr. Loughlin's annual salary will increase from \$324,418 to \$550,000 beginning on July 1, 2010.

Executive Bonus Plan. We believe that the Executive Bonus Plan provides the Company with a valuable tool to assist in focusing executives on accomplishing operational and financial objectives over the Company's quarterly periods. The plan is designed to reward the Company's executives for achieving their quarterly targets as set in the Company's operating budget.

On April 6, 2007, the Committee adopted the North America Executive Bonus Plan, as amended and restated effective as of January 1, 2007, and determined that Ms. Shirley Tafoya, and of the named executive officers, Mr. Ralph Bartel and Mr. Wayne Lee, would be eligible to participate in the North America Executive Bonus Plan. Mr. Max Rayner was eligible to participate in the North Executive Bonus Plan per the terms of his employment agreement. Ms. Tafoya, Mr. Bartel, Mr. Lee and Mr. Rayner are collectively referred to in this section as the "participating executives." The North America Executive Bonus Plan was discontinued on September 23, 2008.

From January 1, 2007 through June 30, 2008, the participating executives were eligible to receive a bonus of \$50,000 per quarter upon the attainment of all of the following goals as set forth in the Company's operating budget:

- 100% of Revenue target;
- 100% of Pro Forma Operating Income target;

- 100% of the U.S. Top 20 Subscribers target;
- 100% of the Canada Top 20 Subscribers target; and
- There are not more than two customers that account for 10% or more of the Company's worldwide consolidated revenues for the quarter and no single customer accounts for more than 17% of the Company's worldwide consolidated revenues for the quarter.

If one or more of the above targets were not met, the participating executives were eligible to receive a bonus of \$25,000 per quarter upon attainment of all of the following goals as set forth in the Company's operating budget:

- 98% of Revenue target;
- 90% of Pro Forma Operating Income target;
- Within 50,000 subscribers of achieving the U.S. Top 20 Subscribers target or exceeding the target;
- Within 25,000 subscribers of achieving the Canada Top 20 Subscribers target or exceeding the target; and
- There are not more than two customers that account for 10% or more of the Company's worldwide consolidated revenues for the quarter and no single customer accounts for more than 17% of the Company's worldwide consolidated revenues for the quarter.

The Company's operating budget relates to the Company's operations in North America, is set at the beginning of the year by the CEO and provides quarterly targets for revenues, operating expenses, operating income, net income, subscribers, headcount, and other financial and non-financial performance metrics. The Company reserves the right to amend the Annual Operating Budget at any time and for any reason. The quarterly targets were not met for the first and second quarters of 2008 and no bonuses were paid to the participating executives. The North America Executive Bonus Plan was discontinued as of the end of the second quarter of 2008.

Other Incentive Bonus Pay. In 2008 and 2009, Mr. Holger Bartel, Mr. Christopher Loughlin, Mr. Wayne Lee, and Mr. Max Rayner also received incentive bonuses pursuant to the terms of their employment agreements.

Pursuant to the terms of Mr. Holger Bartel's employment agreement dated September 17, 2008 and effective October 1, 2008, Mr. Bartel is eligible to receive a quarterly Performance Bonus and a quarterly Discretionary Bonus. The quarterly Performance Bonus is calculated as follows:

<u>Criteria</u>	<u>Quarterly Bonus Payment</u>
Worldwide revenue target for the quarter met AND there are no more than two Significant Customers AND no Significant Customer accounts for 17% or more of Worldwide consolidated revenue for the quarter	\$20,000
Worldwide operating income target for the quarter met	\$20,000
Worldwide subscriber target for the quarter met	<u>\$20,000</u>
Total maximum Performance Bonus per quarter	<u>\$60,000</u>

The quarterly target for worldwide revenue was met for the first quarter of 2009. The quarterly targets for worldwide operating income were met for the first and second quarters of 2009. The quarterly targets for worldwide subscribers were met for the first, second, third, and fourth quarters of 2009. Mr. Bartel received Performance Bonuses totaling \$140,000 for 2009. For 2009 Mr. Bartel received 58% of the maximum Performance Bonus. The Company believes that targets set for worldwide revenue, worldwide operating income and worldwide subscribers align with the Company's desire to continue to grow the business. Since the individual targets are intended to be challenging, and since the separate targets related to different aspects of the Company's performance, it is expected it will be difficult for all the targets to be achieved for any given year.

Mr. Bartel is also eligible to receive a quarterly Discretionary Bonus of up to \$20,000 per quarter. The Discretionary Bonus is to be determined by the Compensation Committee at its sole and absolute discretion. In exercising such discretion, the Compensation Committee will take into consideration Mr. Bartel's individual performance. In evaluating Mr. Bartel's individual performance during 2009, the Compensation Committee

considered factors such as the quality of Mr. Bartel’s strategic management to ensure the long-term success of the Company, the development of the Company’s leadership talent, the quality of the content of the Company’s publications, and the development of the Travelzoo brand. Mr. Bartel received Discretionary Bonuses totaling \$70,000 for 2009.

Pursuant to the terms of Mr. Loughlin’s employment agreement dated May 16, 2005, as amended on July 12, 2006 and as amended on July 1, 2007, Mr. Loughlin is eligible to receive quarterly and annual bonuses. Mr. Loughlin’s bonuses are payable in British pounds and have been translated into U.S. dollars (at the rate of £1 = \$1.5597) for the purposes of this summary. Mr. Loughlin is eligible to receive the following quarterly bonuses:

<u>Criteria</u>	<u>Quarterly Bonus Payment</u>
Revenue goal as defined in the official budget for Europe is met	\$ 11,698
Net income goal as defined in the official budget for Europe is met	\$ 11,698
Subscriber goal as defined in the official budget for Europe is met	\$ 11,698
Performance evaluation by the Chairman of the Company	<u>Up to \$11,698</u>
Total maximum bonus per quarter	<u>Up to \$46,792</u>

Under the terms of the annual bonus plan set forth in Mr. Loughlin’s employment agreement, Mr. Loughlin is eligible to receive 20% of Travelzoo Europe’s pro forma operating income generated from operations in the U.K., Germany and France until December 31, 2009 and is eligible to receive 10% of Travelzoo Europe’s pro forma operating income generated from operations in the U.K., Germany and France from January 1, 2010 to June 30, 2010 and such amounts are not capped. The quarterly revenue goals were not met during 2009. The quarterly net income goals were met for the first and second quarters of 2009. The quarterly subscriber goals were met for the second, third, and fourth quarters of 2009. Mr. Loughlin was paid 100% of his quarterly performance evaluation bonus in 2009. In determining the quarterly performance evaluation bonus for 2009, the Chairman of the Company considered factors such as the quality of Mr. Loughlin’s strategic management to ensure the long-term success of the Company’s business in Europe, the development of the Company’s talent in Europe, the quality of the content of the Company’s publications in Europe, and the development of the Travelzoo brand in Europe. In 2009, Mr. Loughlin received \$105,282 and \$719,423 pursuant to the quarterly and annual bonus plans, respectively, set forth in his employment agreement.

Pursuant to the terms of Mr. Lee’s employment agreement as amended on September 23, 2008, Mr. Lee is eligible to receive a quarterly Performance Bonus and a quarterly Discretionary Bonus. The quarterly Performance Bonus is calculated as follows:

<u>Criteria</u>	<u>Quarterly Bonus Payment</u>
Worldwide revenue target for the quarter met AND there are no more than two Significant Customers AND no Significant Customer accounts for 17% or more of Worldwide consolidated revenue for the quarter	\$15,000
Worldwide operating income target for the quarter met	\$15,000
Worldwide subscriber target for the quarter met	<u>\$15,000</u>
Total maximum Performance Bonus per quarter	<u>\$45,000</u>

The quarterly target for worldwide revenue was met for the first quarter of 2009. The quarterly targets for worldwide operating income were met for the first and second quarters of 2009. The quarterly targets for worldwide subscribers were met for the first, second, third, and fourth quarters of 2009. Mr. Lee received Performance Bonuses totaling \$105,000 for 2009. For 2009 Mr. Lee received 58% of the maximum Performance Bonus. The Company believes that targets set for worldwide revenue, worldwide operating income and worldwide subscribers align with the Company’s desire to continue to grow the business. Since the individual targets are intended to be challenging, and since the separate targets related to different aspects of the Company’s performance, it is expected it will be difficult for all the targets to be achieved for any given year.

Mr. Lee is also eligible to receive a quarterly Discretionary Bonus of up to \$15,000 per quarter. The Discretionary Bonus is to be determined by the Chief Executive Officer in his sole and absolute discretion. In exercising such discretion, the Chief Executive Officer will take into consideration Mr. Lee's individual performance. In evaluating Mr. Lee's individual performance during 2009, the Chief Executive Officer considered factors such as Mr. Lee's role as an advisor to the CEO on how to improve the Company's financial performance, his initiatives to improve the Company's management information systems, his leadership in the areas of corporate governance and business ethics, and the quality of his management of the Company's relationships with the investment community. Mr. Lee received Discretionary Bonuses totaling \$41,250 for 2009.

Pursuant to the terms of Mr. Rayner's employment agreement dated November 5, 2007 and as amended on September 23, 2008, Mr. Rayner is eligible to receive a quarterly Performance Bonus and a quarterly Discretionary Bonus. The quarterly Performance Bonus is calculated as follows:

<u>Criteria</u>	<u>Quarterly Bonus Payment</u>
Worldwide revenue target for the quarter met AND there are no more than two Significant Customers AND no Significant Customer accounts for 17% or more of Worldwide consolidated revenue for the quarter	\$20,000
Worldwide operating income target for the quarter met	\$20,000
Worldwide subscriber target for the quarter met	<u>\$20,000</u>
Total maximum Performance Bonus per quarter	<u>\$60,000</u>

The quarterly target for worldwide revenue was met for the first quarter of 2009. The quarterly targets for worldwide operating income were met for the first and second quarters of 2009. The quarterly targets for worldwide subscribers were met for the first, second, third, and fourth quarters of 2009. Mr. Rayner received Performance Bonuses totaling \$140,000 for 2009. For 2009 Mr. Rayner received 58% of the maximum Performance Bonus. The Company believes that targets set for worldwide revenue, worldwide operating income and worldwide subscribers align with the Company's desire to continue to grow the business. Since the individual targets are intended to be challenging, and since the separate targets related to different aspects of the Company's performance, it is expected it will be difficult for all the targets to be achieved for any given year.

Mr. Rayner is also eligible to receive a quarterly Discretionary Bonus of up to \$50,000 per quarter. The Discretionary Bonus is to be determined by the Chief Executive Officer in his sole and absolute discretion. In exercising such discretion, the Chief Executive Officer will take into consideration Mr. Rayner's individual performance. In evaluating Mr. Rayner's individual performance during 2009, the Chief Executive Officer considered factors such as the quality of the Company's product development and the quality and speed at which the Company, under Mr. Rayner's leadership, adapts to important new technology developments. Mr. Rayner received Discretionary Bonuses totaling \$82,500 for 2009.

Ms. Tafoya received quarterly discretionary bonuses totaling \$242,500 for 2009. The discretionary bonus was determined by the Chief Executive Officer in his sole and absolute discretion. In exercising such discretion, the Chief Executive Officer considered Ms. Tafoya's individual performance. Of the \$242,500 discretionary bonus for 2009, \$175,000 was based on meeting revenue, operating income and subscriber targets for North America. The remaining discretionary bonus was paid based on the Chief Executive Officer's consideration of factors such as the quality of Ms. Tafoya's business development in North America

Other Compensation-Related Matters

Perquisites and Additional Benefits. The Company seeks to maintain an open and inclusive culture in its facilities and operations among executives and other Company employees. Accordingly, the Company does not provide executives with reserved parking spaces or separate dining or other facilities, nor does the Company have programs for providing personal-benefit perquisites to executives, such as permanent lodging, club dues or defraying the cost of personal entertainment. Named executive officers and employees may seek reimbursement for business related expenses in accordance with our business expense reimbursement policy.

Employment Agreements. The Company has entered into employment agreements with the named executive officers, some of which contain severance and change of control provisions. The terms of such employment agreements are described in more detail below in *Employment Agreements and Potential Payments Upon Termination or Change-in-Control*. The Committee believes these agreements are appropriate for a number of reasons, including the following:

- the agreements assist in attracting and retaining executives as we compete for talented employees in a marketplace where such agreements are commonly offered;
- the change in control provisions require terminated executives to execute a release in order to receive severance benefits; and
- the change in control and severance provisions help retain key personnel during rumored or actual acquisitions or similar corporate changes.

Compensation Committee Report

The information contained in this report shall not be deemed to be “soliciting material” or “filed” with the SEC or subject to the liabilities of Section 18 of the Exchange Act, except to the extent that Travelzoo specifically incorporates it by reference into a document filed under the Securities Act or the Exchange Act.

The Company’s Compensation Committee has reviewed and discussed the CD&A with management and, based on such review and discussions, the Compensation Committee recommended to the Company’s Board of Directors that the CD&A be included in this proxy statement on Schedule 14A.

Compensation Committee

Kelly M. Urso (*Chair*)

Ralph Bartel

Compensation Committee Interlocks and Insider Participation

During 2009, Ralph Bartel and Kelly M. Urso were members of the Compensation Committee. Mr. Ralph Bartel did not participate in the determination of his compensation as an executive officer during 2008. In 2008, there were no transactions between the Company and Mr. Ralph Bartel, other than the payment of Mr. Ralph Bartel’s salary and reimbursement of Company-related expenses.

On October 31, 2009, the Company completed the sale of its Asia Pacific operating segment to Azzurro Capital Inc., a company owned and controlled by The Ralph Bartel 2005 Trust, on behalf of itself, and Azzurro Capital Inc.’s newly formed wholly-owned subsidiaries, Travelzoo (Asia) Limited and Travelzoo Japan K.K. Ralph Bartel is a member of the board of directors of Azzurro Capital Inc. and is currently the sole beneficiary of The Ralph Bartel 2005 Trust. Further information concerning the transaction is provided in the Company’s reports on Form 8-K filed with the SEC on October 5, 2009 and November 3, 2009.

Summary Compensation Table

The following summary compensation table sets forth information concerning the compensation to our Chief Executive Officer, Chief Financial Officer and the three other most highly compensated executive officers during the fiscal year ended December 31, 2009.

<u>Name and Principal Position</u>	<u>Fiscal Year</u>	<u>Salary (\$)</u>	<u>Bonus (\$)</u>	<u>Non-Equity Incentive Plan Compensation (\$)(1)</u>	<u>All Other Compensation (\$)</u>	<u>Total (\$)</u>
Holger Bartel(2)	2009	400,000	70,000(7)	140,000(12)	—	610,000
Chief Executive Officer (effective October 1, 2008) and Director	2008	100,000	20,000(7)	—	613,822(18)	733,822
	2007	241,867	—	25,000(13)	115,902(18)	382,769
Wayne Lee(3)	2009	240,000	46,517(8)	105,000(14)	1,500(19)	393,017
Chief Financial Officer	2008	240,000	47,335(8)	—	1,500(19)	288,835
	2007	201,500	—	25,000(13)	1,500(19)	228,000
Christopher Loughlin(4)	2009	324,418	3,371(9)	824,705(15)	52,036(20)	1,204,530
Executive Vice President, Europe	2008	381,714	—	407,556(15)	31,011(20)	820,281
	2007	408,369	—	170,099(15)	28,586(20)	607,054
Max Rayner(5)	2009	472,500	82,500(10)	140,000(16)	451,500(22)	1,146,500
Chief Information Officer	2008	450,000	190,000(10)	—	1,500(19)	641,500
	2007	71,591	31,667(10)	—	—	103,258
Shirley Tafoya(6)	2009	518,010	266,441(11)	—	11,462(21)	795,913
President, North America	2008	518,010	175,000(11)	—	1,500(19)	694,510
	2007	475,133	25,000(11)	67,878(17)	1,500(19)	569,511

- (1) The amounts reflected in this column reflect the performance-based cash awards paid to the named executives under our Executive Bonus Plan and pursuant to certain employment agreements, as discussed in the CD&A above.
- (2) Mr. Bartel became the Chief Executive Officer on October 1, 2008. From November 12, 2007 to September 30, 2008, Mr. Bartel served as a consultant to the Company under the terms of an independent contractor agreement. In 2006 and from January 1, 2007 to November 11, 2007, Mr. Bartel served as Executive Vice President.
- (3) Mr. Lee became the Chief Financial Officer on September 17, 2006.
- (4) Mr. Loughlin's compensation is denominated in British pounds and was translated into U.S. dollars using the average 2009, 2008, and 2007 daily exchange rates of £1 = \$1.55970, £1 = \$1.83516, and £1 = \$2.00181, respectively, as published on oanda.com. Mr. Loughlin has agreed to become the CEO of the Company effective July 1, 2010.
- (5) Mr. Rayner commenced employment on November 5, 2007.
- (6) Ms. Tafoya became the President, North America on June 18, 2008. Prior to June 18, 2008, Ms. Tafoya served as Senior Vice President of Sales.
- (7) Amount consists of discretionary bonuses earned per the terms of Mr. Holger Bartel's employment agreement.
- (8) For 2009, amount consists of \$41,250 of discretionary bonuses earned per the terms of Mr. Lee's employment agreement and \$5,267 in bonus payments made to eligible employees of the Company as of the end of December 31, 2009. For 2008, amount consists of \$30,000 of discretionary bonuses earned per the terms of Mr. Lee's employment agreement, a discretionary \$15,000 employee bonus award and \$2,335 bonus payment made to eligible employees of the Company as of the end of December 31, 2008.
- (9) Amount consists of a \$3,371 bonus payment made to eligible employees of the Company as of the end of December 31, 2009.
- (10) Amount consists of discretionary bonuses earned per the terms of Mr. Rayner's employment agreement.
- (11) For 2009, amount consists \$262,500 of discretionary employee bonus awards and \$3,941 in bonus payments made to eligible employees of the Company as of the end of December 2009. For 2008 and 2007, amount consists of discretionary employee bonus awards.

- (12) Amount represents quarterly performance bonuses earned per the terms of Mr. Holger Bartel's employment agreement.
- (13) Amounts consist of bonuses earned during fiscal 2007 under our Executive Bonus Plan.
- (14) Amount represents quarterly performance bonuses earned per the terms of Mr. Lee's employment agreement.
- (15) Amounts consist of bonuses earned per the terms of Mr. Loughlin's employment agreement.
- (16) Amount represents quarterly performance bonuses earned per the terms of Mr. Rayner's employment agreement.
- (17) Amount consists of \$42,878 from commissions under the terms of Ms. Tafoya's employment agreement and \$25,000 from bonuses earned under our Executive Bonus Plan.
- (18) For 2008, amount consists of \$590,982 in fees paid to Mr. Holger Bartel pursuant to the terms of his consulting agreement and \$22,840 in non-employee director fees paid to Mr. Holger Bartel for the period from January 1, 2008 to September 30, 2008. For 2007, amount consists of the fees paid to Mr. Holger Bartel pursuant to the terms of his consulting agreement.
- (19) Amount consists of the Company's matching contribution of \$1,500 under the Company's 401(k) Plan.
- (20) For 2009, amount consists of the Company's contribution of \$22,709 to the Company's UK Employee Pension Contribution Plan, \$12,300 for premiums paid for private health insurance for Mr. Loughlin and his family, and housing allowance of \$17,027. For 2008, amount consists of the Company's contribution of \$26,720 to the Company's UK Employee Pension Contribution Plan and \$4,291 for premiums paid for private health insurance for Mr. Loughlin and his family. For 2007, amount consists of the Company's contribution to the Company's UK Employee Pension Contribution Plan.
- (21) Amount consists of the Company's matching contribution of \$1,500 under the Company's 401(k) Plan and \$9,962 for the pay-out of accrued vacation.
- (22) Amount consists of a one-time payment of \$450,000 per Section 3 of Mr. Rayner's amended and restated employment agreement entered into on September 1, 2009 and the Company's matching contribution of \$1,500 under the Company's 401(k) Plan.

Grants of Plan-Based Awards in 2009

The following table sets forth certain information with respect to non-equity incentive plan awards granted to each of our named executive officers during the fiscal year ended December 31, 2009.

<u>Name</u>	<u>Estimated Possible Payouts Under Non-Equity Incentive Plan Awards</u>	
	<u>Threshold (\$)</u>	<u>Target (\$)</u>
Holger Bartel(1)	—	240,000
Wayne Lee(2)	—	180,000
Christopher Loughlin(3)	—	187,168
Max Rayner(4)	—	240,000

- (1) Amount represents the potential quarterly Performance Bonus payments under the terms of Mr. Bartel's employment agreement. The business measurements and performance goals for determining the Performance Bonus payout are described in the CD&A.
- (2) Amount represents the potential quarterly Performance Bonus payments under the terms of Mr. Lee's employment agreement. The business measurements and performance goals for determining the Performance Bonus payout are described in the CD&A.
- (3) Amount represents the potential quarterly bonus payments under the terms of Mr. Loughlin's employment agreement. Mr. Loughlin was also eligible for an annual bonus payment which did not have a targeted payout amount, as the amount that Mr. Loughlin may receive for such bonus is not capped. The measurements for determining the quarterly and annual payouts are described in the CD&A.

- (4) Amount represents the potential quarterly Performance Bonus payments under the terms of Mr. Rayner's employment agreement. The business measurements and performance goals for determining the Performance Bonus payout are described in the CD&A.

Outstanding Equity Awards at December 31, 2009

<u>Name</u>	<u>Option Awards</u>			
	<u>Number of Securities Underlying Unexercised Options (#) Exercisable</u>	<u>Number of Securities Underlying Unexercised Options (#) Unexercisable</u>	<u>Option Exercise Price (\$)</u>	<u>Option Expiration Date</u>
Christopher Loughlin	—	300,000(1)	14.97	11/18/2019

(1) The options are exercisable in increments of 25% from and after July 1 of each year from 2011 through 2014, as long as Mr. Loughlin's employment remains in effect at such dates.

Option Exercises and Stock Vested

For the year ended December 31, 2009, there were no options exercised by any of our named executive officers.

For the year ended December 31, 2009, there was no stock vested for any of our named executive officers.

Employment Agreements and Potential Payments Upon Termination or Change-in-Control

The Company has employment agreements with its named executive officers and certain other employees. The employment agreements as of December 31, 2009 with the Company's named executive officers are described below.

Mr. Holger Bartel entered into an employment agreement with the Company on October 1, 2008. Pursuant to the terms of the agreement, Mr. Holger Bartel agreed not to leave or discontinue his employment with the Company during the first six months of his employment. Similarly, the Company agreed not to terminate Mr. Holger Bartel's employment during the first six months with the Company without cause. After the six month period has ended, Mr. Holger Bartel is an at-will employee and the Company or Mr. Holger Bartel may terminate the agreement, with or without cause, upon two weeks prior written notice. Mr. Holger Bartel is not entitled to receive any severance or change of control benefits under the terms of the agreement. Mr. Holger Bartel is paid a base salary and is eligible to receive a quarterly Performance Bonus and a quarterly Discretionary Bonus (as defined in the agreement). In addition, Mr. Holger Bartel is entitled to participate in or receive such benefits under the Company's employee benefits plans and policies as may be in effect from time to time.

Mr. Holger Bartel agreed that the Company will own any discoveries and work product (as defined in the agreement) made during the term of his employment and to assign all of his interest in any and all such discoveries and work product to the Company. Furthermore, Mr. Holger Bartel agreed to not, directly or indirectly, perform services for, or engage in, any business competitive with the Company during the period of his employment. He also agreed to not, directly or indirectly, solicit the Company's customers or employees during the term of his employment and for a period of one year thereafter.

Mr. Wayne Lee entered into an employment agreement with the Company on December 9, 2005 as amended on September 23, 2008. Pursuant to the terms of the agreement, Mr. Lee is an at-will employee and the Company or Mr. Lee may terminate the agreement, with or without cause, upon two weeks prior written notice. Mr. Lee is not entitled to receive any severance or change of control benefits under the terms of the agreement. Mr. Lee is paid a base salary and is eligible to receive a quarterly Performance Bonus and a quarterly Discretionary Bonus (as defined in the agreement). In addition, Mr. Lee is entitled to participate in or receive such benefits under the Company's employee benefits plans and policies as may be in effect from time to time.

Mr. Lee agreed that the Company will own any discoveries and work product (as defined in the agreement) made during the term of his employment and to assign all of his interest in any and all such discoveries and work

product to the Company. Furthermore, Mr. Lee agreed to not, directly or indirectly, perform services for, or engage in, any business competitive with the Company or solicit the Company's customers or employees during the term of his employment and for a period of one year thereafter.

Mr. Christopher Loughlin entered into an employment agreement with the Company on May 16, 2005, as amended on July 12, 2006 and further amended on August 13, 2007. The initial term of the agreement is from May 16, 2005 to June 30, 2010. During the initial term, the Company can terminate the agreement for cause (as defined in the agreement) without any severance obligations. The Company can also terminate the agreement without cause by making a payment equal to the amount of base salary that Mr. Loughlin would be entitled to receive during the balance of the initial term or any notice period. Assuming that Mr. Loughlin was terminated by the Company without cause as of December 31, 2009, Mr. Loughlin would have been entitled to receive \$165,626.

Mr. Loughlin is paid a base salary and is entitled to certain annual and quarterly bonuses. See *Components of Executive Compensation — Other Incentive Bonus Pay* above for a description of such bonuses. Mr. Loughlin is also eligible to participate in the Company's UK Employee Pension Contribution Program, pursuant to which the Company contributes 7% of his base salary to the pension. Mr. Loughlin is also entitled to participate in any private health insurance scheme that may be arranged by the Company for its executives.

Mr. Loughlin agreed to not, directly or indirectly, engage or become interested in any business competitive with the Company during the term of the agreement. In addition, Mr. Loughlin agreed to not, directly or indirectly, solicit any of the Company's customers or perform services for, or engage in, any business competitive with the Company for a period for six months after the termination of his employment. Mr. Loughlin also agreed that the Company will own any inventions or intellectual property created during the term of his employment and to assign all of his interest in any such intellectual property to the Company.

On November 18, 2009, Mr. Loughlin entered into an employment agreement with the Company, pursuant to which he will become the Company's Chief Executive Officer. The agreement is effective beginning on July 1, 2010 and will have a four-year term. The Company may terminate the agreement, with or without cause, upon written notice to Mr. Loughlin.

Mr. Loughlin will be paid a base salary and will be eligible to certain annual and quarterly bonuses. In connection with the agreement, on November 18, 2009 the Company granted Mr. Loughlin options to purchase 300,000 shares of the Company's common stock. The Company will provide relocation assistance and a housing allowance to Mr. Loughlin in connection with his move from London to New York City. Mr. Loughlin will also be entitled to participate in or receive such benefits under the Company's employee benefit plans and policies and such other benefits which may be in effect from time to time and as are provided to similarly situated employees of the Company.

Mr. Loughlin agreed that the Company will own any discoveries and work product (as defined in the agreement) made during the term of his employment and to assign all of his interest in any and all such discoveries and work product to the Company. Furthermore, Mr. Loughlin agreed not to, directly or indirectly, perform services for, or engage in, any business competitive with the Company or solicit the Company's customers or employees during the term of his employment and for a period of one year thereafter.

Ms. Shirley Tafoya entered into an employment agreement with the Company on May 8, 2001. Pursuant to the terms of the agreement, Ms. Tafoya is an at-will employee and the Company or Ms. Tafoya may terminate the agreement, with or without cause, upon two weeks prior written notice. However, if Ms. Tafoya's employment is terminated at any time due to a change of control (as defined in the agreement) or if she is not offered a position of comparable pay and responsibilities in the same geographic area in which she worked immediately prior to a change of control, Ms. Tafoya will be entitled to receive her base salary and medical benefits for a six month period in exchange for executing a general release of claims as to the Company. Assuming that Ms. Tafoya was terminated by the Company as of December 31, 2009 following a change of control of the Company, Ms. Tafoya would have been entitled to receive \$259,005 and the Company would incur additional expenses for medical benefits of approximately \$9,275.

Ms. Tafoya is paid a base salary and from January 1, 2007 to June 30, 2008 was eligible to participate in the Company's Executive Bonus Plan. Prior to April 1, 2007, Ms. Tafoya also received a 1.0% commission on net

advertising revenues (as defined in the agreement) generated from the sales of advertising on the *Travelzoo* Web site and the *Top 20* newsletter; such commission is capped at \$42,878, 1.0% of the Company's net advertising revenues in the second quarter of 2003. In addition, Ms. Tafoya is entitled to participate in or receive such benefits under the Company's employee benefits plans and policies as may be in effect from time to time.

Ms. Tafoya agreed that the Company will own any discoveries and work product (as defined in the agreement) made during the term of her employment and to assign all of her interest in any and all such discoveries and work product to the Company. Furthermore, Ms. Tafoya agreed to not, directly or indirectly, solicit the Company's customers or employees during the term of her employment and for a period of one year thereafter.

Mr. Max Rayner entered into an employment agreement with the Company on November 5, 2007 as amended on September 23, 2008 and further amended on September 1, 2009. The term of the agreement ends on September 30, 2010, after which time Mr. Rayner is an at-will employee. The Company or Mr. Rayner may terminate the agreement without cause during the term of the agreement upon two weeks prior written notice. However, if Mr. Rayner is not offered a position of comparable pay and responsibilities in the same geographic area in which he worked immediately prior to a change of control (as defined in the agreement), and Mr. Rayner resigns within thirty calendar days after the change in control, Mr. Rayner will be entitled to receive his base salary through the date of termination. Assuming that Mr. Rayner resigned as of December 31, 2009 following a change of control of the Company by giving two weeks written notice, Mr. Rayner would be entitled to receive \$19,904.

Mr. Rayner is paid a base salary and is eligible to receive a quarterly Performance Bonus and a quarterly Discretionary Bonus (as defined in the agreement). In addition, Mr. Rayner is entitled to participate in or receive such benefits under the Company's employee benefits plans and policies as may be in effect from time to time.

Mr. Rayner agreed that the Company will own any discoveries and work product (as defined in the agreement) made during the term of his employment and to assign all of his interest in any and all such discoveries and work product to the Company. Furthermore, Mr. Rayner agreed to not, directly or indirectly, solicit the Company's customers or employees during the term of his employment and for a period of one year thereafter.

Certain Relationships and Related Party Transactions

The Company maintains policies and procedures to ensure that our directors, executive officers and employees avoid conflicts of interest. Our Chief Executive Officer and Chief Financial Officer are subject to our Code of Ethics and each signs the policy to ensure compliance. Our Code of Ethics requires our leadership to act with honesty and integrity, and to fully disclose to the Audit Committee any material transaction that reasonably could be expected to give rise to an actual or apparent conflict of interest. The Code of Ethics requires that our leadership obtain the prior written approval of the Audit Committee before proceeding with or engaging in any conflict of interest.

Our Audit Committee, with the assistance of legal counsel, reviews all related party transactions involving the Company and any of the Company's principal shareholders or members of our board of directors or senior management or any immediate family member of any of the foregoing. A general statement of this policy is set forth in our audit committee charter, which was attached as Appendix A to our proxy statement for the 2008 Annual Meeting of Stockholders which has been filed with the SEC. However, the Audit Committee does not have detailed written policies and procedures for reviewing related party transactions. Rather, all facts and circumstances surrounding each related party transaction may be considered. If the Audit Committee determines that any such related party transaction creates a conflict of interest situation or would require disclosure under Item 404 of Regulation S-K, as promulgated by the SEC, the transaction must be approved by the Audit Committee prior to the Company entering into such transaction or ratified thereafter. The chair of the Audit Committee is delegated the authority to approve such transactions on behalf of the full committee, provided that such approval is thereafter reviewed by the committee. Transactions or relationships previously approved by the Audit Committee or in existence prior to the formation of the committee do not require approval or ratification.

Independent Public Accountants

KPMG LLP (“KPMG”) served as Travelzoo’s independent registered public accounting firm for our 2009 fiscal year. KPMG representatives are not expected to be present at the Annual Meeting or to make a formal statement. Consequently, representatives of KPMG will not be available to respond to questions at the meeting.

The Audit Committee has not yet selected our independent registered public accounting firm for our 2010 fiscal year. The Audit Committee annually reviews the performance of our independent registered public accounting firm and the fees charged for their services. This review has not yet been completed. Based upon the results of this review, the Audit Committee will determine which independent registered public accounting firm to engage to perform our annual audit. Stockholder approval of our accounting firm is not required by our bylaws or otherwise required to be submitted to the stockholders.

Principal Accountant Fees and Services

During fiscal year 2008 and 2009, KPMG charged fees for services rendered to Travelzoo as follows:

<u>Service</u>	<u>2008 Fees</u>	<u>2009 Fees</u>
Audit fees(1)	\$924,685	\$941,571
Audit-related fees	—	—
Tax fees(2)	20,692	—
All other fees	—	—
Total	<u>\$945,377</u>	<u>\$941,571</u>

(1) Audit fees consisted of fees for professional services rendered for the annual audit of Company’s consolidated financial statements and review of the interim consolidated financial statements included in the quarterly reports and audit services rendered in connection with other statutory or regulatory filings.

(2) Tax fees consisted of tax advice and tax planning fees.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Registered Public Accounting Firm

The Audit Committee pre-approves all audit and permissible non-audit services provided by the Company’s independent registered public accounting firm. These services may include audit services, audit-related services, tax and other services. Pre-approval is generally provided for up to one year, and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent registered public accounting firm and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval, and the fees for the services performed to date. The Audit Committee may also pre-approve particular services on a case-by-case basis. During 2008 and 2009, all services provided by KPMG were pre-approved by the Audit Committee in accordance with this policy

Voting

Under the Delaware General Corporation Law and our certificate of incorporation and bylaws, the presence, in person or represented by proxy, of the holders of a majority of the outstanding shares of our stock is necessary to constitute a quorum of stockholders to take action at the Annual Meeting. Once a quorum of stockholders is established, the affirmative vote of a plurality of the shares, which are present in person or represented by proxy at the Annual Meeting, is required to elect each director. The affirmative vote of a majority of the shares entitled to vote and present in person or by proxy in favor of any other matter properly brought before the Annual Meeting is required to approve of such action.

Shares represented by proxies which are marked “vote withheld” with respect to the election of any person to serve on the Board of Directors will not be considered in determining whether such a person has received the affirmative vote of a plurality of the shares. Shares represented by proxies that are marked “abstain” with respect to

any other proposal will not be considered in determining whether such proposal has received the affirmative vote of a majority of the shares and such proxies will not have the effect of a “no” vote.

Shares represented by proxies which deny the proxy-holder discretionary authority to vote on any proposal will not be considered in determining whether such proposal has received the affirmative vote of a majority of the shares and such proxies will have the effect of a “no” vote.

We know of no matters to come before the Annual Meeting except as described in this Proxy Statement. If any other matters properly come before the Annual Meeting, the proxies solicited hereby will be voted on such matters in accordance with the judgment of the persons voting such proxies.

Availability of the Proxy Materials

“IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE SHAREHOLDER MEETING TO BE HELD ON JUNE 3, 2010.”

This Proxy Statement and 2009 Annual Report are available on the Internet at *corporate.travelzoo.com/annualreport*.

Stockholder Proposals for the 2011 Annual Meeting

Proposals of eligible stockholders intended to be presented at the 2011 Annual Meeting must be received by us by February 4, 2011 for inclusion in our proxy statement and proxy relating to that meeting. Upon receipt of any such proposal, we will determine whether or not to include such proposal in the proxy statement and proxy in accordance with regulations governing the solicitation of proxies.

If a stockholder wishes to present a proposal at Travelzoo’s 2011 Annual Meeting or to nominate one or more directors and the proposal is not intended to be included in Travelzoo’s proxy statement relating to that meeting, the stockholder must give advance written notice to Travelzoo by March 15, 2011. These requirements are separate from and in addition to the requirements a stockholder must meet to have a proposal included in our proxy statement.

Any such notice must be delivered or mailed to our Corporate Secretary, at Travelzoo Inc., 590 Madison Avenue, 37th Floor, New York, New York 10022. Any stockholder desiring a copy of our bylaws will be forwarded one upon written request.

Householding

As permitted by applicable law, only one copy of this Proxy Statement and Annual Report are being delivered to stockholders residing at the same address, unless such stockholders have notified the Company of their desire to receive multiple copies of the Proxy Statement.

The Company will promptly deliver, upon oral or written request, a separate copy of the Proxy Statement and Annual Report to any stockholder residing at an address to which only one copy was mailed. Requests for additional copies, or requests for a single copy to be delivered to a shared address should be directed to Investor Relations, Travelzoo Inc., 590 Madison Avenue, 37th Floor, New York, New York 10022 or by telephone at (212) 484-4900.

Other

We will bear the cost of solicitation of proxies. Proxies will be solicited by mail and also may be solicited by our executive officers and other employees personally or by telephone, but such persons will not be specifically compensated for such services. It is contemplated that brokerage houses, custodians, nominees and fiduciaries will be requested to forward the soliciting material to the beneficial owners of stock held of record by such persons and we will reimburse them for their reasonable expenses incurred in connection therewith.

Even if you plan to attend the meeting in person, please sign, date and return the enclosed proxy promptly in accordance with the instructions shown on the enclosed proxy. You have the power to revoke your proxy, at any time before it is exercised, by giving written notice of revocation to our Corporate Secretary or by duly executing and

delivering a proxy bearing a later date, or by attending the Annual Meeting and casting a contrary vote. All shares represented by proxies received in time to be counted at the Annual Meeting will be voted. Your cooperation in giving this your immediate attention will be appreciated.

Forward-Looking Statements

The information in this Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements are based upon current expectations, assumptions, estimates and projections about Travelzoo Inc. and our industry. These forward-looking statements are subject to the many risks and uncertainties that exist in our operations and business environment that may cause actual results, performance or achievements of Travelzoo to be different from those expected or anticipated in the forward-looking statements. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. For example, words such as “may”, “will”, “should”, “estimates”, “predicts”, “potential”, “continue”, “strategy”, “believes”, “anticipates”, “plans”, “expects”, “intends”, and similar expressions are intended to identify forward-looking statements. Travelzoo’s actual results and the timing of certain events could differ significantly from those anticipated in such forward-looking statements. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those discussed in this Report in Part I Item 1A and the risks discussed in our other Securities and Exchange Commission (“SEC”) filings. The forward-looking statements included in this Report reflect the beliefs of our management on the date of this Report. We undertake no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events or circumstances occur in the future.

PART I

Item 1. *Business*

Overview

Travelzoo Inc. (the “Company” or “Travelzoo”) is a global Internet media company. We inform over 18 million subscribers worldwide, as well as millions of Web site users, about the best travel and entertainment deals available from thousands of companies. We publish these offers by sourcing, researching, test-booking, and selecting offers professionally. We provide airlines, hotels, cruise lines, vacation packagers, and other travel and entertainment companies with a fast, flexible, and cost effective way to reach millions of consumers. Our revenues are generated from advertising fees.

Our publications and products include the *Travelzoo* Web sites (www.travelzoo.com, www.travelzoo.ca, www.travelzoo.co.uk, www.travelzoo.de, www.travelzoo.com.es, www.travelzoo.fr, among others), the *Travelzoo Top 20* e-mail newsletter, the *Newsflash* e-mail alert service, the *SuperSearch* pay-per-click travel search tool, and the *Travelzoo Network*, a network of third-party Web sites that list deals published by Travelzoo. We also operate *Fly.com*, a travel search engine that allows users to quickly and easily find the best prices on flights from hundreds of airlines and online travel agencies.

Starting November 1, 2009, the *Travelzoo* Web sites in Asia Pacific (cn.travelzoo.com, www.travelzoo.co.jp, www.travelzoo.com.au, www.travelzoo.com.hk, www.travelzoo.com.tw, among others), the *Travelzoo Top 20* e-mail newsletters in Asia Pacific and the *Newsflash* e-mail alert service in Asia Pacific are published by Travelzoo (Asia) Limited and Travelzoo Japan K.K., wholly owned subsidiaries of Azzurro Capital Inc., under a license agreement with the Company. See Note 11 to the accompanying consolidated financial statements.

More than 2,000 companies use our services, including American Airlines, Avis Rent A Car, British Airways, Harrah’s Entertainment, Expedia, Fairmont Hotels and Resorts, Interstate Hotels & Resorts, JetBlue Airways, Kimpton Hotels, Liberty Travel, Marriott Hotels, Royal Caribbean, Spirit Airlines, Starwood Hotels & Resorts Worldwide, United Airlines, and Virgin Atlantic.

Our revenues are generated from advertising fees. Our revenues have grown on an annual basis since we began operations in 1998. Our revenues increased from approximately \$84,000 for the period from May 21, 1998 (inception) to December 31, 1998, to approximately \$94.0 million for the year ended December 31, 2009.

We have two operating segments based on geographic regions: North America and Europe. North America consists of our operations in Canada and the U.S. Europe consists of our operations in France, Germany, Spain, and

the U.K. For the year ended December 31, 2009, European operations were 17% of revenues. Financial information with respect to our business segments and certain financial information about geographic areas appears in Note 8 “Segment Reporting and Significant Customer Information,” to the accompanying consolidated financial statements.

Our principal business office is located at 590 Madison Avenue, 37th Floor, New York, New York 10022.

Travelzoo is controlled by Ralph Bartel, who held beneficially approximately 66.3% of the outstanding shares as of February 26, 2010.

The Company was formed as a result of a combination and merger of entities founded by the Company’s majority stockholder, Ralph Bartel. In 1998, Mr. Bartel founded Travelzoo.com Corporation, a Bahamas corporation, which issued 5,155,874 shares via the Internet to approximately 700,000 “Netsurfer stockholders” for no cash consideration. In 1998, Mr. Bartel also founded Silicon Channels Corporation, a California corporation, to operate the *Travelzoo* Web site. During 2001, Travelzoo Inc. was formed as a subsidiary of Travelzoo.com Corporation, and Mr. Bartel contributed all of the outstanding shares of Silicon Channels Corporation to Travelzoo Inc. in exchange for 8,129,273 shares of Travelzoo Inc. and options to acquire an additional 2,158,349 shares at \$1.00.

During January 2001, the Board of Directors of Travelzoo.com Corporation proposed that Travelzoo.com Corporation be merged with Travelzoo Inc. whereby Travelzoo Inc. would be the surviving entity. On March 15, 2002, the stockholders of Travelzoo.com Corporation approved the merger with Travelzoo Inc. On April 25, 2002, the certificate of merger was filed in Delaware upon which the merger became effective and Travelzoo.com Corporation ceased to exist. Each outstanding share of common stock of Travelzoo.com Corporation was converted into the right to receive one share of common stock of Travelzoo Inc. Under and subject to the terms of the merger agreement, stockholders were allowed a period of two years following the effective date of the merger to receive shares of Travelzoo Inc. The records of Travelzoo.com Corporation showed that, assuming all of the shares applied for by the Netsurfer stockholders were validly issued, there were 11,295,874 shares of Travelzoo.com Corporation outstanding. As of April 25, 2004, two years following the effective date of the merger, 7,180,342 shares of Travelzoo.com Corporation had been exchanged for shares of Travelzoo Inc. Prior to that date, the remaining shares which were available for issuance pursuant to the merger agreement were included in the issued and outstanding common stock of Travelzoo Inc. and included in the calculation of basic and diluted earnings per share. After April 25, 2004, the Company ceased issuing shares to the former stockholders of Travelzoo.com Corporation, and no additional shares are reserved for issuance to any former stockholders, because their right to receive shares has now expired. On April 25, 2004, the number of shares reported as outstanding was reduced from 19,425,147 to 15,309,615 to reflect actual shares issued as of the expiration date. Earnings per share calculations reflect this reduction of the number of shares reported as outstanding. As of February 26, 2010, there were 16,443,828 shares of common stock outstanding.

In October 2004, the Company announced a program under which it would make cash payments to persons who establish that they were stockholders of Travelzoo.com Corporation, and who failed to submit requests for shares in Travelzoo Inc. within the required time period. See Note 3 to the accompanying consolidated financial statements.

Travelzoo is listed on the NASDAQ Global Select Market under the symbol “TZOO.”

Our Industry

While our mission is to provide our subscribers and users the highest quality information about the best travel and entertainment deals, our revenues are generated from advertising fees. According to Kantar Media, travel companies in the U.S. spent \$2.8 billion in 2009 on advertising, with \$815 million in 2009 being spent on advertising in newspapers (source: Kantar Media, 2010). We believe that newspapers are currently the main medium for travel companies to advertise their offers though the percentage spent on advertising in newspapers has been decreasing.

We believe that several factors are causing and will continue to cause travel companies to increase their spending on Internet advertising of offers:

- *The Internet Is Consumers' Preferred Information Source.* Market research shows that the Internet has become consumers' preferred information source for travel (source: Forrester's North American Technographics Travel Online Survey, Q1 2008).
- *Benefits of Internet Advertising vs. Print Advertising.* Internet advertising provides travel companies advantages compared to print advertising. These advantages include real-time listings, real-time updates, and performance tracking. See "— Benefits to Travel and Entertainment Companies" below.
- *New Advertising Opportunities.* The Internet allows travel companies to advertise their sales and specials in a fast, flexible, and cost-effective manner that has not been possible before.
- *Suppliers Selling Directly.* We believe that many travel suppliers prefer to sell directly to consumers through suppliers' Web sites versus selling through travel agents. Internet advertising attracts consumers to suppliers' Web sites.

Problems Travel Companies Face and Limitations of Newspaper Advertising

We believe that travel companies often face the challenge of being able to effectively and quickly market and sell their excess inventory (i.e. airline seats, hotel rooms, or cruise cabins that are likely to be unfilled). The success of marketing excess inventory can have a substantial impact on a travel company's profitability. Almost all costs of travel services are fixed. That is, the costs do not vary with sales. A relatively small amount of unsold inventory can have a significant impact on the profitability of a travel company.

We believe that travel companies need a fast, flexible, and cost-effective solution for marketing excess inventory. The solution must be fast, because travel services are a quickly expiring commodity. The period between the time when a company realizes that there is excess inventory and the time when the travel service has become worthless is very short. The solution must be flexible, because the travel industry is dynamic and the demand for excess inventory is difficult to forecast. It is difficult for travel companies to price excess inventory and to forecast the marketing effort needed to sell excess inventory. The marketing must be cost-effective, because excess inventory is often sold at highly discounted prices, which lowers margins.

We believe that newspaper advertising, with respect to advertising excess inventory, suffers from a number of limitations which do not apply to the Internet:

- typically, ads must be submitted 2 to 5 days prior to the publication date, which makes it difficult to advertise last-minute inventory;
- once an ad is published, it cannot be updated or deleted when an offer is sold out;
- once an ad is published, the travel company cannot change a price;
- in many markets, the small number of newspapers and other print media reduces competition, resulting in high rates for newspaper advertising; and
- newspaper advertising does not allow for detailed performance tracking.

Our Products and Services

We provide airlines, hotels, cruise lines, vacation packagers, other travel suppliers, and entertainment companies with a fast, flexible, and cost-effective way to reach millions of Internet users. Our publications include the *Travelzoo* Web sites, the *Travelzoo Top 20* e-mail newsletter, and the *Newsflash* e-mail alert service. We operate *SuperSearch*, a pay-per-click travel search tool and the *Travelzoo Network*, a network of third-party Web sites that list deals published by Travelzoo. We also operate *Fly.com*, a travel search engine that enables users to find and compare the best flight options from multiple sources, including airline and online travel agency Web sites. While our products provide advertising opportunities for travel and entertainment companies, they also provide

Internet users with a free source of information on current sales and specials from thousands of travel and entertainment companies.

As travel and entertainment companies increasingly utilize the Internet to promote their offers, we believe that our products will enable them to take advantage of the lower cost and real-time communication enabled by the Internet. Our listing management software allows travel and entertainment companies to add, update, and delete special offer listings on a real-time basis. Our software also provides travel and entertainment companies with real-time performance tracking, enabling them to optimize their marketing campaigns.

The following table presents an overview of our products:

Product	Content	Publication Schedule	Reach/Usage*	Advertiser Benefits	Consumer Benefits
<i>Travelzoo</i> Web sites	Web sites in the U.S., Canada, France, Germany, Spain, and the U.K. listing thousands of outstanding sales and specials from more than 2,000 travel and entertainment companies	24/7	10.6 million unique visitors per month	Broad reach, sustained exposure, targeted placements by destination and travel segment	24/7 access to deals, ability to search and browse by destination or keyword
<i>Travelzoo Top 20</i>	Popular e-mail newsletter listing 20 of the week's most outstanding deals	Weekly	15.9 million subscribers	Mass "push" advertising vehicle to quickly stimulate incremental travel and entertainment purchases	Weekly access to 20 outstanding, handpicked deals chosen from among thousands
<i>Newsflash</i>	Regionally-targeted e-mail alert service with a single time-sensitive and newsworthy travel and entertainment offer	Within two hours of an offer being identified	14.0 million subscribers	Regional targeting, 100% share of voice for advertiser, flexible publication schedule	Breaking news offers delivered just-in-time
<i>SuperSearch</i>	Travel search tool using a proprietary algorithm to recommend sites and enable one-click searching	On-demand	6.0 million monthly searches	Drives qualified traffic directly to advertiser site on a pay-per-click basis	Saves time and money by recommending the sites most likely to have great rates for a specific itinerary
<i>Travelzoo Network</i>	A network of third-party Web sites that list outstanding deals published by Travelzoo	24/7	Over 160 third-party Web sites	Drives qualified users with substantial distribution beyond the Travelzoo audience	Contextually relevant travel deals that have been handpicked and professionally reviewed
<i>Fly.com</i>	Travel search engine that enables users to find and compare the best flight options from multiple sources	On-demand	1.5 million monthly searches since launch in February 2009	Provides advertisers a low cost distribution channel and retention of the user engagement on the advertiser's Web site	Free access to real-time price comparisons from airlines and online travel agencies

* For *Travelzoo* Web sites, reach information is based on data from Google Analytics. For *Top 20*, *Newsflash*, *SuperSearch*, *Travelzoo Network*, and *Fly.com*, reach/usage information is based on internal Travelzoo statistics as of December 31, 2009.

In 2009, 83% of our total revenues were generated from our North America operations, and 17% of our total revenues were generated from our European operations. See Note 8 to the accompanying consolidated financial statements.

Benefits to Travel and Entertainment Companies

Key features of our solution for travel and entertainment companies include:

- *Real-Time Listings of Special Offers.* Our technology allows travel and entertainment companies to advertise special offers on a real-time basis.
- *Real-Time Updates.* Our technology allows travel and entertainment companies to update their listings on a real-time basis.

- *Real-Time Performance Reports.* We provide travel and entertainment companies with real-time tracking of the performance of their advertising campaigns. Our solution enables travel and entertainment companies to optimize their campaigns by removing or updating unsuccessful listings and further promote successful listings.
- *Access to Millions of Consumers.* We provide travel and entertainment companies fast access to over 15 million travel shoppers.
- *Global Reach.* We offer access to Internet users across the U.S., Canada, France, Germany, Spain, and the U.K.

Benefits to Consumers

Our *Travelzoo* Web sites (www.travelzoo.com, www.travelzoo.ca, www.travelzoo.co.uk, www.travelzoo.de, www.travelzoo.com.es, www.travelzoo.fr, among others), *Travelzoo Top 20* newsletter, *Newsflash*, *SuperSearch* search tool, the *Travelzoo Network*, and *Fly.com* search engine provide consumers information on current offers at no cost to the consumer. Key features of our products include:

- *Aggregation of Offers From Many Companies.* Our *Travelzoo* Web sites and our *Travelzoo Top 20* e-mail newsletter aggregate information on current offers from more than 2,000 travel and entertainment companies. This saves the consumer time when searching for travel and entertainment sales and specials.
- *Current Information.* Compared to newspaper ads, we provide consumers more current information, since our technology enables travel and entertainment companies to update their listings on a real-time basis.
- *Reliable Information.* We operate a Test Booking Center to check the availability of travel and entertainment deals included in the *Travelzoo Top 20* before publishing.
- *Search Tools.* We provide consumers with the ability to search for specific offers.

Growth Strategy

Key elements of our strategy include:

- *Build Strong Brand Awareness.* We believe that it is essential to establish a strong brand with Internet users and within the travel industry. We currently utilize online marketing and direct marketing to promote our brand to consumers. In addition, we believe that we build brand awareness by product excellence that is promoted by word-of-mouth. We utilize sponsorships at industry conferences and public relations to promote our brand within the travel industry.
- *Increase Reach:* In order to attract more users to our products, we intend to expand our advertising campaigns as our business grows. We believe that we also can attract more users by product excellence that is promoted by word-of-mouth.
- *Quality User Base:* We believe that, in addition to increasing our reach, we need to maintain the quality of our user base. We believe that high quality content attracts a quality user base.
- *Increase Number of Advertising Clients:* We intend to continue to grow our advertising client base by expanding the size of our sales force. See “— Sales and Marketing” below.
- *Excellent Service:* We believe that it is important to provide our advertising clients with excellent service.
- *Replicate Business Model in Foreign Markets.* We believe that there is an opportunity to replicate our business model in selected foreign markets. We believe that there will be an additional market opportunity for us. In addition, we believe that we would strengthen our strategic position if we offered global advertising solutions to existing and new clients.

Clients

As of December 31, 2009, our advertising client base included more than 2,000 travel and entertainment companies, including airlines, hotels, cruise lines, vacations packagers, tour operators, car rental companies, and travel agents. Some of our clients are:

American Airlines	Interstate Hotels & Resort
Apple Vacations	JetBlue Airways
Avis Rent A Car	Kimpton Hotels
British Airways	Liberty Travel
CheapTickets	Lufthansa
Cirque du Soleil	Marriott Hotels
Delta Air Lines	Orbitz Worldwide
Expedia	Royal Caribbean
Fairmont Hotels and Resorts	Spirit Airlines
Funjet Vacations	Starwood Hotels & Resorts Worldwide
Harrah's Entertainment	Travelocity
Hawaiian Airlines	United Airlines
Hertz International	Virgin America
Hilton Hotels	Virgin Atlantic
InterContinental Hotels Group	Walt Disney Parks & Resorts

As discussed in Note 8 to the accompanying consolidated financial statements, we did not have any clients that accounted for 10% or more of our total revenues during the year ended December 31, 2009. One client accounted for 10% or more of our total revenues during the year ended December 31, 2008 and two clients each accounted for 10% or more of our total revenues during the year ended December 31, 2007. The agreements with these clients are in the form of multiple insertion orders from groups of entities under common control. Although we did not have any clients that accounted for 10% or more of our total revenues during the year ended December 31, 2009, it is possible that we may have a client or clients that account for 10% or more of our total revenues in future years because management believes there is a high concentration in the online travel agency industry.

Sales and Marketing

As of December 31, 2009, our advertising sales force and sales support staff consisted of 51 employees worldwide. We intend to grow our advertising client base by expanding the size of our sales force.

We currently utilize online marketing and direct marketing to promote our brand to consumers. In addition, we utilize an online marketing program to acquire new subscribers for our e-mail publications. We believe that we build brand awareness by product excellence that is promoted by word-of-mouth. We utilize sponsorships at industry conferences and public relations to promote our brands within the travel industry.

Technology

We have designed our technology to serve a large volume of Web traffic and send a large volume of e-mails in an efficient and scalable manner.

We co-locate our production servers with Equinix, Inc. ("Equinix"), a global provider of hosting, network, and application services. Equinix's facilities include features such as power redundancy, multiple egress and peering to other ISPs, fire suppression and access to our own separate physical space. We believe our arrangements with Equinix will allow us to grow without being limited by our own physical and technological capacity, and will also provide us with sufficient bandwidth for our anticipated needs. Because of the design of our Web sites, our users are not required to download or upload large files from or to our Web sites, which allows us to continue increasing the number of our visitors and page views without adversely affecting our performance or requiring us to make significant additional capital expenditures.

Our software is written using widely used standards, such as Visual Basic Script, and HTML, and interfaces with products from Microsoft. We have generally standardized our hardware platform on HP servers and Cisco switches.

Competition

We face intense competition. We compete for advertising dollars with large Internet portal sites, such as America Online, MSN and Yahoo!, that offer listings or other advertising opportunities for travel companies. We compete with search engines like Google and Yahoo! Search that offer pay-per-click listings. We compete with travel meta-search engines and online travel deal publishers. We compete with large online travel agencies like Expedia and Priceline that also offer advertising placements. In addition, we compete with newspapers, magazines and other traditional media companies that operate Web sites which provide advertising opportunities. We expect to face additional competition as other established and emerging companies, including print media companies, enter our market. We believe that the primary competitive factors are price and performance.

Many of our current and potential competitors have longer operating histories, significantly greater financial, technical, marketing and other resources and larger client bases than we do. In addition, current and potential competitors may make strategic acquisitions or establish cooperative relationships to expand their businesses or to offer more comprehensive solutions.

New technologies could increase the competitive pressures that we face. The development of competing technologies by market participants or the emergence of new industry standards may adversely affect our competitive position. Competition could result in reduced margins on our services, loss of market share or less use of our products by travel and entertainment companies and consumers. If we are not able to compete effectively with current or future competitors as a result of these and other factors, our business could be materially adversely affected.

Government Regulation and Legal Uncertainties

There are increasing numbers of laws and regulations pertaining to the Internet, including laws and regulations relating to user privacy, liability for information retrieved from or transmitted over the Internet, online content regulation, and domain name registration. Moreover, the applicability to the Internet of existing laws governing issues such as intellectual property ownership and infringement, copyright, patent, trademark, trade secret, obscenity, libel and personal privacy is uncertain and developing.

Privacy Concerns. Government agencies are considering adopting regulations regarding the collection and use of personal identifying information obtained from individuals when using Internet sites or e-mail services. While we have implemented and intend to implement additional programs designed to enhance the protection of the privacy of our users, these programs may not conform to any regulations which may be adopted by these agencies. In addition, these regulatory and enforcement efforts may adversely affect our ability to collect demographic and personal information from users, which could have an adverse effect on our ability to provide advertisers with demographic information. The European Union (the "EU") has adopted a directive that imposes restrictions on the collection and use of personal data. The directive could impose restrictions that are more stringent than current Internet privacy standards in the U.S. The directive may adversely affect our operations in Europe.

Anti-Spam Legislation. In December 2003, the CAN-SPAM Act of 2003, a federal anti-spam law, was enacted in the U.S. This law pre-empts various state anti-spam laws and establishes a single standard for e-mail marketing and customer communications. We believe that this new law will, on an overall basis, benefit our business as we do not use spam techniques or practices and may benefit now that others are prohibited from doing so.

Domain Names. Domain names are the user's Internet "addresses." The current system for registering, allocating and managing domain names has been the subject of litigation and of proposed regulatory reform. We have registered travelzoo.com, travelzoo.ca, travelzoo.co.jp, travelzoo.com.au, travelzoo.com.tw, travelzoo.co.uk, travelzoo.de, travelzoo.fr, travelzoo.org, travelzoo.net, weekend.com, and weekends.com, among other domain names, and have registered "Travelzoo" as a trademark in the United States, Canada, the EU, and in various

countries in Asia Pacific. In January 2009, we purchased the domain name fly.com. Because of these protections, it is unlikely, yet possible, that third parties may bring claims for infringement against us for the use of our domain name and trademark. In the event such claims are successful, we could lose the ability to use our domain names. There can be no assurance that our domain names will not lose their value, or that we will not have to obtain entirely new domain names in addition to or in lieu of our current domain names if changes in overall Internet domain name rules result in a restructuring in the current system of using domain names which include “.com,” “.net,” “.gov,” “.edu” and other extensions.

Jurisdictions. Due to the global nature of the Internet, it is possible that, although our transmissions over the Internet originate primarily in California, the governments of other states and foreign countries might attempt to regulate our business activities. In addition, because our service is available over the Internet in multiple states and foreign countries, these jurisdictions may require us to qualify to do business as a foreign corporation in each of these states or foreign countries, which could subject us to taxes and other regulations.

Intellectual Property

Our success depends to a significant degree upon the protection of our brand names, including *Travelzoo* and *Top 20*. If we were unable to protect the *Travelzoo* and *Top 20* brand names, our business could be materially adversely affected. We rely upon a combination of copyright, trade secret and trademark laws to protect our intellectual property rights. We have registered the *Travelzoo* and *Top 20* trademarks, among others, with the United States Patent and Trademark Office. We have registered the *Travelzoo* and *Travelzoo Top 20* trademarks with the Office for Harmonization in the Internal Market of the European Community. We have registered the *Travelzoo* trademark in Australia, Canada, China, Hong Kong, Japan, South Korea, and Taiwan. The steps we have taken to protect our proprietary rights, however, may not be adequate to deter misappropriation of proprietary information.

We may not be able to detect unauthorized use of our proprietary information or take appropriate steps to enforce our intellectual property rights. In addition, the validity, enforceability and scope of protection of intellectual property in Internet-related industries are uncertain and still evolving. The laws of other countries in which we may market our services in the future are uncertain and may afford little or no effective protection of our intellectual property.

Employees

As of December 31, 2009, we had 193 employees worldwide. None of our employees are represented under collective bargaining agreements. We consider our relations with our employees to be good. Because of our anticipated further growth, we expect that the number of our employees will continue to increase for the foreseeable future.

Internet Access to Other Information

We make available free of charge, on or through our Web site (www.travelzoo.com), annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as well as proxy statements, as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. Information included on our Web site does not constitute part of this Report.

Item 1A. Risk Factors

Investing in our common stock involves a high degree of risk. Any or all of the risks listed below as well as other variables affecting our operating results could have a material adverse effect on our business, our quarterly and annual operating results or financial condition, which could cause the market price of our stock to decline or cause substantial volatility in our stock price, in which event the value of your common stock could decline. You should also keep these risk factors in mind when you read forward-looking statements.

Risks Related to Our Financial Condition and Business Model

We cannot assure you that we will be profitable.

In the year ended December 31, 2009, we generated net income of \$5.2 million. Although we had been profitable in the past, we incurred a net loss in 2008, and there is no assurance that we will continue to be profitable in the future. We forecast our future expense levels based on our operating plans and our estimates of future revenues. We may find it necessary to significantly accelerate expenditures relating to our sales and marketing efforts or otherwise increase our financial commitment to creating and maintaining brand awareness among Internet users and travel companies. If our revenues grow at a slower rate than we anticipate, or if our spending levels exceed our expectations or cannot be adjusted to reflect slower revenue growth, we may not generate sufficient revenues to be profitable. We expect our operations in Europe to incur losses in the next 12 months. We expect that this will have a material negative impact on our operating margins, net income and cash flows. Any of these developments could result in a significant decrease in the trading price of our common stock.

Fluctuations in our operating results may negatively impact our stock price.

Our quarterly and annual operating results may fluctuate significantly in the future due to a variety of factors that could affect our revenues or our expenses in any particular period. You should not rely on quarter-to-quarter comparisons of our results of operations as an indication of future performance. Factors that may affect our results include:

- mismatches between resource allocation and client demand due to difficulties in predicting client demand in a new market;
- changes in general economic conditions that could affect marketing efforts generally and online marketing efforts in particular;
- the magnitude and timing of marketing initiatives, including our acquisition of new subscribers and our expansion efforts in other regions;
- the introduction, development, timing, competitive pricing and market acceptance of our products and services and those of our competitors;
- our ability to attract and retain key personnel;
- our ability to manage our anticipated growth and expansion;
- our ability to attract traffic to our Web sites;
- technical difficulties or system downtime affecting the Internet generally or the operation of our products and services specifically;
- payments which we may make to previous stockholders of Travelzoo.com Corporation who failed to submit requests for shares in Travelzoo Inc. within the required time period; and
- volatility of our operating results in new markets.

We may significantly increase our operating expenses related to advertising campaigns for *Travelzoo* for a certain period if we see a unique opportunity for a brand marketing campaign, if we find it necessary to respond to increased brand marketing by a competitor, or if we decide to accelerate our acquisition of new subscribers.

If revenues fall below our expectations in any quarter and we are unable to quickly reduce our operating expenses in response, our operating results would be lower than expected and our stock price may fall.

Our business model may not be adaptable to a changing market.

Our current revenue model depends on advertising fees paid primarily by travel and entertainment companies. If current clients decide not to continue advertising their offers with us and we are unable to replace them with new clients, our business may be adversely affected. To be successful, we must provide online marketing solutions that achieve broad market acceptance by travel and entertainment companies. In addition, we must attract sufficient

Internet users with attractive demographic characteristics to our products. It is possible that we will be required to further adapt our business model in response to changes in the online advertising market or if our current business model is not successful. If we are not able to anticipate changes in the online advertising market or if our business model is not successful, our business could be materially adversely affected.

We may not be able to obtain sufficient funds to grow our business and any additional financing may be on terms adverse to your interests.

For the year ended December 31, 2009 our cash and cash equivalents increased by \$5.6 million to \$19.8 million. We intend to continue to grow our business, and intend to fund our current operations and anticipated growth from the cash on hand. However, this may not be sufficient to meet our needs. We may not be able to obtain financing on commercially reasonable terms, or at all.

If additional financing is not available when required or is not available on acceptable terms, we may be unable to fund our expansion, successfully promote our brand name, develop or enhance our products and services, take advantage of business opportunities, or respond to competitive pressures, any of which could have a material adverse effect on our business.

If we choose to raise additional funds through the issuance of equity securities, you may experience significant dilution of your ownership interest, and holders of the additional equity securities may have rights senior to those of the holders of our common stock. If we obtain additional financing by issuing debt securities, the terms of these securities could restrict or prevent us from paying dividends and could limit our flexibility in making business decisions.

Our business may be sensitive to recessions.

The demand for online advertising may be linked to the level of economic activity and employment in the U.S. and abroad. Specifically, our business is dependent on the demand for online advertising from travel and entertainment companies. The recent recession decreased consumer travel and caused travel and entertainment companies to reduce or postpone their marketing spending generally, and their online marketing spending in particular. Continued or future recessions could have a material adverse effect on our business and financial condition.

Our operations could be significantly hindered by the occurrence of a natural disaster or other catastrophic event.

Our operations are susceptible to outages due to fire, floods, power loss, telecommunications failures, unexpected technical problems in the systems that power our Web sites and distribute our e-mail newsletters, break-ins and similar events. In addition, a significant portion of our network infrastructure is located in Northern California, an area susceptible to earthquakes. We do not have multiple site capacity in the event of any such occurrence. Outages could cause significant interruptions of our service. In addition, despite our implementation of network security measures, our servers are vulnerable to computer viruses, physical and electronic break-ins, and similar disruptions from unauthorized tampering with our computer systems. We do not carry business interruption insurance to compensate us for losses that may occur as a result of any of these events.

Technological or other assaults on our service could harm our business.

We are vulnerable to coordinated attempts to overload our systems with data, which could result in denial or reduction of service to some or all of our users for a period of time. We have experienced denial of service attacks in the past, and may experience such attempts in the future. Any such event could reduce our revenue and harm our operating results and financial condition. We do not carry business interruption insurance to compensate us for losses that may occur as a result of any of these events.

Risks Related to Our Markets and Strategy

Our international expansion is expected to result in substantial operating losses, and is subject to other material risks.

In May 2005, we began operations in the U.K. In 2006 we began operations in Canada, Germany and Spain. In 2007, we began operations in France.

Although our revenues in Europe increased 70% in the twelve months ended December 31, 2009 from the same period last year, we expect our operations in Europe will continue to incur losses in the next 12 months primarily as a result of significant expenses related to subscriber acquisition and the launch of *Fly.com*. We intend to continue adding a significant number of subscribers in selected countries in which we operate as we believe this is one of the factors that will allow us to increase our advertising rates and increase our revenues in Europe.

The losses from our operations in Europe may not have any recognizable tax benefit. We expect this will have a material negative impact on our net income and cash flows. Any of these developments could result in a significant decrease in the trading price of our common stock. In addition to uncertainty about our ability to generate net income from our foreign operations and expand our international market position, there are certain risks inherent in doing business internationally, including:

- trade barriers and changes in trade regulations;
- difficulties in developing, staffing and simultaneously managing foreign operations as a result of distance, language and cultural differences;
- stringent local labor laws and regulations;
- currency exchange rate fluctuations;
- risks related to government regulation; and
- potentially adverse tax consequences.

We may not be able to continue developing awareness of our brand name.

We believe that continuing to build awareness of the *Travelzoo* and *Fly.com* brand names is critical to achieving widespread acceptance of our business. Brand recognition is a key differentiating factor among providers of online advertising opportunities, and we believe it could become more important as competition in our industry increases. In order to maintain and build brand awareness, we must succeed in our marketing efforts. If we fail to successfully promote and maintain our brand, incur significant expenses in promoting our brand and fail to generate a corresponding increase in revenue as a result of our branding efforts, or encounter legal obstacles which prevent our continued use of our brand name, our business could be materially adversely affected.

Our business may be sensitive to events affecting the travel industry in general.

Events like the war with Iraq or the terrorist attacks on the U.S. in 2001 or the current global financial crisis have a negative impact on the travel industry. We are not in a position to evaluate the net effect of these circumstances on our business. In the longer term, our business might be negatively affected by financial pressures on the travel industry. However, our business may also benefit if travel companies increase their efforts to promote special offers or other marketing programs. If such events result in a long-term negative impact on the travel industry, such impact could have a material adverse effect on our business.

We will not be able to attract travel and entertainment companies or Internet users if we do not continually enhance and develop the content and features of our products and services.

To remain competitive, we must continually improve the responsiveness, functionality and features of our products and services. We may not succeed in developing features, functions, products or services that travel and entertainment companies and Internet users find attractive. This could reduce the number of travel and entertainment companies and Internet users using our products and materially adversely affect our business.

We may lose business if we fail to keep pace with rapidly changing technologies and client needs.

Our success is dependent on our ability to develop new and enhanced software, services and related products to meet rapidly evolving technological requirements for online advertising. Our current technology may not meet the future technical requirements of travel and entertainment companies. Trends that could have a critical impact on our success include:

- rapidly changing technology in online advertising;
- evolving industry standards, including both formal and *de facto* standards relating to online advertising;
- developments and changes relating to the Internet;
- competing products and services that offer increased functionality; and
- changes in travel company, entertainment company, and Internet user requirements.

If we are unable to timely and successfully develop and introduce new products and enhancements to existing products in response to our industry's changing technological requirements, our business could be materially adversely affected.

Our business and growth will suffer if we are unable to hire and retain highly skilled personnel.

Our future success depends on our ability to attract, train, motivate and retain highly skilled employees. We may be unable to retain our skilled employees, or attract, assimilate and retain other highly skilled employees in the future. We have from time to time in the past experienced, and we expect to continue to experience in the future, difficulty in hiring and retaining highly skilled employees with appropriate qualifications. If we are unable to hire and retain skilled personnel, our growth may be restricted, which could adversely affect our future success.

We may not be able to effectively manage our expanding operations.

Since the commencement of our operations, we have experienced a period of rapid growth. In order to execute our business plan, we must continue to grow significantly. As of December 31, 2009, we had 193 employees. We expect that the number of our employees will continue to increase for the foreseeable future. This growth has placed, and our anticipated future growth will continue to place, a significant strain on our management, systems and resources. We expect that we will need to continue to improve our financial and managerial controls and reporting systems and procedures. We will also need to continue to expand and maintain close coordination among our sales, production, marketing, IT, and finance departments. We may not succeed in these efforts. Our inability to expand our operations in an efficient manner could cause our expenses to grow disproportionately to revenues, our revenues to decline or grow more slowly than expected and could otherwise have a material adverse effect on our business.

Our operations may be adversely affected by changes in our senior management.

On November 18, 2009, the Company entered into an employment agreement with Christopher Loughlin, the Company's current Executive Vice President, Europe, under which, effective July 1, 2010, Mr. Loughlin will serve as the Company's Chief Executive Officer. Mr. Loughlin will replace Holger Bartel as Chief Executive Officer. Mr. Loughlin served as the Company's Vice President of Business Development from 2001 to 2005 and served as the Company's Senior Vice President and General Manager, Travelzoo U.K. from 2005 to 2006. Since 2006 Mr. Loughlin has served as the Company's Executive Vice President, Europe, and has extensive familiarity with the business and operations of the Company. However, there can be no assurances that these changes in the senior management of the Company will not have an adverse effect on the business of the Company, temporarily or otherwise.

Intense competition may adversely affect our ability to achieve or maintain market share and operate profitably.

We face intense competition. We compete for advertising dollars with large Internet portal sites, such as America Online, MSN and Yahoo!, that offer listings or other advertising opportunities for travel companies. These companies have significantly greater financial, technical, marketing and other resources and larger client bases. We compete with search engines like Google and Yahoo! Search that offer pay-per-click listings. We compete with travel meta-search engines and online travel deal publishers. We compete with large online travel agencies like Expedia and Priceline that also offer advertising placements. In addition, we compete with newspapers, magazines and other traditional media companies that operate Web sites which provide online advertising opportunities. We expect to face additional competition as other established and emerging companies, including print media companies, enter the online advertising market. Competition could result in reduced margins on our services, loss of market share or less use of *Travelzoo* by travel companies and consumers. If we are not able to compete effectively with current or future competitors as a result of these and other factors, our business could be materially adversely affected.

Loss of any of our key management personnel could negatively impact our business.

Our future success depends to a significant extent on the continued service and coordination of our management team, particularly Holger Bartel, our Chief Executive Officer, and Christopher Loughlin, who is scheduled to become our Chief Executive Officer on July 1, 2010. The loss or departure of any of our officers or key employees could materially adversely affect our ability to implement our business plan. We do not maintain key person life insurance for any member of our management team. In addition, we expect new members to join our management team in the future. These individuals will not previously have worked together and will be required to become integrated into our management team. If our key management personnel are not able to work together effectively or successfully, our business could be materially adversely affected.

We may not be able to access third party technology upon which we depend.

We use technology and software products from third parties, including Microsoft. Technology from our current or other vendors may not continue to be available to us on commercially reasonable terms, or at all. Our business will suffer if we are unable to access this technology, to gain access to additional products or to integrate new technology with our existing systems. This could cause delays in our development and introduction of new services and related products or enhancements of existing products until equivalent or replacement technology can be accessed, if available, or developed internally, if feasible. If we experience these delays, our business could be materially adversely affected.

Risks Related to the Market for our Shares

Our stock price has been volatile historically and may continue to be volatile.

The trading price of our common stock has been and may continue to be subject to wide fluctuations. During 2009, the sales price of our common stock on the NASDAQ Global Select Market ranged from \$3.72 to \$15.38. Our stock price may fluctuate in response to a number of events and factors, such as quarterly variations in operating results; announcements of technological innovations or new products by us or our competitors; changes in financial estimates and recommendations by securities analysts; the operating and stock price performance of other companies that investors may deem comparable to us; and news reports relating to trends in our markets or general economic conditions.

In addition, the stock market in general, and the market prices for Internet-related companies in particular, have experienced volatility that often has been unrelated to the operating performance of such companies. These broad market and industry fluctuations may adversely affect the price of our stock, regardless of our operating performance.

We are controlled by a principal stockholder.

Ralph Bartel, who founded Travelzoo and who is our Chairman of the Board, is our largest stockholder, holding beneficially, as of February 26, 2010, approximately 66.3% of our outstanding shares. Through his share ownership, he is in a position to control Travelzoo and to elect our entire board of directors.

Risks Related to Legal Uncertainty

We may become subject to burdensome government regulations and legal uncertainties affecting the Internet which could adversely affect our business.

To date, governmental regulations have not materially restricted use of the Internet in our markets. However, the legal and regulatory environment that pertains to the Internet is uncertain and may change. Uncertainty and new regulations could increase our costs of doing business, prevent us from delivering our products and services over the Internet or slow the growth of the Internet. In addition to new laws and regulations being adopted, existing laws may be applied to the Internet. New and existing laws may cover issues which include:

- user privacy;
- anti-spam legislation;
- consumer protection;
- copyright, trademark and patent infringement;
- pricing controls;
- characteristics and quality of products and services;
- sales and other taxes; and
- other claims based on the nature and content of Internet materials.

We may be liable as a result of information retrieved from or transmitted over the Internet.

We may be sued for defamation, negligence, copyright or trademark infringement or other legal claims relating to information that is published or made available in our products. These types of claims have been brought, sometimes successfully, against online services in the past. The fact that we distribute information via e-mail may subject us to potential risks, such as liabilities or claims resulting from unsolicited e-mail or spamming, lost or misdirected messages, security breaches, illegal or fraudulent use of e-mail or interruptions or delays in e-mail service. In addition, we could incur significant costs in investigating and defending such claims, even if we ultimately are not liable. If any of these events occur, our business could be materially adversely affected.

Claims may be asserted against us relating to shares not issued in our 2002 merger.

The merger of Travelzoo.com Corporation into the Company became effective on April 25, 2002. Stockholders of Travelzoo.com Corporation were allowed a period of two years following the effective date to receive shares in the Company. After April 25, 2004, two years following the effective date, we ceased issuing shares to the former stockholders of Travelzoo.com Corporation. Many of the "Netsurfer stockholders," who had applied to receive shares of Travelzoo.com Corporation in 1998 for no cash consideration, did not elect to receive their shares which were issuable in the merger prior to the end of the two-year period. A total of 4,115,532 of our shares which had been reserved for issuance in the merger were not claimed.

It is possible that claims may be asserted against us in the future by former stockholders of Travelzoo.com Corporation seeking to receive our shares, whether based on a claim that the two-year deadline for exchanging their shares was unenforceable or otherwise. In addition, one or more jurisdictions, including the Bahamas or the State of Delaware, may assert rights to unclaimed shares under escheat statutes. If such escheat claims are asserted, we intend to challenge the applicability of escheat rights in that, among other reasons, the identity, residency and eligibility of the holders in question cannot be determined. There were certain conditions applicable to the issuance of shares to the Netsurfer stockholders, including requirements that (i) they be at least 18 years of age, (ii) they be

residents of the U.S. or Canada and (iii) they not apply for shares more than once. The Netsurfer stockholders were required to confirm their compliance with these conditions, and were advised that failure to comply could result in cancellation of their shares in Travelzoo.com Corporation. Travelzoo.com Corporation was not able to verify that the applicants met the requirements referred to above at the time of their applications for issuance of shares. If claims are asserted by persons claiming to be former stockholders of Travelzoo.com Corporation, we intend to assert that their rights to receive their shares expired two years following the effective date of the merger, as provided in the merger agreement. We also expect to take the position, if escheat or similar claims are asserted in respect of the unissued shares in the future, that we are not required to issue such shares. Further, even if it were established that unissued shares were subject to escheat claims, we would assert that the claimant must establish that the original Netsurfer stockholders complied with the conditions to issuance of their shares. We are not able to predict the outcome of any future claims which might be asserted relating to the unissued shares. If such claims were asserted, and were fully successful, that could result in us being required to issue up to an additional 4,068,000 shares of common stock for no additional payment, which would result in substantial dilution of the ownership interests of the other stockholders, and in our earnings per share, which could adversely affect the market price of the common stock.

On October 15, 2004, we announced a program under which we would make cash payments to people who establish that they were former stockholders of Travelzoo.com Corporation, and who failed to submit requests to convert shares into Travelzoo Inc. within the required time period. The accompanying consolidated financial statements include a charge in general and administrative expenses of \$7,000 for these cash payments for the year ended December 31, 2009. The total cost of this program is not reliably estimable because it is based on the ultimate number of valid requests received and future levels of our common stock price. Our common stock price affects the liability because the amount of cash payments under the program is based in part on the recent level of the stock price at the date valid requests are received. We do not know how many of the requests for shares originally received by Travelzoo.com Corporation in 1998 were valid, but we believe that only a portion of such requests were valid. As noted above, in order to receive payment under the program, a person is required to establish that such person validly held shares in Travelzoo.com Corporation. Assuming 100% of the requests from 1998 were valid, former stockholders of Travelzoo.com Corporation holding approximately 4,068,000 shares had not submitted claims under the program as of December 31, 2009.

Our internal controls over financial reporting may not be effective, and our independent auditors may not be able to certify as to their effectiveness, which could have a significant and adverse effect on our business.

We are obligated to evaluate our internal controls over financial reporting in order to allow management to report on, and our independent auditors to opine on, our internal controls over financial reporting, as required by Section 404 of the Sarbanes-Oxley Act of 2002 and the rules and regulations of the SEC, which we collectively refer to as Section 404. In our Section 404 evaluation, we have identified areas of internal controls that may need improvement and have instituted remediation efforts where necessary. Currently, none of our identified areas that need improvement has been categorized as material weaknesses. We may identify conditions that may result in significant deficiencies or material weaknesses in the future.

We may be unable to protect our registered trademark or other proprietary intellectual property rights.

Our success depends to a significant degree upon the protection of the *Travelzoo* brand name. We rely upon a combination of copyright, trade secret and trademark laws and non-disclosure and other contractual arrangements to protect our intellectual property rights. The steps we have taken to protect our proprietary rights, however, may not be adequate to deter misappropriation of proprietary information.

We have registered the *Travelzoo* trademark in the U.S., Australia, Canada, China, Hong Kong, Japan, South Korea, Taiwan, and the U.K. If we are unable to protect our rights in the mark in North America, Europe, and Asia Pacific, a key element of our strategy of promoting *Travelzoo* as a brand could be disrupted and our business could be adversely affected. We may not be able to detect unauthorized use of our proprietary information or take appropriate steps to enforce our intellectual property rights. In addition, the validity, enforceability, and scope of protection of intellectual property in Internet-related industries are uncertain and still evolving. The laws of

countries in which we may market our services in the future are uncertain and may afford little or no effective protection of our intellectual property. The unauthorized reproduction or other misappropriation of our proprietary technology could enable third parties to benefit from our technology and brand name without paying us for them. If this were to occur, our business could be materially adversely affected.

We may face liability from intellectual property litigation that could be costly to prosecute or defend and distract management's attention with no assurance of success.

We cannot be certain that our products, content and brand names do not or will not infringe valid patents, copyrights or other intellectual property rights held by third parties. While we have a trademark for "Travelzoo," many companies in the industry have similar names including the word "travel". We expect that infringement claims in our markets will increase in number as more participants enter the markets. We may be subject to legal proceedings and claims from time to time relating to the intellectual property of others in the ordinary course of our business. We may incur substantial expenses in defending against these third party infringement claims, regardless of their merit, and such claims could result in a significant diversion of the efforts of our management personnel. Successful infringement claims against us may result in monetary liability or a material disruption in the conduct of our business.

Item 1B. *Unresolved Staff Comments*

None.

Item 2. *Properties*

We are headquartered in New York, New York, where we occupy approximately 10,600 square feet of leased office space. In addition to our New York office, we have several leased offices throughout the U.S. and Canada for our North America operations, including offices in Chicago, Illinois, Las Vegas, Nevada, Los Angeles, California, Miami, Florida, Mountain View, California, San Francisco, California, and Toronto, Ontario.

We also have leased offices for our Europe operations in France, Germany, Spain, and the U.K., including offices in Barcelona, Hamburg, London, Manchester, Munich, and Paris.

We believe that our leased facilities are adequate to meet our current needs; however, we intend to expand our operations and therefore may require additional facilities in the future. We believe that such additional facilities are available.

Item 3. *Legal Proceedings*

From time to time, we are subject to legal proceedings and claims in the ordinary course of business, including claims of alleged infringement of trademarks, copyrights and other intellectual property rights, as well as claims by former employees. We are not currently aware of any legal proceedings or claims pending or threatened that we believe will have, individually or in the aggregate, a material adverse effect on our financial condition or results of operations.

Item 4. *(Removed and Reserved)*

PART II

Item 5. *Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities*

Market Information

Since August 18, 2004, our common stock has been trading on the NASDAQ Global Select Market under the symbol "TZOO." From December 30, 2003 to August 17, 2004, our common stock was traded on the NASDAQ SmallCap Market under the symbol "TZOO." The following table sets forth, for the periods indicated, the high and low sales prices per share of our common stock as reported by NASDAQ.

	<u>High</u>	<u>Low</u>
2009:		
Fourth Quarter	\$15.38	\$12.00
Third Quarter	\$14.94	\$10.51
Second Quarter	\$12.35	\$ 5.93
First Quarter	\$ 6.84	\$ 3.72
2008:		
Fourth Quarter	\$ 8.39	\$ 4.11
Third Quarter	\$ 9.54	\$ 6.42
Second Quarter	\$13.26	\$ 8.57
First Quarter	\$17.20	\$ 9.61

On February 26, 2010, the last reported sales price of our common stock on the NASDAQ Global Select Market was \$11.40 per share.

As of February 26, 2010, there were approximately 123,000 stockholders of record.

Dividend Policy

Travelzoo has not declared or paid any cash dividends since inception and does not expect to pay cash dividends for the foreseeable future. We currently intend to retain future earnings to finance the expansion of our business. The payment of dividends will be at the discretion of our board of directors and will depend upon factors such as future earnings, capital requirements, our financial condition and general business conditions.

Sales of Unregistered Securities

There were no unregistered sales of equity securities during fiscal year 2009.

Repurchases of Equity Securities

There were no shares of the Company's outstanding common stock repurchased during the year ended December 31, 2009.

Performance Graph

The following graph compares, for the dates specified, the cumulative total stockholder return for Travelzoo, the NASDAQ Stock Market (U.S. companies) Index (the “NASDAQ Market Index”), and the Standard & Poor’s 500 Publishing Index (the “S&P 500 Publishing”). Measurement points are the last trading day of each of the Company’s fiscal years ended December 31, 2004, December 31, 2005, December 31, 2006, December 31, 2007, December 31, 2008, and December 31, 2009. The graph assumes that \$100 was invested on December 31, 2004 in the Common Stock of the Company, the NASDAQ Market Index and the S&P 500 Publishing and assumes reinvestment of any dividends. The stock price performance on the following graph is not indicative of future stock price performance.

Measurement Point	12/31/2004	12/31/2005	12/31/2006	12/31/2007	12/31/2008	12/31/2009
Travelzoo Inc.	\$100.00	\$ 23.05	\$ 31.38	\$ 14.34	\$ 5.83	\$ 12.88
NASDAQ Market Index	\$100.00	\$101.37	\$111.03	\$121.92	\$72.49	\$104.31
S&P 500 Publishing	\$100.00	\$ 87.26	\$100.62	\$ 75.56	\$32.44	\$ 49.40

Item 6. Selected Consolidated Financial Data

The selected consolidated financial data set forth below are derived from audited consolidated financial statements. The following selected consolidated financial data is qualified in its entirety by, and should be read in conjunction with, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and the consolidated financial statements and the notes thereto included elsewhere herein.

Consolidated Statement of Operations Data:

	Year Ended December 31,				
	2009	2008	2007	2006	2005
	(In thousands, except per share data)				
Revenues	\$93,973	\$ 80,817	\$78,904	\$69,525	\$50,772
Income from continuing operations	13,708	13,312	23,679	29,753	14,870
Income from continuing operations, net of taxes	6,418	5,913	12,108	16,803	7,963
Loss from discontinued operations, net of taxes	(1,233)	(10,029)	(2,999)	—	—
Net income (loss)	5,185	(4,116)	9,109	16,803	7,963
Basic net income (loss) per share from:					
Continuing operations	\$ 0.39	\$ 0.41	\$ 0.82	\$ 1.08	\$ 0.49
Discontinued operations	\$ (0.08)	\$ (0.70)	\$ (0.20)	\$ —	\$ —
Net income (loss) per share	\$ 0.32	\$ (0.29)	\$ 0.61	\$ 1.08	\$ 0.49
Diluted net income (loss) per share from:					
Continuing operations	\$ 0.39	\$ 0.37	\$ 0.75	\$ 1.01	\$ 0.45
Discontinued operations	\$ (0.08)	\$ (0.62)	\$ (0.19)	\$ —	\$ —
Net income (loss) per share	\$ 0.32	\$ (0.25)	\$ 0.57	\$ 1.01	\$ 0.45
Shares used in per share calculation — basic	16,408	14,273	14,847	15,503	16,249
Shares used in per share calculation — diluted	16,416	16,190	16,074	16,712	17,731

Consolidated Balance Sheet Data:

	December 31,				
	2009	2008	2007	2006	2005
	(In thousands)

Stockholders’ equity	30,771	20,763	25,902	36,817	48,533

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of Travelzoo’s financial condition and results of operations should be read in conjunction with, and is qualified in its entirety by reference to, the consolidated financial statements and the notes thereto appearing elsewhere in this report.

Overview

Travelzoo Inc. is a global Internet media company. We inform over 18 million subscribers worldwide, as well as millions of Web site users, about the best travel and entertainment deals available from thousands of companies. We publish these offers by sourcing, researching, test-booking, and selecting offers professionally. We provide airlines, hotels, cruise lines, vacation packagers, and other travel and entertainment companies with a fast, flexible, and cost effective way to reach millions of consumers. Our revenues are generated from advertising fees.

Our publications and products include the *Travelzoo* Web sites (www.travelzoo.com, www.travelzoo.ca, www.travelzoo.co.uk, www.travelzoo.de, www.travelzoo.com.es, www.travelzoo.fr, among others), the *Travelzoo Top 20* e-mail newsletter, and the *Newsflash* e-mail alert service. We operate *SuperSearch*, a pay-per-click travel search tool and the *Travelzoo Network*, a network of third-party Web sites that list deals published by Travelzoo. We also operate *Fly.com*, a travel search engine that allows users to quickly and easily find and compare the best prices on flights from hundreds of airlines and online travel agencies. More than 2,000 travel and entertainment companies use our services.

On October 31, 2009, we completed the sale of our Asia Pacific operating segment to Azzurro Capital Inc. and its wholly-owned subsidiaries, Travelzoo (Asia) Limited and Travelzoo Japan K.K. The results of operations of the Asia Pacific operating segment have been classified as discontinued operations for all periods presented. We have not had significant ongoing involvement with the operations of the Asia Pacific operating segment and have not had any economic interests in the Asia Pacific operating segment since the completion of the sale. Starting November 1, 2009, the *Travelzoo* Web sites in Asia Pacific (cn.travelzoo.com, www.travelzoo.co.jp, www.travelzoo.com.au, www.travelzoo.com.hk, www.travelzoo.com.tw, among others), the *Travelzoo Top 20* e-mail newsletters in Asia Pacific and the *Newsflash* e-mail alert service in Asia Pacific are published by Travelzoo (Asia) Limited and Travelzoo Japan K.K., wholly owned subsidiaries of Azzurro Capital Inc., under a license agreement with the Company. See Note 11 to the accompanying consolidated financial statements.

Our revenues are advertising revenues, consisting of listing fees paid primarily by travel and entertainment companies to advertise their offers on the *Travelzoo* Web sites, in the *Travelzoo Top 20* e-mail newsletter, in the *Newsflash* e-mail alert service, in *SuperSearch*, through the *Travelzoo Network*, and on *Fly.com*. Revenues are principally generated from the sale of advertising in the U.S. Listing fees are based on placement, number of listings, number of impressions, number of click-throughs, or number of referrals. Smaller advertising agreements — typically \$2,000 or less per month — typically renew automatically each month if they are not terminated by the client. Larger agreements are typically related to advertising campaigns and are not automatically renewed.

We have two operating segments based on geographic regions: North America and Europe. North America consists of our operations in Canada and the U.S. Europe consists of our operations in France, Germany, Spain, and the U.K. For the year ended December 31, 2009, our operations in Europe accounted for 17% of revenues and our operations in North America accounted for 83% of revenues.

When evaluating the financial condition and operating performance of the Company, management focuses on the following financial and non-financial indicators:

- Growth of number of subscribers of the Company's newsletters and page views of the homepages of the *Travelzoo* Web sites;
- Operating margin;
- Growth in revenues in the absolute and relative to the growth in reach of the Company's publications; and
- Revenue per employee as a measure of productivity.

Critical Accounting Policies

We believe that there are a number of accounting policies that are critical to understanding our historical and future performance, as these policies affect the reported amounts of revenue and the more significant areas involving management's judgments and estimates. These significant accounting policies relate to revenue recognition, the allowance for doubtful accounts, and liabilities to former stockholders. These policies, and our procedures related to these policies, are described in detail below.

Revenue Recognition

We recognize revenue on arrangements in accordance with SEC Staff Accounting Bulletin for revenue recognition. We recognize advertising revenues in the period in which the advertisement is displayed, provided that evidence of an arrangement exists, the fees are fixed or determinable and collection of the resulting receivable is reasonably assured. If fixed-fee advertising is displayed over a term greater than one month, revenues are

recognized ratably over the period as described below. The majority of insertion orders have terms that begin and end in a quarterly reporting period. In the cases where at the end of a quarterly reporting period the term of an insertion order is not complete, the Company recognizes revenue for the period by pro-rating the total arrangement fee to revenue and deferred revenue based on a measure of proportionate performance of its obligation under the insertion order. The Company measures proportionate performance by the number of placements delivered and undelivered as of the reporting date. The Company uses prices stated on its internal rate card for measuring the value of delivered and undelivered placements. Fees for variable-fee advertising arrangements are recognized based on the number of impressions displayed, number of clicks delivered, or number of referrals generated during the period.

Under these policies, no revenue is recognized unless persuasive evidence of an arrangement exists, delivery has occurred, the fee is fixed or determinable, and collection is deemed reasonably assured. The Company evaluates each of these criteria as follows:

- *Evidence of an arrangement.* We consider an insertion order signed by the client or its agency to be evidence of an arrangement.
- *Delivery.* Delivery is considered to occur when the advertising has been displayed and, if applicable, the click-throughs have been delivered.
- *Fixed or determinable fee.* We consider the fee to be fixed or determinable if the fee is not subject to refund or adjustment and payment terms are standard.
- *Collection is deemed reasonably assured.* We conduct a credit review for all transactions at the time of the arrangement to determine the creditworthiness of the client. Collection is deemed reasonably assured if we expect that the client will be able to pay amounts under the arrangement as payments become due. If we determine that collection is not reasonably assured, then we defer the revenue and recognize the revenue upon cash collection. Collection is deemed not reasonably assured when a client is perceived to be in financial distress, which may be evidenced by weak industry conditions, a bankruptcy filing, or previously billed amounts that are past due.

Revenues from advertising sold to clients through agencies are reported at the net amount billed to the agency.

Allowance for Doubtful Accounts

We record a provision for doubtful accounts based on our historical experience of write-offs and a detailed assessment of our accounts receivable and allowance for doubtful accounts. In estimating the provision for doubtful accounts, management considers the age of the accounts receivable, our historical write-offs, the creditworthiness of the client, the economic conditions of the client's industry, and general economic conditions, among other factors. Should any of these factors change, the estimates made by management will also change, which could impact the level of our future provision for doubtful accounts. Specifically, if the financial condition of our clients were to deteriorate, affecting their ability to make payments, additional provision for doubtful accounts may be required.

Liability to Former Stockholders

On October 15, 2004, we announced a program under which we would make cash payments to people who establish that they were former stockholders of Travelzoo.com Corporation, and who failed to submit requests to convert shares into Travelzoo Inc. within the required time period. We account for the cost of this program as an expense recorded in general and administrative expenses and a current accrued liability. The ultimate total cost of this program is not reliably estimable because it is based on the ultimate number of valid requests received and future levels of the Company's common stock price. The Company's common stock price affects the liability because the amount of cash payments under the program is based in part on the recent level of the stock price at the date valid requests are received. We do not know how many of the requests for shares originally received by Travelzoo.com Corporation in 1998 were valid. We believe that only a portion of such requests were valid. In order to receive payment under the program, a person is required to establish that such person validly held shares in Travelzoo.com Corporation.

Since the total cost of the program is not reliably estimable, the amount of expense recorded in a period is equal to the actual number of valid claims received during the period multiplied by (i) the number of shares held by each individual former stockholder and (ii) the applicable settlement price based on the recent price of our common stock at the date the claim is received as stipulated by the program. Requests are generally paid within 30 days of receipt. Please refer to Note 3 to the consolidated financial statements for further details about our liabilities to former stockholders.

Results of Operations

The following table sets forth, as a percentage of total revenues, the results of our operations for the years ended December 31, 2009, 2008 and 2007.

	Year Ended December 31,		
	<u>2009</u>	<u>2008</u>	<u>2007</u>
Revenues	100.0%	100.0%	100.0%
Cost of revenues	<u>6.0</u>	<u>3.5</u>	<u>1.2</u>
Gross profit	<u>94.0</u>	<u>96.5</u>	<u>98.8</u>
Operating expenses:			
Sales and marketing	52.9	53.6	51.4
General and administrative	<u>26.5</u>	<u>26.4</u>	<u>17.4</u>
Total operating expenses	<u>79.4</u>	<u>80.0</u>	<u>68.8</u>
Income from operations	14.6	16.5	30.0
Other income and expenses, net	<u>(0.1)</u>	<u>1.0</u>	<u>1.9</u>
Income from continuing operations before income taxes	14.5	17.5	31.9
Income taxes	<u>7.7</u>	<u>10.1</u>	<u>16.5</u>
Income from continuing operations	6.8	7.4	15.4
Loss from discontinued operations, net of taxes	<u>(1.3)</u>	<u>(12.4)</u>	<u>(3.8)</u>
Net income (loss)	<u>5.5%</u>	<u>(5.0)%</u>	<u>11.6%</u>

For the year ended December 31, 2009, we reported income from continuing operations of approximately \$6.4 million. As of December 31, 2009, we had retained earnings of approximately \$27.0 million. Our operating margin decreased to 14.6% for the year ended December 31, 2009 from 16.5% in 2008. The main reason for the decrease in operating margin is our cost of revenues as a percentage of revenues increased for the year ended December 31, 2009 compared to prior year (see “Cost of Revenues” below). This was partially offset by a decrease in operating expense as a percentage of revenues for the year ended December 31, 2009 compared to prior year (see “Operating Expenses” below).

We do not know whether our cost of revenues as a percentage of revenues will continue to increase in future periods. Our cost of revenues will increase if the number of searches performed on *Fly.com* increases because we pay a fee based on the number of searches performed on *Fly.com*. We expect fluctuations of cost of revenues as a percentage of revenues from quarter to quarter. Some of the fluctuations may be significant and have a material impact on our results of operations.

We do not know what our sales and marketing expenses as a percentage of revenue will be in future periods. Increased competition in our industry may require us to increase advertising for our brand and for our products. Increases in the average cost of acquiring new subscribers (see “Subscriber Acquisition” below) may result in an increase of sales and marketing expenses as a percentage of revenue. We may decide to accelerate our subscriber acquisition for various strategic and tactical reasons and, as a result, increase our marketing expenses. We may see a unique opportunity for a brand marketing campaign that will result in an increase of marketing expenses. Further, we expect our strategy to replicate our business model in selected foreign markets (see “Growth Strategy” below) to

result in a significant increase in our sales and marketing expenses and have a material adverse impact on our results of operations. We expect fluctuations of sales and marketing expenses as a percentage of revenue from year to year and from quarter to quarter. Some of the fluctuations may be significant and have a material impact on our results of operations.

We do not know what our general and administrative expenses as a percentage of revenue will be in future periods. There may be fluctuations that have a material impact on our results of operations. We expect our headcount to continue to increase in the future. The Company's headcount is one of the main drivers of general and administrative expenses. Therefore, we expect our absolute general and administrative expenses to continue to increase. We expect our continued expansion into foreign markets to result in a significant additional increase in our general and administrative expenses. Our general and administrative expenses as a percentage of revenue may also fluctuate depending on the number of requests received related to a program under which the Company intends to make cash payments to people who establish that they were former stockholders of Travelzoo.com Corporation, and who failed to submit requests to convert shares into Travelzoo Inc. within the required time period.

Reach

The following table sets forth the number of subscribers of each of our e-mail publications in North America and Europe as of December 31, 2009 and 2008 and the total number of page views for the homepages of the *Travelzoo* Web sites in North America and Europe for the years ended December 31, 2009 and 2008. Management considers page views for the *Travelzoo* homepages as indicators for the growth of Web site traffic. Management reviews these non-financial metrics for two reasons: First, to monitor our progress in increasing the reach of our products. Second, to evaluate whether we are able to convert higher reach into higher revenues.

	<u>Year Ended December 31,</u>		<u>Year-Over-Year Growth(1)</u>
	<u>2009</u>	<u>2008</u>	
Subscribers:			
North America			
<i>Travelzoo Top 20</i>	12,680,000	10,769,000	18%
<i>Newsflash</i>	10,905,000	8,888,000	23%
Europe			
<i>Travelzoo Top 20</i>	3,520,000	2,176,000	62%
<i>Newsflash</i>	3,435,000	2,075,000	66%
Page views of homepages of <i>Travelzoo</i> Web sites:			
North America	36,455,000	28,600,000	27%
Europe	16,491,000	7,237,000	128%

(1) The comparability of year-over-year changes of page views of the homepages of *Travelzoo* Web sites may be limited due to the design and navigation of the Web sites.

In North America, revenues for the year ended December 31, 2009 increased by 9% from the previous year. The total number of subscribers in North America to the *Travelzoo Top 20* e-mail newsletter as of December 31, 2009 increased by 18% compared to December 31, 2008 and page views of the homepages of the *Travelzoo* North America Web sites in North America for the year ended December, 31, 2009 increased by 27% from the previous year. In North America, revenues for the year ended December 31, 2009 compared to the year ended December 31, 2008 increased at a lower rate than the rate of increase in the number of subscribers to our *Travelzoo Top 20* e-mail newsletter and the rate of increase in Web site traffic. In North America, we believe we were unable to fully convert higher reach into higher revenues because we were unable to increase our advertising rates significantly due to intense competition in our industry.

In Europe, revenues for the year ended December 31, 2009 increased by 70% from the previous year. The total number of subscribers in Europe to the *Travelzoo Top 20* e-mail newsletter as of December 31, 2009 increased by 62% compared to December 31, 2008 and page views of the homepages of the *Travelzoo* Web sites in Europe for the

year ended December 31, 2009 increased by 128% from the previous year. In Europe, revenues increased at a higher rate than the rate of growth in subscribers to the *Travelzoo Top 20* e-mail newsletter.

Revenues

Our total revenues increased to \$94.0 million for the year ended December 31, 2009 from \$80.8 million for the year ended December 31, 2008. This represents an increase of \$13.2 million or 16%. \$6.7 million of the increase in revenues came from our operations in Europe, which had an increase of 70% in revenues year-over-year and was attributed primarily to a \$4.7 million increase in revenue from fixed-fee advertising delivered in the *Travelzoo Top 20* e-mail newsletter and on the *Travelzoo* Web site, an \$818,000 increase in revenue from variable-fee advertising delivered in the *Travelzoo Top 20* e-mail newsletter and on the *Travelzoo* Web site, and a \$706,000 increase in revenue from our *Newsflash* e-mail alert service. In local currency terms, revenues from our operations in Europe increased 98% year-over-year. The strengthening of the U.S. dollar relative to the British Pound Sterling and the Euro in the year ended December 31, 2009 compared to the year ended December 31, 2008 had an unfavorable impact on the revenues from our operations in Europe. Had foreign exchange rates remained constant in these periods, revenues from our operations in Europe for the year ended December 31, 2009 would have been approximately \$2.1 million higher than reported revenues of \$16.3 million. \$6.6 million of the increase in revenues came from our operations in North America and was attributed primarily to a \$4.4 million increase in revenues from our publications, which includes the *Travelzoo* Web site, the *Travelzoo Top 20* e-mail newsletter and the *Newsflash* e-mail alert service and a \$2.1 million increase in revenues from our search products, which consist of *SuperSearch* and *Fly.com*. We launched *Fly.com* in February 2009.

Our total revenues increased to \$80.8 million for the year ended December 31, 2008 from \$78.9 million for the year ended December 31, 2007. This represents an increase of \$1.9 million or 2%. \$3.7 million of the increase in revenues came from our operations in Europe, an increase of 64% year over year, and resulted primarily from a \$3.5 million increase in revenue from fixed-fee advertising delivered in the *Travelzoo Top 20* e-mail newsletter and on the *Travelzoo* Web site. The increase in revenues from our operations in Europe was offset by a \$1.9 million decrease in revenues from our operations in North America. With respect to the decrease in North American revenue, the Company recorded a decrease in revenues of approximately \$2.8 million from its publications which included the *Travelzoo* Web site, *Travelzoo Top 20* newsletter and *Newsflash*, and a decrease in revenues of approximately \$4.6 million from *SuperSearch*. These decreases were offset by approximately \$3.1 million increased revenue from new customers and approximately \$2.4 million increased revenue from the *Travelzoo Network*.

As discussed in Note 8 to the accompanying consolidated financial statements, none of our customers accounted for 10% or more of our revenue in the year ended December 31, 2009. Orbitz Worldwide accounted for 13% of our total revenues in the year ended December 31, 2008. In the year ended December 31, 2007, Orbitz Worldwide and Expedia, Inc. accounted for 15% and 11% of our total revenues, respectively. No other clients accounted for 10% or more of our total revenues during the years ended December 31, 2008 or 2007. The agreements with these clients are in the form of multiple insertion orders from groups of entities under common control. Although we did not have any clients that accounted for 10% or more of our total revenues during the year ended December 31, 2009, it is possible that we may have a client or clients that account for 10% or more of our total revenues in future years because management believes there is a high concentration in the online travel agency industry.

Management believes that our ability to increase revenues in the future depends mainly on the following factors:

- Our ability to increase our advertising rates;
- Our ability to sell more advertising to existing clients;
- Our ability to increase the number of clients;
- Our ability to develop new revenue streams; and
- Our ability to launch new products.

We believe that we can increase our advertising rates only if the reach of our publications increases. We do not know if we will be able to increase the reach of our publications. We believe that we can sell more advertising only if the market for online advertising continues to grow and if we can maintain or increase our market share. We believe that the market for online advertising continues to grow. We do not know if we will be able to maintain or increase our market share. We have historically increased the number of clients in each year since inception. We do not know if we will be able to increase the number of clients in the future. We do not know if we will have market acceptance of our new products.

Our goal is to increase our advertising rates at least once a year in each market, preferably as of January 1 of each year. However, we did not increase our advertising rates in the U.S. on January 1, 2008 and 2009 due to intense competition in our industry. We intend to review advertising rates and consider increases once a year as of January 1. However, there is no assurance that there will be increases of advertising rates. Depending on the level of competition in the industry and the condition of the online advertising market, we may decide not to increase our advertising rates in all or certain markets.

Average revenue per employee decreased to \$487,000 for the year ended December 31, 2009 from \$496,000 for the year ended December 31, 2008 and our average revenue per employee decreased to \$496,000 for the year ended December 31, 2008 from \$612,000 for the year ended December 31, 2007.

Cost of Revenues

Cost of revenues consists primarily of network expenses, including fees we pay for co-location services, depreciation and maintenance of network equipment, payments made to third-party partners of the *Travelzoo Network*, fees we pay related to user searches on *Fly.com*, amortization of capitalized Web site development costs, and salary expenses associated with network operations staff. Our cost of revenues increased to \$5.6 million for the year ended December 31, 2009 from \$2.8 million for the year ended December 31, 2008. As a percentage of revenue, cost of revenues was 6.0%, up from 3.5% for the year ended December 31, 2008. The \$2.8 million increase in cost of revenues for the year ended December 31, 2009 compared to the year ended December 31, 2008 was primarily due to a \$1.5 million increase in fees we paid related to user searches on *Fly.com*, an \$862,000 increase in depreciation, amortization and maintenance costs, and a \$355,000 increase in payments made to third-party partners of the *Travelzoo Network*. Our cost of revenues increased to \$2.8 million for the year ended December 31, 2008 from \$957,000 for the year ended December 31, 2007. As a percentage of revenue, cost of revenues was 3.5%, up from 1.2% for the year ended December 31, 2007. The \$1.9 million increase in cost of revenues for the year ended December 31, 2008 compared to the year ended December 31, 2007 was primarily due to a \$990,000 increase in payments made to affiliate partners of the *Travelzoo Network* and a \$302,000 increase in salary expense.

Operating Expenses

Sales and Marketing

Sales and marketing expenses consist primarily of advertising and promotional expenses, salary expenses associated with sales, marketing, and production staff, expenses related to our participation in industry conferences, and public relations expenses. Sales and marketing expenses increased to \$49.7 million for the year ended December 31, 2009 from \$43.3 million for the year ended December 31, 2008. The \$6.4 million increase in sales and marketing expenses for the year ended December 31, 2009 compared to the year ended December 31, 2008 was primarily due to a \$2.4 million increase in salary and employee related expenses, a \$2.6 million increase in advertising to acquire new subscribers for our e-mail products, a \$2.1 million increase in marketing expenses for *Fly.com*, and an \$876,000 increase in advertising to acquire traffic to our Web sites offset by a \$1.0 million decrease in brand marketing expenses and a \$373,000 decrease in trade and other marketing expenses.

Sales and marketing expenses for the year ended December 31, 2008 increased to \$43.3 million from \$40.5 million for the year ended December 31, 2007. The \$2.8 million increase in sales and marketing expense for the year ended December 31, 2008 compared to the year ended December 31, 2007 was primarily due to a \$3.1 million increase in salary and employee expenses and a \$936,000 increase in trade and other marketing expenses offset by a \$1.2 million decrease in brand marketing expenses.

The goal of our advertising campaigns is to acquire new subscribers for our e-mail products, increase the traffic to our Web sites, and increase brand awareness for *Travelzoo* and *Fly.com*. For the years ended December 31, 2009, 2008, and 2007, advertising expenses accounted for 61%, 59%, and 67% respectively, of sales and marketing expenses. Advertising activities during these three year periods consisted primarily of online advertising.

Our goal is to increase our revenues from advertising sales. One important factor that drives our revenues is our advertising rates. We believe that we can increase our advertising rates only if the reach of our publications increases. In order to increase the reach of our publications, we have to acquire a significant number of new subscribers in every quarter and continue to promote our brand. One significant factor that impacts our advertising expenses is the average cost per acquisition of a new subscriber. We believe that the average cost per acquisition depends mainly on the advertising rates which we pay for media buys, our ability to manage our subscriber acquisition efforts successfully, and the degree of competition in our industry.

In May 2005, we began operations in the U.K. In 2006, we began operations in Canada, Germany, and Spain. In 2007, we began operations in France. The continuing build-up of our business in Europe is expected to result in a relatively high level of sales and marketing expense in the foreseeable future.

General and Administrative

General and administrative expenses consist primarily of compensation for administrative, executive, and software development staff, fees for professional services, rent, bad debt expense, amortization of intangible assets and general office expense. General and administrative expenses increased to \$24.9 million for the year ended December 31, 2009 from \$21.4 million for the year ended December 31, 2008. The \$3.6 million increase in general and administrative expenses was primarily due to a \$2.1 million increase in salary and employee related expenses, a \$686,000 increase in depreciation and amortization expense, and a \$137,000 increase in legal and professional services expense.

General and administrative expenses increased to \$21.4 million for the year ended December 31, 2008 from \$13.7 million for the year ended December 31, 2007. The \$7.6 million increase in general and administrative expenses for the year ended December 31, 2008 compared to the year ended December 31, 2007 was primarily due to a \$4.1 million increase in salary and employee related expenses, a \$1.7 million increase in rent and office expense, and a \$1.3 million increase in professional services expense.

We expect our headcount to continue to increase in the future. The Company's headcount is one of the main drivers of general and administrative expenses. Therefore, we expect our general and administrative expenses to continue to increase.

Our strategy to replicate our business model in foreign markets is expected to result in a significant additional increase in our general and administrative expenses.

Subscriber Acquisition

The table set forth below provides for each quarter in 2007, 2008, and 2009, an analysis of our average cost for acquisition of new subscribers for our *Travelzoo Top 20* newsletter and our *Newsflash* e-mail alert service for our North America and Europe operating segments.

The table includes the following data:

- *Average Cost per Acquisition of a New Subscriber:* This is the quarterly costs of consumer marketing programs whose purpose was primarily to acquire new subscribers, divided by total new subscribers added during the quarter.
- *New Subscribers:* Total new subscribers who signed up for at least one of our e-mail publications throughout the quarter. This is an unduplicated subscriber number, meaning a subscriber who signed up for two or more of our publications is only counted once.

- *Subscribers Removed From List:* Subscribers who were removed from our lists throughout the quarter either as a result of their requesting removal, or based on periodic list maintenance after we determined that the e-mail address was likely no longer valid.
- *Balance:* This is the number of subscribers at the end of the quarter, computed by taking the previous quarter's subscriber balance, adding new subscribers during the current quarter, and subtracting subscribers removed from list during the current quarter.

North America:

<u>Period</u>	<u>Average Cost per Acquisition of a New Subscriber</u>	<u>New Subscribers</u>	<u>Subscribers Removed from List</u>	<u>Balance</u>
Q1 2007	\$2.61	730,063	(345,896)	10,611,505
Q2 2007	\$3.03	552,488	(335,304)	10,828,689
Q3 2007	\$3.92	385,408	(255,008)	10,959,089
Q4 2007	\$3.78	279,967	(242,822)	10,996,234
Q1 2008	\$4.97	296,565	(270,427)	11,022,372
Q2 2008	\$3.39	348,506	(303,623)	11,067,255
Q3 2008	\$3.73	360,916	(292,052)	11,136,119
Q4 2008	\$2.75	487,681	(341,057)	11,282,743
Q1 2009	\$2.29	720,320	(259,537)	11,743,526
Q2 2009	\$2.15	885,031	(277,439)	12,351,118
Q3 2009	\$1.80	1,076,367	(418,417)	13,009,068
Q4 2009	\$1.61	619,831	(380,626)	13,248,273

Europe:

<u>Period</u>	<u>Average Cost per Acquisition of a New Subscriber</u>	<u>New Subscribers</u>	<u>Subscribers Removed from List</u>	<u>Balance</u>
Q1 2007	\$3.89	159,439	(31,350)	783,379
Q2 2007	\$4.43	206,003	(39,690)	949,692
Q3 2007	\$2.96	331,903	(32,689)	1,248,906
Q4 2007	\$5.85	165,781	(33,357)	1,381,330
Q1 2008	\$3.90	362,417	(45,152)	1,698,595
Q2 2008	\$4.89	226,156	(31,055)	1,893,696
Q3 2008	\$4.52	253,961	(38,418)	2,109,239
Q4 2008	\$3.32	160,172	(46,736)	2,222,675
Q1 2009	\$3.09	295,450	(40,542)	2,477,583
Q2 2009	\$2.74	408,026	(52,491)	2,833,118
Q3 2009	\$3.53	541,509	(99,396)	3,275,231
Q4 2009	\$3.97	443,280	(117,519)	3,600,992

In North America, we have noted a general trend of decreasing average cost per acquisition of a new subscriber (“CPA”) over the last five quarters after a period of increasing CPA. The recent quarterly decreases in CPA reflect the effects of new advertising campaigns and decreases in advertising rates by our media suppliers. We do not consider the decrease in CPA to be indicative of a longer-term trend or to indicate that our CPA is likely to stay at this level or is likely to decrease further.

In Europe, we see a large fluctuation in the CPA. The average cost fluctuates from quarter to quarter and from country to country. The decline in CPA in Europe in Q4 2008 reflects the change in the exchange rates between Q3 2008 and Q4 2008 and accounted for \$0.51 of the decrease in the CPA. In Q4 2009, a higher proportion of the total subscribers we acquired were in Germany, where historically, the acquisition costs have been higher compared to

the other countries in Europe. This was the primary reason for the increase in the CPA in Q4 2009 compared to Q3 2009.

Future increases in CPA are likely to result in higher absolute marketing expenses and potentially higher relative marketing expenses as a percentage of revenue. Going forward, we expect continued upward pressure on online advertising rates and continued activity from competitors, which will likely increase our CPA over the long term. The effect on operations is that greater absolute and relative marketing expenditure may be necessary to continue to grow the reach of our publications. However, it is possible that the factors driving subscriber acquisition cost increases can be partially or completely offset by new or improved methods of subscriber acquisition using techniques which are under evaluation.

Segment Information

We have presented the business segments based on our organizational structure as of December 31, 2009.

North America

	Year Ended December 31,		
	2009	2008	2007
	(In thousands)		
Net revenues	\$77,967	\$71,339	\$73,232
Income from operations	19,227	21,118	28,959
Income from operations as % of revenues	25%	30%	40%

In North America, revenues increased \$6.6 million or 9% in the year ended December 31, 2009 compared to the year ended December 31, 2008 (see “Revenues” above). Income from operations for North America as a percentage of revenue in the year ended December 31, 2009 decreased by 5 percentage points compared to the prior year. This was primarily due to approximately 3 percentage point increase in cost of revenues as a percentage of revenue in the year ended December 31, 2009 compared to the prior year. Cost of revenues for North America increased by \$2.5 million to \$5.1 million for the year ended December 31, 2009 and was primarily due to a \$1.4 million increase in fees we paid related to user searches on *Fly.com*, an \$825,000 increase in depreciation and maintenance costs and a \$314,000 increase in payments made to third-party partners of the *Travelzoo Network*. Sales and marketing expenses increased to \$35.7 million for the year ended December 31, 2009 from \$31.9 million for the year ended December 31, 2008. This \$3.8 million decrease was primarily due to a \$2.0 million increase in marketing expenses for *Fly.com*, a \$1.3 million increase in advertising to acquire traffic to our Web sites, a \$1.3 million increase in salary and employee related expenses, and a \$1.1 million increase in advertising to acquire new subscribers for our e-mail products offset by a \$1.0 million decrease in brand marketing expense and a \$627,000 decrease in trade and other marketing expenses. General and administrative expenses for North America increased to \$17.9 million for the year ended December 31, 2009 from \$15.7 million in the prior year. This \$2.2 million increase was primarily due to a \$799,000 increase in salary and employee related expenses, a \$645,000 increase in depreciation and amortization expense, and a \$379,000 increase in professional services expenses.

In North America, revenues decreased 3% in the year ended December 31, 2008 compared to the year ended December 31, 2007 (see “Revenues” above). Income from operations for North America as a percentage of revenue in the year ended December 31, 2008 decreased by 10 percentage points compared to the prior year. This was primarily due to an 8 percentage point increase in general and administrative expenses as a percentage of revenue in the year ended December 31, 2008 compared to the prior year. General and administrative expenses for North America increased to \$15.7 million for the year ended December 31, 2008 compared to \$10.5 million in the prior year. This \$5.2 million increase was primarily due to a \$3.3 million increase in salary and employee related expenses, a \$1.3 million increase in rent and office expense, and a \$1.0 million increase in professional services expenses. Sales and marketing expenses decreased to \$31.9 million for the year ended December 31, 2008 from \$32.9 million for the year ended December 31, 2007. This \$1.0 million decrease was primarily due to a \$1.2 million decrease in brand marketing and a \$1.1 million decrease in advertising to acquire traffic to our Web sites offset by a \$1.2 million increase in salary expenses.

Europe

	Year Ended December 31,		
	2009	2008	2007
	(In thousands)		
Net revenues	\$16,339	\$ 9,623	\$ 5,856
Loss from operations	(5,463)	(7,809)	(5,172)
Loss from operations as % of revenues	33%	81%	88%

In Europe, revenues increased by \$6.7 million or 70% in the year ended December 31, 2009 compared to the year ended December 31, 2008 (see “Revenues” above). Our loss from operations in Europe was \$5.5 million in the year ended December 31, 2009 compared to \$7.8 million in the year ended December 31, 2008. The \$6.7 million increase in revenues was offset by a \$2.6 million increase in sales and marketing expenses and a \$1.5 million increase in general and administrative expenses. The \$2.6 million increase in sales and marketing expenses was due primarily to a \$1.5 million increase in advertising to acquire new subscribers for our e-mail products and a \$1.1 million increase in salary and employee related expenses offset by a \$437,000 decrease in advertising to acquire traffic to our Web sites. The \$1.5 million increase in general and administrative expenses was due primarily to a \$1.4 million increase in salary and employee related expenses. The strengthening of the U.S. dollar relative to the British Pound Sterling had a favorable impact on the loss from our operations in Europe. Had foreign exchange rates remained constant in these periods, the loss from our operations in Europe for the year ended December 31, 2009 would have been approximately \$177,000 higher.

In Europe, revenues increased by \$3.8 million or 64% in the year ended December 31, 2008 compared to the year ended December 31, 2007 (see “Revenues” above). Our loss from operations in Europe was \$7.8 million in the year ended December 31, 2008 compared to \$5.2 million in the year ended December 31, 2007. The \$3.8 million increase in revenues was offset by a \$3.7 million increase in sales and marketing expenses and a \$2.4 million increase in general and administrative expenses. The \$3.7 million increase in sales and marketing expenses was due primarily to a \$1.9 million increase in salary expense, a \$769,000 increase in advertising to acquire traffic to our Web sites, and a \$714,000 increase in advertising to acquire new subscribers for our e-mail products. The \$2.4 million increase in general and administrative expenses was due primarily to an \$873,000 increase in salary and employee related expenses, a \$444,000 increase in rent and office expenses, a \$375,000 increase in inter-company charges, and a \$302,000 increase in professional services expense.

Interest Income

For the years ended December 31, 2009 and 2008, interest income consisted primarily of interest earned on cash, cash equivalents and restricted cash. For the year ended December 31, 2007, interest income consisted primarily of interest earned on cash and cash equivalents. Our interest income decreased to \$49,000 for the year ended December 31, 2009 from \$284,000 for the year ended December 31, 2008 due primarily to lower interest rates. Our interest income decreased to \$284,000 for the year ended December 31, 2008 from \$1.3 million for the year ended December 31, 2007 due primarily to lower interest rates and less cash and cash equivalents.

Income Taxes

For the year ended December 31, 2009, we recorded an income tax expense from continuing operations of \$7.3 million. For the years ended December 31, 2008 and 2007, we recorded income tax expense from continuing operations of \$8.2 million and \$13.1 million, respectively. Our effective tax rates from continuing operations for 2009, 2008 and 2007 were 53%, 58% and 52%, respectively. For the years ended December 31, 2009 and December 31, 2008, we recorded reductions of \$39,000 and \$421,000 of income tax expense, respectively, related to the reversal of tax liabilities previously recorded for uncertain tax positions, respectively. Our income is generally taxed in the U.S. and our income tax provisions reflect federal and state statutory rates applicable to our levels of income, adjusted to take into account expenses that are treated as having no recognizable tax benefit. Our effective tax rate decreased in 2009 compared to 2008 due primarily to the decrease in losses from our Europe business segment which was treated as having no recognizable tax benefit. Our effective tax rate increased in 2008 compared

to 2007 due primarily to the increase in losses from our Europe business segment which was treated as having no recognizable tax benefit.

We expect that our effective tax rate in future periods may fluctuate depending on the total amount of expenses representing payments to former stockholders, losses or gains incurred by our operations in Canada and Europe, and corresponding U.S. tax credits, if any.

During the year ended December 31, 2008, the Company realized tax benefits of \$110,000 upon the exercise of stock options by Ralph Bartel. The tax benefit reduced the Company's income tax payable and increased additional paid-in capital by this amount.

In January 2009, the Internal Revenue Service issued a Notice of Proposed Adjustment contesting the Company's tax deductions in 2005 and 2006 related to the program under which the Company made cash payments to people who established that they were former stockholders of Travelzoo.com Corporation, and who failed to submit requests to convert shares into Travelzoo Inc. within the required time period. The Company does not agree with the Notice of Proposed Adjustment and started discussions with the Appeals Division of the IRS in February 2010. If the Company were to agree with the Notice of Proposed Adjustment, the result would be an additional payment of approximately \$590,000, plus interest. The Company believes it has adequately provided for this matter in the balance of our long-term tax liabilities and it is not expected to have a material impact on the Company's results of operations.

Discontinued Operations

On October 31, 2009, we completed the sale of our Asia Pacific operating segment to Azzurro Capital Inc. and its wholly-owned subsidiaries, Travelzoo (Asia) Limited and Travelzoo Japan K.K. The results of operations of the Asia Pacific operating segment have been classified as discontinued operations for all periods presented. We received \$2.1 million, net of cash provided, and have a net receivable from Travelzoo (Asia) Limited and Travelzoo Japan K.K. of \$1.1 million. We realized a gain of \$3.4 million related to the sale of the net assets of the Asia Pacific business segment to Azzurro Capital Inc. The resulting gain on the sale is reflected as an addition to additional paid-in capital as both the Company and Azzurro Capital Inc. are under the common control of Ralph Bartel. We recorded a tax benefit of \$4.4 million in discontinued operations for the tax benefit associated with the loss on investments in the Asia Pacific subsidiaries as a result of their dissolution.

Liquidity and Capital Resources

As of December 31, 2009 we had \$19.8 million in cash and cash equivalents. Cash and cash equivalents increased from \$14.2 million on December 31, 2008 primarily as a result of cash provided by operating activities and financing activities as explained below. We expect that cash on hand will be sufficient to provide for working capital needs for at least the next 12 months.

	<u>Year Ended December 31,</u>		
	<u>2009</u>	<u>2008</u>	<u>2007</u>
	(In thousands)		
Net cash provided by (used in) operating activities	\$ 5,125	\$(3,325)	\$ 9,894
Net cash used in investing activities	(3,752)	(4,742)	(663)
Net cash provided by (used in) financing activities	4,219	185	(19,822)
Effect of exchange rate changes on cash and cash equivalents	<u>5</u>	<u>(580)</u>	<u>(183)</u>
Net increase (decrease) in cash and cash equivalents	<u>\$ 5,597</u>	<u>\$(8,462)</u>	<u>\$(10,774)</u>

Cash provided by or used in operating activities is net income or net loss adjusted for certain non-cash items and changes in assets and liabilities. Net cash provided by operating activities during the year ended December 31, 2009 increased by \$8.5 million compared to the year ended December 31, 2008. The increase in cash provided by operating activities was due primarily to a decrease in cash used in our operations in Europe and a decrease in cash used in our operations in Asia Pacific during the first 10 months of fiscal year ended December 31, 2009. As the international expansion started to generate more revenue in year ended December 31, 2009, net cash used in

operating activities in Europe and Asia Pacific started to decrease compared to prior year. Net cash used in operating activities during the year ended December 31, 2008 increased by \$13.2 million compared to the year ended December 31, 2007. The increase in cash used in operating activities was due primarily to increases in cash used in our operations in Asia Pacific and Europe and a decrease in cash provided by our operations in North America.

Net cash used in investing activities was \$3.8 million for the year ended December 31, 2009 compared \$4.7 million for the year ended December 31, 2008. The \$1.0 million decrease in net cash used in investing activities was primarily due to a \$1.9 million decrease in purchases of property and equipment and an \$875,000 decrease in the purchase of restricted cash, offset by \$1.8 million of cash used to purchase the fly.com domain name. The \$1.9 million decrease in purchases of property and equipment was primarily due to decreases in capitalized internal-use software and Web site development costs associated with *Fly.com*. Net cash used in investing activities was \$4.7 million for the year ended December 31, 2008 compared to \$663,000 for the year ended December 31, 2007. The \$4.1 million increase in net cash used in investing activities was due primarily to a \$3.2 million increase in purchases of property and equipment during the year ended December 31, 2008 and \$875,000 used to purchase a certificate of deposit which is restricted because it serves as the collateral for a standby letter of credit for the security deposit of our corporate headquarters. The increase in purchases of property and equipment was due primarily to capitalized internal-use software and Web site development costs, leasehold improvements and office furniture purchased for new offices in North America, and computers and equipment purchased for a new data center.

Net cash provided by financing activities was \$4.2 million for the year ended December 31, 2009. Net cash provided by and used in financing activities was \$185,000 and \$19.8 million for the years ended December 31, 2008 and 2007, respectively. The net cash provided by financing activities in the year ended December 31, 2009 was from the cash received from the sale of our Asia Pacific business segment and the cash received from the exercise of stock options. The net cash provided by financing activities in the year ended December 31, 2008 was due to the exercise of stock options. The net cash used in the year ended December 31, 2007 was due to the repurchase of 1 million shares of common stock totaling \$19.8 million.

Our capital requirements depend on a number of factors, including market acceptance of our products and services, the amount of our resources we devote to development of new products, cash payments to former stockholders of Travelzoo.com Corporation, expansion of our operations, and the amount of our resources we devote to promoting awareness of the *Travelzoo* brand. Since the inception of the program under which we would make cash payments to people who establish that they were former stockholders of Travelzoo.com Corporation, and who failed to submit requests to convert shares into Travelzoo Inc. within the required time period, we have incurred expenses of \$2.7 million. While future payments for this program are expected to decrease, the total cost of this program is still undeterminable because it is dependent on our stock price and on the number of valid requests ultimately received. Consistent with our growth, we have experienced a substantial increase in our sales and marketing and general and administrative expenses, and we anticipate that these increases will continue for the foreseeable future. We believe cash on hand will be sufficient to pay such costs. In addition, we will continue to evaluate possible investments in businesses, products and technologies, the consummation of any of which would increase our capital requirements.

Although we currently believe that we have sufficient capital resources to meet our anticipated working capital and capital expenditure requirements for at least the next 12 months, unanticipated events or a less favorable than expected development of our business in Europe may require us to sell additional equity or debt securities or establish credit facilities to raise capital in order to meet our capital requirements.

If we sell additional equity or convertible debt securities, the sale could dilute the ownership of our existing stockholders. If we issue debt securities or establish a credit facility, our fixed obligations could increase, and we may be required to agree to operating covenants that would restrict our operations. We cannot be sure that any such financing will be available in amounts or on terms acceptable to us.

If the development of our business in Europe is less favorable than expected, we may decide to significantly reduce the size of our operations and marketing expenses in these markets with the objective of reducing cash outflow. In the year ended December 31, 2009, cash used in operating activities in Europe was \$3.2 million.

On October 31, 2009, the Company completed the sale of its Asia Pacific operating segment to Azzurro Capital Inc. pursuant to the terms of the Asset Purchase Agreements. The results of operations of the Asia Pacific operating segment have been classified as discontinued operations for all periods presented. The Company will not have significant ongoing involvement with the operations of the Asia Pacific operating segment and will not have any economic interests in the Asia Pacific operating segment after the sale is completed. For 10 months ended October 31, 2009, cash used in operating activities in Asia Pacific was \$3.4 million. Further information concerning the transaction is provided in the Company's reports on Form 8-K filed on October 5 and November 3, 2009 and in Note 11 to the accompanying consolidated financial statements.

The following summarizes our principal contractual commitments as of December 31, 2009 (in thousands):

	<u>2010</u>	<u>2011</u>	<u>2012</u>	<u>2013</u>	<u>2014</u>	<u>Total</u>
Operating lease obligations	\$3,894	\$2,923	\$2,033	\$1,924	\$161	\$10,935
Purchase obligations	<u>1,205</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>1,205</u>
Total commitments	<u>\$5,099</u>	<u>\$2,923</u>	<u>\$2,033</u>	<u>\$1,924</u>	<u>\$161</u>	<u>\$12,140</u>

We also have contingencies related to net unrecognized tax benefits of approximately \$2.0 million as of December 31, 2009, which we are unable to make reasonably reliable estimates on the timing of the cash settlements with the respective taxing authorities.

Growth Strategy

Our growth strategy has three main elements:

- *International expansion:* We want to grow our revenue and operating profit through replicating the *Travelzoo* business in attractive international markets in Europe and in North America. We want to develop a strong competitive position through building a strong global brand and unique global content.
- *Expand scope of Travelzoo business:* We want to grow our revenue and operating profit through expanding the *Travelzoo* product offerings and content into entertainment (e.g., Broadway shows, sporting events).
- *Fly.com:* We want to grow revenue and operating profits through building up *Fly.com*, our new meta-search engine for airfares. We have identified meta-search as an opportunity with attractive economics and great synergies with *Travelzoo*.

We launched the *Travelzoo* business in the U.K. in 2005, in Canada in 2006, in Germany in 2006, in France in 2007, and in Spain in 2008. We began developing and offering entertainment content and related advertising services in 2008. We launched *Fly.com* in February 2009.

Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board ("FASB") issued a new accounting standard which establishes a framework for measuring the fair value of assets and liabilities. This framework is intended to provide increased consistency in how fair value determinations are made under various existing accounting standards which permit, or in some cases require, estimates of fair market value. The new accounting standard became effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Effective January 1, 2009, we adopted a new FASB Staff Position ("FSP") which delayed the effective date of fair value measurement for all non-financial assets and non-financial liabilities, except those recognized or disclosed at fair value in the financial statements on a recurring basis, until the beginning of the first quarter of fiscal 2009. The adoption of the new FASB staff position did not have a material impact on our consolidated results of operations or financial condition.

Effective January 1, 2009, we adopted a new FASB Staff Position relating to determination of the useful life of intangible assets, which amends the factors an entity should consider in developing renewal or extension assumptions used in determining the useful life of recognized intangible assets. This guidance applies prospectively to intangible assets that are acquired individually or with a group of other assets in business combinations and asset acquisitions. Under this new FASB Staff Position, entities which estimate the useful life of a recognized intangible asset must consider their historical experience in renewing or extending similar arrangements or, in the absence of

historical experience, must consider assumptions that market participants would use about renewal or extension. The adoption of this standard did not have an impact on our consolidated results of operations or financial condition.

In April 2009, the FASB issued a new FASB staff position relating to interim disclosures about fair value of financial instruments, which require an entity to provide interim disclosures about the fair value of all financial instruments and to include disclosures related to the methods and significant assumptions used in estimating those instruments. This FSP was effective for interim and annual periods ending after June 15, 2009. The adoption of these pronouncements did not have a material impact on our consolidated results of operations or financial condition.

In May 2009, the FASB issued a new accounting standard relating to subsequent events, which is effective for interim and annual periods ending after June 15, 2009. This new accounting standard is intended to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. In particular, this new accounting standard sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements and the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements. Effective June 30, 2009, we adopted this new accounting standard. The adoption of this standard did not have a material impact on our consolidated results of operations or financial condition.

In June 2009, the FASB issued a new accounting standard that changes the consolidation model for variable interest entities, which is effective for interim and annual reporting periods beginning after November 15, 2009. Earlier adoption is prohibited. The new accounting standard requires a company to perform qualitative analysis when determining whether it must consolidate a variable interest entity and ongoing reassessments to determine if a company must consolidate a variable interest entity. The new accounting standard also requires a company to provide additional disclosures about its involvement with variable interest entities, any significant changes in risk exposure due to that involvement and how its involvement with a variable interest entity affects the company's financial statements. A company will also be required to disclose any significant judgments and assumptions made in determining whether it must consolidate a variable interest entity. We are currently assessing the future impact of this new accounting standard on our consolidated results of operations and financial condition.

In June 2009, the FASB issued ASU 2009-01, Generally Accepted Accounting Principles (ASU 2009-01). ASU 2009-01 established "The FASB Accounting Standards Codification," or Codification, which became the single source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities. On the effective date, the Codification superseded all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the Codification will become non-authoritative. ASU 2009-01 is effective for interim and annual periods ending after September 15, 2009. We adopted the provisions of ASU 2009-01 for the period ended September 30, 2009. There was no material impact on our consolidated results of operations, financial condition or cash flows.

In August 2009, the FASB issued ASU 2009-05, a new accounting standard update regarding the measurement of liabilities at fair value. This standard update provides techniques to use in measuring fair value of a liability in circumstances in which a quoted price in an active market for the identical liability is not available. This standard update is effective prospectively for all interim and annual reporting periods upon issuance. Effective August 2009, we adopted this new accounting standard update. The adoption of this new accounting standard update did not have a material impact on our consolidated results of operations or financial condition.

In October 2009, the FASB issued ASU 2009-13, a new accounting standard update for revenue recognition with multiple deliverables. The new accounting standard update defines when individual deliverables included in a multiple-element arrangement may be treated as separate units of accounting. The update primarily provides two significant changes: 1) eliminates the need for objective and reliable evidence of the fair value for the undelivered element in order for a delivered item to be treated as a separate unit of accounting, and 2) eliminates the residual method to allocate the arrangement consideration. In addition, the update also expands the disclosure requirements for revenue recognition. The new accounting standard update will be effective for us January 1, 2011, with early adoption permitted. We are currently assessing the future impact of this new accounting standard on our consolidated results of operations and financial condition.

In January 2010, the FASB issued ASU 2010-06, a new accounting standard which requires reporting entities to make new disclosures about recurring or nonrecurring fair-value measurements including significant transfers into and out of Level 1 and Level 2 fair value measurements and information on purchases, sales, issuances, and settlements on a gross basis in the reconciliation of Level 3 fair value measurements. The guidance is effective for annual reporting periods beginning after December 15, 2009, except for Level 3 reconciliation disclosures that are effective for annual periods beginning after December 15, 2010. We do not expect the adoption of this new accounting standard to have a material impact on our consolidated results of operations or financial condition.

Item 7A. *Quantitative and Qualitative Disclosures About Market Risk*

We believe that our potential exposure to changes in market interest rates is not material. The Company has no outstanding debt and is not a party to any derivatives transactions. We invest in highly liquid investments with short maturities. Accordingly, we do not expect any material loss from these investments.

Our operations in Canada expose us to foreign currency risk associated with agreements being denominated in Canadian Dollars. Our operations in Europe expose us to foreign currency risk associated with agreements being denominated in British Pound Sterling and Euros. We are exposed to foreign currency risk associated with fluctuations of these currencies as the financial position and operating results of our operations in Canada and Europe will be translated into U.S. Dollars for consolidation purposes. We do not use derivative instruments to hedge these exposures. We are a net receiver of U.S. Dollars from our foreign subsidiaries and therefore benefit from a weaker U.S. dollar and are adversely affected by a stronger U.S. dollar relative to the foreign currency used by the foreign subsidiary as their functional currency. We have performed a sensitivity analysis as of December 31, 2009, using a modeling technique that measures the change in the fair values arising from a hypothetical 10% adverse movement in the levels of applicable foreign currency exchange rates relative to the U.S. dollar with all other variables held constant. The foreign currency exchange rates we used were based on market rates in effect at December 31, 2009. The sensitivity analysis indicated that a hypothetical 10% adverse movement in such foreign currency exchange rates would have resulted in an incremental \$296,000 foreign exchange loss for the twelve month period ended December 31, 2009.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
Travelzoo Inc.:

We have audited the accompanying consolidated balance sheets of Travelzoo Inc. and subsidiaries (Travelzoo) as of December 31, 2009 and 2008, and the related consolidated statements of operations, stockholders' equity and comprehensive income (loss), and cash flows for each of the years in the three-year period ended December 31, 2009. We also have audited Travelzoo's internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Travelzoo's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying management's report. Our responsibility is to express an opinion on these consolidated financial statements and an opinion on Travelzoo's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the consolidated financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Travelzoo Inc. and subsidiaries as of December 31, 2009 and 2008, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2009, in conformity with U.S. generally accepted accounting principles. Also in our opinion, Travelzoo maintained, in all material respects, effective internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control — Integrated Framework* issued by COSO.

TRAVELZOO INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009, 2008, and 2007

(1) Summary of Significant Accounting Policies

(a) The Company and Basis of Presentation

Travelzoo Inc. (the “Company” or “Travelzoo”) is a global Internet media company. We inform over 18 million subscribers worldwide, as well as millions of Web site users, about the best travel and entertainment deals available from thousands of companies. We publish these offers by sourcing, researching, test-booking, and selecting offers professionally. We provide airlines, hotels, cruise lines, vacation packagers, and other travel and entertainment companies with a fast, flexible, and cost effective way to reach millions of consumers. Our revenues are generated from advertising fees. Our publications and products include the *Travelzoo* Web sites (www.travelzoo.com, www.travelzoo.ca, www.travelzoo.co.uk, www.travelzoo.de, www.travelzoo.com.es, www.travelzoo.fr, among others), the *Travelzoo Top 20* e-mail newsletter, the *Newsflash* e-mail alert service, the *SuperSearch* pay-per-click travel search tool, and the *Travelzoo Network*, a network of third-party Web sites that list deals published by Travelzoo. We also operate *Fly.com*, a travel search engine that allows users to quickly and easily find the best prices on flights from hundreds of airlines and online travel agencies.

Starting November 1, 2009, the *Travelzoo* Web sites in Asia Pacific (cn.travelzoo.com, www.travelzoo.co.jp, www.travelzoo.com.au, www.travelzoo.com.hk, www.travelzoo.com.tw, among others), the *Travelzoo Top 20* e-mail newsletters in Asia Pacific and the *Newsflash* e-mail alert service in Asia Pacific are published by Travelzoo (Asia) Limited and Travelzoo Japan K.K., wholly owned subsidiaries of Azzurro Capital Inc., under a license agreement with the Company.

Travelzoo is controlled by Ralph Bartel, who held beneficially approximately 66.3% of the outstanding shares as of February 26, 2010.

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. All foreign subsidiaries use the local currency of their respective countries as their functional currency. Assets and liabilities are translated at exchange rates prevailing at the balance sheet dates. Revenues, costs and expenses are translated into U.S. dollars at average exchange rates for the period.

Certain prior period amounts have been reclassified to conform to current year presentation. Specifically, \$1.1 million for the year ended December 31, 2007 has been reclassified from cost of revenues to general and administrative expense. These amounts are primarily costs associated with salary and benefits for software developers and professional services related to software development. Additionally, as described in Note 11, “Discontinued Operations”, the Company has classified the financial results of its Asia Pacific operating segment as discontinued operations for all periods presented due to the sale of the assets of its Asia Pacific subsidiaries, which constituted the Company’s Asia Pacific operating segment, to Travelzoo (Asia) Limited and Travelzoo Japan K.K., wholly-owned subsidiaries of Azzurro Capital Inc. The notes to the Company’s consolidated financial statements relate to continuing operations only, unless otherwise indicated.

The Company was formed as a result of a combination and merger of entities founded by the Company’s majority stockholder, Ralph Bartel. In 1998, Mr. Bartel founded Travelzoo.com Corporation, a Bahamas corporation, which issued 5,155,874 shares via the Internet to approximately 700,000 “Netsurfer stockholders” for no cash consideration. In 1998, Mr. Bartel also founded Silicon Channels Corporation, a California corporation, to operate the *Travelzoo* Web site. During 2001, Travelzoo Inc. was formed as a subsidiary of Travelzoo.com Corporation, and Mr. Bartel contributed all of the outstanding shares of Silicon Channels Corporation to Travelzoo Inc. in exchange for 8,129,273 shares of Travelzoo Inc. and options to acquire an additional 2,158,349 shares at \$1.00.

During January 2001, the Board of Directors of Travelzoo.com Corporation proposed that Travelzoo.com Corporation be merged with Travelzoo Inc. whereby Travelzoo Inc. would be the surviving entity. On March 15,

2002, the stockholders of Travelzoo.com Corporation approved the merger with Travelzoo Inc. On April 25, 2002, the certificate of merger was filed in Delaware upon which the merger became effective and Travelzoo.com Corporation ceased to exist. Each outstanding share of common stock of Travelzoo.com Corporation was converted into the right to receive one share of common stock of Travelzoo Inc. Under and subject to the terms of the merger agreement, stockholders were allowed period of two years following the effective date of the merger to receive shares of Travelzoo Inc. The records of Travelzoo.com Corporation showed that, assuming all of the shares applied for by the Netsurfer stockholders were validly issued, there were 11,295,874 shares of Travelzoo.com Corporation outstanding. As of April 25, 2004, two years following the effective date of the merger, 7,180,342 shares of Travelzoo.com Corporation had been exchanged for shares of Travelzoo Inc. Prior to that date, the remaining shares which were available for issuance pursuant to the merger agreement were included in the issued and outstanding common stock of Travelzoo Inc. and included in the calculation of basic and diluted earnings per share. After April 25, 2004, the Company ceased issuing shares to the former stockholders of Travelzoo.com Corporation, and no additional shares are reserved for issuance to any former stockholders, because their right to receive shares has now expired. On April 25, 2004, the number of shares reported as outstanding was reduced from 19,425,147 to 15,309,615 to reflect actual shares issued as of the expiration date. Earnings per share calculations reflect this reduction of the number of shares reported as outstanding. As of December 31, 2009, there were 16,443,828 shares of common stock outstanding.

It is possible that claims may be asserted against the Company in the future by former stockholders of Travelzoo.com Corporation seeking to receive shares in the Company, whether based on a claim that the two-year deadline for exchanging their shares was unenforceable or otherwise. In addition, one or more jurisdictions, including the Bahamas or the State of Delaware, may assert rights to unclaimed shares of the Company under escheat statutes. If such escheat claims are asserted, the Company intends to challenge the applicability of escheat rights, in that, among other reasons, the identity, residency and eligibility of the holders in question cannot be determined. There were certain conditions applicable to the issuance of shares to the Netsurfer stockholders, including requirements that (i) they be at least 18 years of age, (ii) they be residents of the U.S. or Canada and (iii) they not apply for shares more than once. The Netsurfer stockholders were required to confirm their compliance with these conditions, and were advised that failure to comply could result in cancellation of their shares in Travelzoo.com Corporation. Travelzoo.com Corporation was not able to verify that the applicants met the requirements referred to above at the time of their applications for issuance of shares. If claims are asserted by persons claiming to be former stockholders of Travelzoo.com Corporation, the Company intends to assert that their rights to receive their shares expired two years following the effective date of the merger, as provided in the merger agreement. The Company also expects to take the position, if escheat or similar claims are asserted in respect of the unissued shares in the future, that it is not required to issue such shares. Further, even if it were established that unissued shares were subject to escheat claims, the Company would assert that the claimant must establish that the original Netsurfer stockholders complied with the conditions to issuance of their shares. The Company is not able to predict the outcome of any future claims which might be asserted relating to the unissued shares. If such claims were asserted, and were fully successful, that could result in the Company's being required to issue up to an additional approximately 4,068,000 shares of common stock for no additional payment.

On October 15, 2004, the Company announced a program under which it would make cash payments to people who establish that they were former stockholders of Travelzoo.com Corporation, and who failed to submit requests to convert shares into Travelzoo Inc. within the required time period. The accompanying consolidated financial statements includes a charge in general and administrative expenses of \$7,000 for the year ended December 31, 2009. The total cost of this program is not reliably estimable because it is based on the ultimate number of valid requests received and future levels of the Company's common stock price. The Company's common stock price affects the liability because the amount of cash payments under the program is based in part on the recent level of the stock price at the date valid requests are received. The Company does not know how many of the requests for shares originally received by Travelzoo.com Corporation in 1998 were valid, but the Company believes that only a portion of such requests were valid. As noted above, in order to receive payment under the program, a person is required to establish that such person validly held shares in Travelzoo.com Corporation. Assuming 100% of the requests from 1998 were valid, former stockholders of Travelzoo.com Corporation holding approximately 4,068,000 shares had not submitted claims under the program.

(b) Revenue Recognition

All revenue consists of advertising sales. Advertising revenues are principally derived from the sale of advertising in North America and Europe on the *Travelzoo* Web site, in the *Travelzoo Top 20* e-mail newsletter, in *Newsflash*, from *SuperSearch*, from the *Travelzoo Network*, and from *Fly.com*.

The Company recognizes revenues in accordance with Securities and Exchange Commission Staff Accounting Bulletin for revenue recognition. Advertising revenues are recognized in the period in which the advertisement is displayed, provided that evidence of an arrangement exists, the fees are fixed or determinable and collection of the resulting receivable is reasonably assured. Where collectibility is not reasonably assured, the revenue will be recognized upon cash collection, provided that the other criteria for revenue recognition have been met. The Company recognizes revenue for fixed-fee advertising arrangements ratably over the term of the insertion order as described below. The majority of insertion orders have terms that begin and end in a quarterly reporting period. In the cases where at the end of a quarterly reporting period the term of an insertion order is not complete, the Company recognizes revenue for the period by pro-rating the total arrangement fee to revenue and deferred revenue based on a measure of proportionate performance of its obligation under the insertion order. The Company measures proportionate performance by the number of placements delivered and undelivered as of the reporting date. The Company uses prices stated on its internal rate card for measuring the value of delivered and undelivered placements. Fees for variable-fee advertising arrangements are recognized based on the number of impressions displayed, number of clicks delivered, or number of referrals generated during the period.

Under these policies, no revenue is recognized unless persuasive evidence of an arrangement exists, delivery has occurred, the fee is fixed or determinable, and collection is deemed reasonably assured. The Company evaluates each of these criteria as follows:

- *Evidence of an arrangement.* The Company considers an insertion order signed by the client or its agency to be evidence of an arrangement.
- *Delivery.* Delivery is considered to occur when the advertising has been displayed and, if applicable, the click-throughs have been delivered.
- *Fixed or determinable fee.* The Company considers the fee to be fixed or determinable if the fee is not subject to refund or adjustment and payment terms are standard.
- *Collection is deemed reasonably assured.* The Company conducts a credit review for all transactions at the time of the arrangement to determine the creditworthiness of the client. Collection is deemed reasonably assured if it is expected that the client will be able to pay amounts under the arrangement as payments become due. If it is determined that collection is not reasonably assured, then revenue is deferred and recognized upon cash collection. Collection is deemed not reasonably assured when a client is perceived to be in financial distress, which may be evidenced by weak industry condition, bankruptcy filing, or previously billed amounts that are past due.

Insertion orders that include fixed-fee advertising are invoiced upon acceptance of the insertion order and on the first day of each month over the term of the insertion order, with the exception of *Travelzoo Top 20* or *Newsflash* listings, which are invoiced upon delivery. Insertion orders that include variable-fee advertising are invoiced at the end of the month. The Company's standard terms state that in the event that *Travelzoo* fails to publish advertisements as specified in the insertion order, the liability of *Travelzoo* to the client shall be limited to, at *Travelzoo*'s sole discretion, a pro rata refund of the advertising fee, the placement of the advertisements at a later time in a comparable position, or the extension of the term of the insertion order until the advertising is fully delivered. The Company believes that no significant obligations exist after the full delivery of advertising.

Revenues from advertising sold to clients through agencies are reported at the net amount billed to the agency.

(c) Net Income (Loss) Per Share

Net income (loss) per share has been calculated in accordance with FASB accounting guidance for earnings per share. Basic net income (loss) per share is computed using the weighted-average number of common shares outstanding for the period. Diluted net income (loss) per share is computed by adjusting the weighted-average

number of common shares outstanding for the effect of potential common shares outstanding during the period. Potential common shares included in the diluted calculation consist of incremental shares issuable upon the exercise of outstanding stock options calculated using the treasury stock method.

The following table sets forth the calculation of basic and diluted net income (loss) per share (in thousands, except per share amounts):

	Year Ended December 31,		
	2009	2008	2007
Net income (loss):			
Net income from continuing operations, net of tax	\$ 6,418	\$ 5,913	\$12,108
Loss from discontinued operations, net of tax	<u>(1,233)</u>	<u>(10,029)</u>	<u>(2,999)</u>
Net income (loss)	<u>\$ 5,185</u>	<u>\$ (4,116)</u>	<u>\$ 9,109</u>
Weighted average common shares	16,408	14,273	14,847
Effect of dilutive securities — stock options	<u>8</u>	<u>1,917</u>	<u>1,227</u>
Diluted weighted average common shares	16,416	16,190	16,074
Basic net income (loss) per share from:			
Continuing operations	\$ 0.39	\$ 0.41	\$ 0.82
Discontinued operations	\$ (0.08)	\$ (0.70)	\$ (0.20)
Net income (loss)	\$ 0.32	\$ (0.29)	\$ 0.61
Diluted net income (loss) per share from:			
Continuing operations	\$ 0.39	\$ 0.37	\$ 0.75
Discontinued operations	\$ (0.08)	\$ (0.62)	\$ (0.19)
Net income (loss)	\$ 0.32	\$ (0.25)	\$ 0.57

There were options to purchase an additional 300,000 shares of common stock outstanding as of December 31, 2009, but because the exercise price of these options was higher than the closing stock price at December 31, 2009, they have been excluded from the computation of diluted net loss per share for the year ended December 31, 2009 as their effect was anti-dilutive. All options outstanding as of December 31, 2008 and 2007 were included in the computation of diluted net income (loss) per share for the years ended December 31, 2008 and 2007.

(d) Use of Estimates

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ materially from those estimates.

(e) Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Additions, improvements and major renewals are capitalized. Maintenance, repairs and minor renewals are expensed as incurred. The Company also includes in fixed assets the capitalized cost of internal-use software and Web site development, including software used to upgrade and enhance its Web site and processes supporting the Company's business in accordance with the framework established by the FASB accounting guidance for accounting for the cost of computer software developed or obtained for internal use and accounting for Web site development costs. Costs incurred in the planning stage and operating stage are expensed as incurred while costs incurred in the application development stage and infrastructure development stage are capitalized, assuming such costs are deemed to be recoverable.

Property and equipment consisted of the following (in thousands):

	<u>December 31,</u>	
	<u>2009</u>	<u>2008</u>
Computer hardware and software	\$ 2,374	\$ 1,794
Office equipment and office furniture	2,229	1,637
Capitalized internal-use software and Web site development	1,319	1,265
Leasehold improvements	<u>781</u>	<u>701</u>
	6,703	5,397
Less accumulated depreciation	<u>(2,614)</u>	<u>(1,297)</u>
Total	<u>\$ 4,089</u>	<u>\$ 4,100</u>

Depreciation is provided using the straight-line method over the estimated useful lives of the assets. Estimated useful lives are 3 to 5 years for computer hardware and software, capitalized internal-use software and Web site development costs, and office equipment and office furniture. The Company depreciates leasehold improvements over the term of the lease or the estimated useful life of the asset, whichever is shorter.

Depreciation expense was \$1.5 million, \$601,000, and \$172,000 for the years ended December 31, 2009, 2008 and 2007, respectively.

As of December 31, 2009 and 2008, our capitalized internal-use software and Web site development costs, net of accumulated amortization, were \$905,000 and \$1.3 million, respectively. For the years ended December 31, 2009, 2008 and 2007, we recorded amortization of capitalized internal-use software and Web site development costs of \$409,000, \$6,000 and \$-0-, respectively.

(f) Intangible Assets

Intangible assets consist of the following (in thousands):

	<u>December 31,</u>	
	<u>2009</u>	<u>2008</u>
Acquired amortized intangible assets:		
Internet domain names	\$2,117	\$381
Less accumulated amortization	<u>706</u>	<u>363</u>
Total	<u>\$1,411</u>	<u>\$ 18</u>

Intangible assets have a useful life of 5 years. Amortization expense was \$357,000, \$13,000 and \$12,000 for the years ended December 31, 2009, 2008 and 2007, respectively.

In January 2009, the Company purchased the fly.com domain name for \$1.8 million.

Future amortization expense related to intangible assets at December 31, 2009 is as follows (in thousands):

Year ended December 31,	
2010	\$ 354
2011	354
2012	352
2013	<u>351</u>
	<u>\$1,411</u>

The expected amortization expense is an estimate. Actual amounts of amortization expense may differ from estimated amounts due to additional intangible asset acquisitions, impairment of intangible assets, accelerated amortization of intangible assets and other events.

(g) Cash and Cash Equivalents

Cash equivalents consist of highly liquid investments with remaining maturities of less than three months on the date of purchase.

(h) Advertising Costs

Advertising production costs are expensed as incurred. Online advertising is expensed as incurred over the period the advertising is displayed. Advertising costs amounted to \$30.4 million, \$25.8 million and \$27.3 million for the years ended December 31, 2009, 2008, and 2007, respectively. In the years ended December 31, 2009, 2008 and 2007, approximately \$4.3 million, \$2.4 million, and \$410,000, respectively, of advertising services was purchased from the Company's clients under non-barter agreements and recorded in sales and marketing expense.

(i) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets are recognized for deductible temporary differences, along with net operating loss carryforwards and credit carryforwards, if it is more likely than not that the tax benefits will be realized. To the extent a deferred tax asset cannot be recognized under the preceding criteria, valuation allowances must be established. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

(j) Comprehensive Income (Loss)

Comprehensive income (loss) consists of two components, net income (loss) and other comprehensive income (loss). Other comprehensive income (loss) refers to gains and losses that under generally accepted accounting principles are recorded as an element of stockholders' equity but are excluded from net income (loss). The Company's other comprehensive income (loss) is comprised of foreign currency translation adjustments.

The following are components of comprehensive income (loss) (in thousands):

	<u>Year Ended December 31,</u>		
	<u>2009</u>	<u>2008</u>	<u>2007</u>
Net income (loss)	\$5,185	\$(4,116)	\$9,109
Other comprehensive income (loss):			
Foreign currency translation adjustments	<u>215</u>	<u>(1,208)</u>	<u>(202)</u>
Total comprehensive income (loss)	<u>\$5,400</u>	<u>\$(5,324)</u>	<u>\$8,907</u>

Accumulated other comprehensive loss, as reflected in the consolidated balance sheets, consists of cumulative foreign currency translation adjustments.

(k) Impairment of Long-Lived Assets

The Company accounts for long-lived assets in accordance with the provisions of the FASB accounting standard relating to impairment of Long-Lived Assets, which requires an impairment loss to be recognized on assets to be held and used if the carrying amount of a long-lived asset group is not recoverable from its undiscounted cash flows. The amount of the impairment loss is measured as the difference between the carrying amount and the fair value of the asset group. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. The Company evaluates long-lived assets for impairment whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable. No impairment loss was recognized during the year ended December 31, 2009.

(l) Stock-Based Compensation

The Company accounts for its employee stock options under the fair value method, which requires stock-based compensation to be estimated using the fair value on the date of grant using an option-pricing model. The value of the portion of the award that is expected to vest is recognized as expense over the related employees' requisite service periods in the Company's Condensed Consolidated Statements of Income.

The Company recorded \$94,000 stock-based compensation expense for fiscal year 2009 and did not record any stock-based compensation expense in fiscal years 2008 or 2007. See Note 7 for a further discussion on stock-based compensation.

(m) Foreign Currency

All foreign subsidiaries use the local currency of their respective countries as their functional currency. Assets and liabilities are translated into U.S. dollars at exchange rates prevailing at the balance sheet dates. Revenues, costs and expenses are translated into U.S. dollars at average exchange rates for the period. Gains and losses resulting from translation are recorded as a component of accumulated other comprehensive income (loss).

Realized gains and losses from foreign currency transactions are recognized as gain or loss on foreign currency in the consolidated statements of operations.

(n) Certain Risks and Uncertainties

The Company's cash, cash equivalents and accounts receivable are potentially subject to concentration of credit risk. Cash and cash equivalents are placed with financial institutions that management believes are of high credit quality. The accounts receivable are derived from revenue earned from customers located in the U.S. and internationally. None of the Company's customers accounted for 10% or more of gross receivable at December 31, 2009. One of the Company's customers accounted for 16% of gross accounts receivable at December 31, 2008.

The Company maintains an allowance for doubtful accounts based upon its historical experience, the age of the receivable and customer specific information. Determining appropriate allowances for these losses is an inherently uncertain process, and ultimate losses may vary from the current estimates. The allowance for doubtful accounts was \$501,000 and \$357,000 at December 31, 2009 and 2008, respectively.

(o) Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board ("FASB") issued a new accounting standard which establishes a framework for measuring the fair value of assets and liabilities. This framework is intended to provide increased consistency in how fair value determinations are made under various existing accounting standards which permit, or in some cases require, estimates of fair market value. The new accounting standard became effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Effective January 1, 2009, the Company adopted a new FASB Staff Position ("FSP") which delayed the effective date of fair value measurement for all non-financial assets and non-financial liabilities, except those recognized or disclosed at fair value in the financial statements on a recurring basis, until the beginning of the first quarter of fiscal 2009. The adoption of the new FASB staff position did not have a material impact on the Company's consolidated results of operations or financial condition.

Effective January 1, 2009, the Company adopted a new FASB Staff Position relating to determination of the useful life of intangible assets, which amends the factors an entity should consider in developing renewal or extension assumptions used in determining the useful life of recognized intangible assets. This guidance applies prospectively to intangible assets that are acquired individually or with a group of other assets in business combinations and asset acquisitions. Under this new FASB Staff Position, entities which estimate the useful life of a recognized intangible asset must consider their historical experience in renewing or extending similar arrangements or, in the absence of historical experience, must consider assumptions that market participants would use about renewal or extension. The adoption of this standard did not have an impact on the Company's consolidated results of operations or financial condition.

In April 2009, the FASB issued a new FASB staff position relating to interim disclosures about fair value of financial instruments, which require an entity to provide interim disclosures about the fair value of all financial instruments and to include disclosures related to the methods and significant assumptions used in estimating those instruments. This FSP was effective for interim and annual periods ending after June 15, 2009. The adoption of these pronouncements did not have a material impact on the Company's consolidated results of operations or financial condition.

In May 2009, the FASB issued a new accounting standard relating to subsequent events, which is effective for interim and annual periods ending after June 15, 2009. This new accounting standard is intended to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. In particular, this new accounting standard sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements and the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements. Effective June 30, 2009, the Company adopted this new accounting standard. The adoption of this standard did not have a material impact on the Company's consolidated results of operations or financial condition.

In June 2009, the FASB issued a new accounting standard that changes the consolidation model for variable interest entities, which is effective for interim and annual reporting periods beginning after November 15, 2009. Earlier adoption is prohibited. The new accounting standard requires a company to perform qualitative analysis when determining whether it must consolidate a variable interest entity and ongoing reassessments to determine if a company must consolidate a variable interest entity. The new accounting standard also requires a company to provide additional disclosures about its involvement with variable interest entities, any significant changes in risk exposure due to that involvement and how its involvement with a variable interest entity affects the company's financial statements. A company will also be required to disclose any significant judgments and assumptions made in determining whether it must consolidate a variable interest entity. The Company is currently assessing the future impact of this new accounting standard on its consolidated results of operations and financial condition.

In June 2009, the FASB issued ASU 2009-01, Generally Accepted Accounting Principles (ASU 2009-01). ASU 2009-01 established "The FASB Accounting Standards Codification," or Codification, which became the single source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities. On the effective date, the Codification superseded all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the Codification will become non-authoritative. ASU 2009-01 is effective for interim and annual periods ending after September 15, 2009. The Company adopted the provisions of ASU 2009-01 for the period ended September 30, 2009. There was no material impact on the Company's consolidated results of operations, financial condition or cash flows.

In August, 2009, the FASB issued ASU 2009-05, a new accounting standard update regarding the measurement of liabilities at fair value. This standard update provides techniques to use in measuring fair value of a liability in circumstances in which a quoted price in an active market for the identical liability is not available. This standard update is effective prospectively for all interim and annual reporting periods upon issuance. Effective August 2009, the Company adopted this new accounting standard update. The adoption of this new accounting standard update did not have a material impact on the Company's consolidated results of operations or financial condition.

In October 2009, the FASB issued ASU 2009-13, a new accounting standard update for revenue recognition with multiple deliverables. The new accounting standard update defines when individual deliverables included in a multiple-element arrangement may be treated as separate units of accounting. The update primarily provides two significant changes: 1) eliminates the need for objective and reliable evidence of the fair value for the undelivered element in order for a delivered item to be treated as a separate unit of accounting, and 2) eliminates the residual method to allocate the arrangement consideration. In addition, the update also expands the disclosure requirements for revenue recognition. The new accounting standard update will be effective for the Company January 1, 2011, with early adoption permitted. The Company is currently assessing the future impact of this new accounting standard on its consolidated results of operations and financial condition.

In January 2010, the FASB issued ASU 2010-06, a new accounting standard which requires reporting entities to make new disclosures about recurring or nonrecurring fair-value measurements including significant transfers

into and out of Level 1 and Level 2 fair value measurements and information on purchases, sales, issuances, and settlements on a gross basis in the reconciliation of Level 3 fair value measurements. The guidance is effective for annual reporting periods beginning after December 15, 2009, except for Level 3 reconciliation disclosures that are effective for annual periods beginning after December 15, 2010. The adoption of this new accounting standard update did not have a material impact on the Company's consolidated results of operations or financial condition.

(2) Financial Instruments

At December 31, 2009, restricted cash consisted of a certificate of deposit for \$875,000 serving as collateral for a standby letter of credit for the security deposit of our corporate headquarters. Cash equivalents consist of highly liquid investments with remaining maturities of three months or less on the date of purchase held in money market funds. The Company believes that the carrying amounts of these financial assets are a reasonable estimate of their fair value. The fair value of these financial assets was determined using the following inputs at December 31, 2009 (in thousands):

	Fair Value Measurements at Reporting Date Using			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Money market funds	\$16,673	\$16,673	\$—	\$—
Total	\$16,673	\$16,673	\$—	\$—

(3) Commitments and Contingencies

The Company leases office space in Canada, France, Germany, Spain, the U.K., and the U.S. under operating lease agreements which expire between February 28, 2010 and January 31, 2014. Rent expense was \$3.8 million, \$3.7 million and \$2.4 million for the years ended December 31, 2009, 2008, and 2007, respectively. We are committed to pay a portion of the related operating expenses under certain of these lease agreements. These operating expenses are not included in the table below. Certain of these lease agreements have free or escalating rent payment provisions. We recognize rent expense under such arrangements on a straight line basis. The future minimum rental payments under these operating leases as of December 31, 2009 were as follows (in thousands):

	2010	2011	2012	2013	2014	Total
Minimum rental payments	\$3,894	\$2,923	\$2,033	\$1,924	\$161	\$10,935

It is possible that claims may be asserted against the Company in the future by former stockholders of Travelzoo.com Corporation seeking to receive shares in the Company, whether based on a claim that the two-year deadline for exchanging their shares was unenforceable or otherwise. In addition, one or more jurisdictions, including the Bahamas or the State of Delaware, may assert rights to unclaimed shares of the Company under escheat statutes. If such escheat claims are asserted, the Company intends to challenge the applicability of escheat rights, in that, among other reasons, the identity, residency and eligibility of the holders in question cannot be determined. There were certain conditions applicable to the issuance of shares to the Netsurfer stockholders, including requirements that (i) they be at least 18 years of age, (ii) they be residents of the U.S. or Canada and (iii) they not apply for shares more than once. The Netsurfer stockholders were required to confirm their compliance with these conditions, and were advised that failure to comply could result in cancellation of their shares in Travelzoo.com Corporation. Travelzoo.com Corporation was not able to verify that the applicants met the requirements referred to above at the time of their applications for issuance of shares. If claims are asserted by persons claiming to be former stockholders of Travelzoo.com Corporation, the Company intends to assert that their rights to receive their shares expired two years following the effective date of the merger, as provided in the merger agreement. The Company also expects to take the position, if escheat or similar claims are asserted in respect of the unissued shares in the future, that it is not required to issue such shares. Further, even if it were established that unissued shares were subject to escheat claims, the Company would assert that the claimant must establish that the

original Netsurfer stockholders complied with the conditions to issuance of their shares. The Company is not able to predict the outcome of any future claims which might be asserted relating to the unissued shares. If such claims were asserted, and were fully successful, that could result in the Company's being required to issue up to an additional approximately 4,068,000 shares of common stock for no additional payment.

On October 15, 2004, the Company announced a program under which it would make cash payments to people who establish that they were former stockholders of Travelzoo.com Corporation, and who failed to submit requests to convert shares into Travelzoo Inc. within the required time period. The accompanying consolidated financial statements include a charge in general and administrative expenses of \$7,000 for the year ended December 31, 2009. The total cost of this program is not reliably estimable because it is based on the ultimate number of valid requests received and future levels of the Company's common stock price. The Company's common stock price affects the liability because the amount of cash payments under the program is based in part on the recent level of the stock price at the date valid requests are received. The Company does not know how many of the requests for shares originally received by Travelzoo.com Corporation in 1998 were valid, but the Company believes that only a portion of such requests were valid. As noted above, in order to receive payment under the program, a person is required to establish that such person validly held shares in Travelzoo.com Corporation. Assuming 100% of the requests from 1998 were valid, former stockholders of Travelzoo.com Corporation holding approximately 4,068,000 shares had not submitted claims under the program.

(4) Other Balance Sheet Items

The details of changes to the allowance for doubtful accounts are as follows (in thousands):

Balance at December 31, 2006.	\$ 726
Additions — charged to costs and expenses, net	(48)
Deductions — write-offs.	<u>(388)</u>
Balance at December 31, 2007.	290

Other accrued expenses	<u>182</u>	<u>145</u>
Total accrued expenses	<u>\$4,278</u>	<u>\$3,913</u>

(5) Income Taxes

The components of income (loss) from continuing operations before income tax expense for the years ended December 31, 2009, 2008 and 2007 were as follows (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
U.S.	\$17,879	\$21,762	\$30,891
Foreign	<u>(4,188)</u>	<u>(7,672)</u>	<u>(5,730)</u>
	<u>\$13,691</u>	<u>\$14,090</u>	<u>\$25,161</u>

Income tax expense (benefit) from continuing operations for the years ended December 31, 2009, 2008, and 2007 consisted of the following current and deferred components categorized by federal and state jurisdictions. The current provision is generally that portion of income tax expense that is currently payable to the taxing authorities. The Company makes estimated payments of these amounts during the year. The deferred tax provision results from changes in the Company's deferred tax assets (future deductible amounts) and tax liabilities (future taxable amounts), which are presented in the last table of this footnote.

	<u>Current</u>	<u>Deferred</u>	<u>Total</u>
	(In thousands)		
2009:			
Federal	\$ 5,872	\$(144)	\$ 5,728
State	<u>1,638</u>	<u>(93)</u>	<u>1,545</u>
	<u>\$ 7,510</u>	<u>\$(237)</u>	<u>\$ 7,273</u>
2008:			
Federal	\$ 6,020	\$ 796	\$ 6,816
State	<u>1,388</u>	<u>(27)</u>	<u>1,361</u>
	<u>\$ 7,408</u>	<u>\$ 769</u>	<u>\$ 8,177</u>
2007:			
Federal	\$ 9,368	\$ 483	\$ 9,851
State	<u>3,101</u>	<u>101</u>	<u>3,202</u>
	<u>\$12,469</u>	<u>\$ 584</u>	<u>\$13,053</u>

During 2008, an income tax benefit of \$110,000 was recorded in stockholders' equity for the tax benefit of stock option exercises.

Income tax expense from continuing operations for the years ended December 31, 2009, 2008 and 2007 differed from the amounts computed by applying the U.S. federal statutory tax rate applicable to the Company's level of pretax income as a result of the following (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Federal tax at statutory rates	\$4,792	\$1,368	\$ 7,739
State taxes, net of federal income tax benefit	1,004	885	2,079
Foreign losses not benefited.	1,434	6,166	3,073
Non-deductible expenses and other	<u>43</u>	<u>(242)</u>	<u>162</u>
Total income tax expense	<u>\$7,273</u>	<u>\$8,177</u>	<u>\$13,053</u>

Operating losses incurred in the foreign subsidiaries were treated as having no recognizable tax benefit.

The tax effects of temporary differences that give rise to significant portions of the Company's deferred tax assets and liabilities as of December 31, 2009 and 2008, are as follows (in thousands):

	<u>2009</u>	<u>2008</u>
Deferred tax assets:		
Foreign net operating loss carryforwards	\$ 5,799	\$ 7,793
Capital loss	1,820	—
Accruals and allowances.	352	180
Deferred rent	320	342
Deferred revenue	245	166
State income taxes	<u>102</u>	<u>401</u>
Total deferred tax assets	8,638	8,882
Valuation allowance	<u>(7,620)</u>	<u>(7,793)</u>
Total deferred tax assets net of valuation allowance	<u>1,018</u>	<u>1,089</u>
Deferred tax liabilities:		
Property, equipment and intangible assets	<u>(533)</u>	<u>(465)</u>
Total deferred tax liabilities.	<u>(533)</u>	<u>(465)</u>
Net deferred tax assets	<u>\$ 485</u>	<u>\$ 624</u>

The Company has a valuation allowance of approximately \$5.8 million as of December 31, 2009 related to foreign net operating loss carryforwards of approximately \$20.7 million for which it is more likely than not that the tax benefit will not be realized. If not utilized, the foreign net operating loss carryforwards begin to expire in 2014. The Company also has a valuation allowance of \$1.8 million as of December 31, 2009 related to the capital loss carryforward of \$1.8 million for which it is more likely than not that the tax benefit will not be realized. If not utilized, the capital loss carryforward will expire December 31, 2014. The total amount of the valuation allowance represented a decrease of approximately \$173,000 from the amount recorded as of December 31, 2008 and was primarily due to a decrease in the allowance against the foreign net operating loss carryforward related to Asia Pacific offset by an increase in allowance against the operating loss from Europe and a valuation allowance recorded against the \$1.8 million capital loss in 2009.

On January 1, 2007, the Company adopted the FASB standard for accounting for uncertainty in income taxes, which clarifies the accounting for uncertainty in income tax positions. There was no effect to the financial statements upon implementation of this FASB accounting standard. To the extent accrued interest and penalties do not ultimately become payable, amounts accrued will be reduced and reflected as a reduction in the overall income tax provision in the period that such determination is made. At December 31, 2009, the Company had approximately \$2.0 million in total unrecognized tax benefits and approximately \$136,000 in accrued interest. The Company has not accrued any penalties related to uncertain tax positions as the Company believes that it is more

likely than not that there will not be any assessment of penalties. A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (in thousands):

Unrecognized tax benefits balance at January 1, 2007	\$1,107
Increase related to prior year tax positions	38
Decrease related to prior year tax positions	—
Increase related to current year tax positions	—
Settlements	—
Lapse of statute of limitations	<u>—</u>
Unrecognized tax benefits balance at December 31, 2007	1,145
Increase related to prior year tax positions	6
Decrease related to prior year tax positions	—
Increase related to current year tax positions	—
Settlements	—
Lapse of statute of limitations	<u>(363)</u>
Unrecognized tax benefits balance at December 31, 2008	788
Increase related to prior year tax positions	44
Decrease related to prior year tax positions	—
Increase related to current year tax positions	1,210
Settlements	—
Lapse of statute of limitations	<u>(39)</u>
Unrecognized tax benefits balance at December 31, 2009	<u>\$2,003</u>

At December 31, 2009, unrecognized tax benefits of approximately \$793,000, if recognized, would favorably affect the Company's effective income tax rate. Unrecognized tax benefits of approximately \$1.2 million, if recognized, would be recorded in discontinued operations.

The Company files income tax returns in the U.S. federal jurisdiction and various states and foreign jurisdictions. The Company is no longer subject to U.S. federal and certain state tax examinations for years before 2005 and is no longer subject to California tax examinations for years before 2004. The Company is currently under examination by the Internal Revenue Service ("IRS") for the 2005 and 2006 tax years. In January 2009, the IRS issued a Notice of Proposed Adjustment contesting the Company's tax deductions in 2005 and 2006 related to the program under which the Company made cash payments to people who established that they were former stockholders of Travelzoo.com Corporation, and who failed to submit requests to convert shares into Travelzoo Inc. within the required time period. The Company does not agree with the Notice of Proposed Adjustment and started discussions with the Appeals Division of the IRS in February 2010. If the Company were to agree with the Notice of Proposed Adjustment, the result would be an additional payment of approximately \$590,000, plus interest. The Company believes it has adequately provided for this matter and it is not expected to have a material impact on the Company's results of operations.

(6) Stockholders' Equity

As of December 31, 2009, the authorized capital stock of Travelzoo Inc. was comprised of 40,000,000 shares of \$.01 par value common stock and 5,000,000 shares of \$.01 par value preferred stock. As of December 31, 2009, there were 16,443,828 shares outstanding of common stock and no shares of preferred stock issued or outstanding. During January 2001, the Board of Directors of Travelzoo.com Corporation proposed that Travelzoo.com Corporation be merged with Travelzoo Inc. whereby Travelzoo Inc. would be the surviving entity. On March 15, 2002, the stockholders of Travelzoo.com Corporation approved the merger with Travelzoo Inc. On April 25, 2002, the certificate of merger was filed in Delaware upon which the merger became effective and Travelzoo.com Corporation ceased to exist. Each outstanding share of common stock of Travelzoo.com Corporation was converted into the right to receive one share of common stock of Travelzoo Inc. Under and subject to the terms of the merger

agreement, stockholders were allowed a period of two years following the effective date of the merger to receive shares of Travelzoo Inc. The records of Travelzoo.com Corporation showed that, assuming all of the shares applied for by the Netsurfer stockholders were validly issued, there were 11,295,874 shares of Travelzoo.com Corporation outstanding. As of April 25, 2004, two years following the effective date of the merger, 7,180,342 shares of Travelzoo.com Corporation had been exchanged for shares of Travelzoo Inc. Prior to that date, the remaining shares which were available for issuance pursuant to the merger agreement were included in the issued and outstanding common stock of Travelzoo Inc. and included in the calculation of basic and diluted earnings per share. After April 25, 2004, the Company ceased issuing shares to the former stockholders of Travelzoo.com Corporation, and no additional shares are reserved for issuance to any former stockholders, because their right to receive shares has now expired. On April 25, 2004, the number of shares reported as outstanding was reduced from 19,425,147 to 15,309,615 to reflect actual shares issued as of the expiration date.

In April 2007, Travelzoo announced a share repurchase program authorizing the repurchase of up to 1.0 million shares of common stock in the open market or in private transactions. During the year ended December 31, 2007, the Company purchased and retired 1.0 million shares of common stock for aggregate consideration of \$19.8 million and completed the share repurchase under this program.

(7) Stock-based Compensation and Stock Options

The Company accounts for its employee stock options under the fair value method, which requires stock-based compensation to be estimated using the fair value on the date of grant using an option-pricing model. The value of the portion of the award that is expected to vest is recognized as expense over the related employees' requisite service periods in the Company's Condensed Consolidated Statements of Income. Cash flows resulting from tax deductions in excess of the compensation cost recognized for those options (excess tax benefits) are classified as financing cash flows. For fiscal year 2008, the Company recorded \$110,000 of excess tax benefit.

In October 2001, the Company granted to each director fully vested and exercisable options to purchase 30,000 shares of common stock with an exercise price of \$2.00 per share for their services as a director in 2000 and 2001. A total of 210,000 options were granted. The options expire in October 2011. 150,000 options, 17,275 options and 30,000 options were exercised during the years ended December 31, 2004, 2005 and 2008, respectively. As of December 31, 2009, 12,725 options are vested and remain outstanding.

In March 2002, Travelzoo Inc. granted to each director options to purchase 5,000 shares of common stock with an exercise price of \$3.00 per share that vested in connection with their services as a director in 2002. A total of 35,000 options were granted. In October 2002, 1,411 options were cancelled upon the resignation of a director. The options expire in March 2012. 23,589 of these options and 5,000 of these options were exercised during the year ended December 31, 2004 and 2008, respectively. As of December 31, 2009, 5,000 options are vested and remain outstanding.

In January 2009, 2,158,349 options were exercised at \$1.00 per share. As described in Note 1, these options were granted in 2001 as part of the combination and merger of entities founded by the Company's majority stockholder, Ralph Bartel.

In November 2009, the Company granted to one of its employees options to purchase 300,000 shares of common stock with an exercise price of \$14.97. 75,000 options vest and become exercisable annually starting in July 1, 2011. The options expire in November 2019. As of December 31, 2009, none of the options are vested and 300,000 options are outstanding. Total stock-based compensation for fiscal year 2009 was \$94,000. The Company did not provide any stock-based compensation in fiscal years 2007 or 2008.

The Company utilized the Black-Scholes option pricing model to value the stock options granted in 2009. The Company does not have enough historical exercise data to estimate the expected life of the options and therefore used an expected life of 6.25 years, as defined under the simplified method. The risk-free interest rate used for the award is based on the U.S. Treasury yield curve in effect at the time of grant. The Company used a forfeiture rate of 0% as the Company does not have enough historical forfeiture data to estimate the forfeiture rate.

The fair value of stock options was estimated using the Black-Scholes option pricing model with the following weighted-average assumptions:

	<u>2009</u>
Weighted-average fair value of options granted per share	\$11.56
Implied volatility	93%
Risk-free interest rate	2.56%
Dividend yield	—
Expected life in years	6.25

As of December 31, 2009, there was approximately \$3.4 million of unrecognized stock-based compensation expense related to outstanding stock options. This amount is expected to be recognized over 4.5 years. To the extent the actual forfeiture rate is different from what we have anticipated, stock-based compensation related to these options will be different from our expectations.

Option activity as of December 31, 2009 and changes during the fiscal year ended December 31, 2007, 2008, and 2009 were as follows:

	<u>Shares</u>	<u>Weighted-Average Exercise Price</u>	<u>Weighted-Average Remaining Contractual Life</u>	<u>Aggregate Intrinsic Value (in thousands)</u>
Outstanding at January 1, 2007	<u>2,211,074</u>	\$ 1.03		
Outstanding at December 31, 2007	2,211,074	\$ 1.03	3.11 years	\$27,974
Exercised	<u>(35,000)</u>	\$ 2.14		
Outstanding at December 31, 2008	2,176,074	\$ 1.01	2.09 years	\$ 9,900
Options granted	300,000	\$14.97		
Exercised	<u>(2,158,349)</u>	\$ 1.00		
Outstanding at December 31, 2009	<u><u>317,725</u></u>	\$14.26	9.44 years	\$ 177
Exercisable and fully vested at December 31, 2009	17,725	\$ 2.28	1.95 years	\$ 177

The aggregate intrinsic value in the table above represents the total pretax intrinsic value (the difference between the Company's closing stock price on the last trading day of fiscal year 2007, 2008, and 2009 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on December 31, 2007, 2008, and 2009. This amount changes based on the fair market value of the Company's stock. The Company's policy is to issue shares from the authorized shares to fulfill stock option exercises.

The total intrinsic value of options exercised in the year ended December 31, 2009 was \$9.1 million and the total intrinsic value of options exercised in the year ended December 31, 2008 was \$267,000.

Outstanding options at December 31, 2009 were as follows:

<u>Exercise Price</u>	<u>Shares Outstanding and Exercisable</u>	<u>Weighted-Average Remaining Contractual Life</u>	<u>Weighted-Average Exercise Price</u>
\$2.00	12,725	1.83 years	\$ 2.00
\$3.00	5,000	2.25 years	\$ 3.00
\$14.97	<u>300,000</u>	9.89 years	\$14.97
	<u><u>317,725</u></u>	9.44 years	\$14.26

(8) Segment Reporting and Significant Customer Information

The Company manages its business geographically and has two operating segments: North America and Europe. North America consists of the Company's operations in Canada and the U.S. Europe consists of the Company's operations in France, Germany, Spain, and the U.K. The Company began operations in Europe in May 2005.

Management relies on an internal management reporting process that provides revenue and segment operating income (loss) for making financial decisions and allocating resources. Management believes that segment revenues and operating income (loss) are appropriate measures of evaluating the operational performance of the Company's segments.

The following is a summary of operating results and assets (in thousands) by business segment:

<u>Year Ended December 31, 2009:</u>	<u>North America</u>	<u>Europe</u>	<u>Elimination</u>	<u>Consolidated</u>	
Revenues from unaffiliated customers	\$77,707	\$16,266	\$ —	\$93,973

* Less than 10%

The agreements with these customers are in the form of multiple insertion orders from groups of entities under common control, in either the Company's standard form or in the customer's form.

(9) Employee Benefit Plan

The Company maintains a 401(k) Profit Sharing Plan & Trust (the "401(k) Plan") for its employees in the United States. The 401(k) Plan allows employees of the Company to contribute up to 80% of their eligible compensation, subject to certain limitations. Since 2006, the Company matches employee contributions up to \$1,500 per year. Employee contributions are fully vested upon contribution, whereas the Company's matching contributions are fully vested after the first year of service. The Company also has various defined contribution plans for our international employees. The Company's contributions to these benefit plans were approximately \$705,000, \$420,000 and \$111,000 for the years ended December 31, 2009, December 31, 2008 and December 31, 2007, respectively.

(10) Related Party Transaction

In November 2007, the Company entered into an independent contractor agreement with Holger Bartel, the Company's current Chief Executive Officer, a member of the Company's Board of Directors, and brother of Ralph Bartel, who controls the Company, to provide consulting services. Fees and expenses for these services during the year ended December 31, 2008 totaled approximately \$591,000. Effective October 1, 2008, Holger Bartel was appointed as Chief Executive Officer of the Company and the independent contractor agreement between the Company and Holger Bartel was terminated on September 30, 2008.

On October 31, 2009, the Company completed the sale of its Asia Pacific operating segment to Azzurro Capital Inc. and its wholly owned subsidiaries, Travelzoo (Asia) Limited and Travelzoo Japan K.K. Azzurro Capital Inc. is owned and controlled by the Ralph Bartel 2005 Trust, on behalf of itself. Ralph Bartel, the Company's Chairman and principal shareholder, is a member of the board of directors of Azzurro Capital Inc. and is currently the sole beneficiary of the Ralph Bartel 2005 Trust. The Company's receivables from Travelzoo (Asia) Limited and Travelzoo Japan K.K. subsequent to October 31, 2009 totaled \$94,000 as of December 31, 2009 and are part of prepaid expenses and other current assets in the accompanying Consolidated Balance Sheets. See Note 11 for a further discussion on the sale of the Company's Asia Pacific operating segment.

(11) Discontinued Operations

On September 30, 2009, the Company and its principal Asia Pacific subsidiaries entered into two definitive Asset Purchase Agreements ("Asset Purchase Agreements") with Azzurro Capital Inc. and its newly formed wholly-owned subsidiaries, Travelzoo (Asia) Limited and Travelzoo Japan K.K. to acquire substantially all of the assets, and with the exception of intercompany loans, assume substantially all of the liabilities of Travelzoo's principal Asia Pacific subsidiaries, which constitute Travelzoo's Asia Pacific operating segment. The aggregate purchase price under the Asset Purchase Agreements was \$3,600,000, subject to a working capital adjustment, as defined in the Asset Purchase Agreements, based on unaudited balance sheets as of October 31, 2009.

As part of the transaction, the Company and Azzurro Capital Inc., Travelzoo (Asia) Limited and Travelzoo Japan K.K. entered into the following additional agreements:

- A License Agreement providing for a limited, nontransferable (except as provided therein), perpetual, exclusive (except as provided therein) fully paid-up license to perform the Licensed Services and Licensed Business Processes (as defined in the License Agreement), and to use the Licensed Marks, the Licensed Software, the Licensed Trade Secrets, and the Licensed Works (as defined in the License Agreements) in connection with the Licensed Services and Licensed Business Processes within the Territory, which is defined as all countries located in those time zones that are more than five hours ahead of Greenwich Mean Time, based on Standard time, including India and Pakistan, but excluding Russia.
- A Hosting Agreement under which Travelzoo agrees to host, transact, process, store, implement, operate, manage, maintain and provide access to licensed software and to data files and content provided by Travelzoo (Asia) Limited and Travelzoo Japan K.K. for use in connection with the Licensed Services and the Licensed Business Processes referred to in the Hosting Agreement.

- A Referral Agreement pursuant to which each party will, on a non-exclusive basis, make customer referrals to each other, in consideration for receiving a specified percentage of the revenues derived from such referrals.
- A Transition Services Agreement under which Travelzoo agrees to provide, at the option of the Travelzoo (Asia) Limited and Travelzoo Japan K.K., certain services on a temporary basis, at the prices and on other terms to be determined as provided in the Transition Services Agreement.

The Company and Azzurro Capital Inc. also entered into an Option Agreement (the “Option Agreement”) on September 30, 2009, under which the Company will have an option (the “Option”) to acquire the assets or shares of the Travelzoo (Asia) Limited and Travelzoo Japan K.K., exercisable during the month of June in any year from 2011 to 2020. The Option is also exercisable upon receipt by Travelzoo of a notice delivered under the Option Agreement of (a) the intent for either or both of the Travelzoo (Asia) Limited and Travelzoo Japan K.K. to cease operations or (b) an intention to effect an initial public offering of the shares of either of Travelzoo (Asia) Limited or Travelzoo Japan K.K. The purchase price under the Option will be the fair market value of the assets and business being acquired, determined by third party appraisal under the procedures set forth in the Option Agreement.

A voting agreement was also reached between the Company and Ralph Bartel with the intent to avoid any future conflicts of interest relating to the dealings between the Company and Azzurro Capital Inc. and their affiliates. Under the voting agreement, Mr. Bartel agrees to vote (or cause to be voted) any shares of the Company over which he has voting control, with respect to any proposal relating the Asia Pacific business, Azzurro Capital Inc., Travelzoo (Asia) Limited, or Travelzoo Japan K.K., in the same manner and in the same proportion that all other securities of the same class are voted at any meeting of the stockholders of the Company, and included provisions relating to the exercise of his voting rights as a shareholder or director of the Company in respect of matters between the Company and Azzurro Capital Inc. As a member of the Company’s Board of Directors, Mr. Bartel also agrees to abstain from all deliberations and decisions of the Board of Directors with respect to any matters relating to any dealings, agreements or arrangements between the Company or any of its affiliates and Azzurro Capital Inc. or any of its affiliates, including with respect to the exercise of the Option, as mentioned above, except to the extent his vote shall be required to constitute a quorum or otherwise to permit the Board of Directors to take action, in which case he shall vote with the majority of the other members of the Board of Directors (or shall abstain in the case of a tie).

On October 31, 2009, the Company completed the sale of its Asia Pacific operating segment to Azzurro Capital Inc. pursuant to the terms of the Asset Purchase Agreements. The results of operations of the Asia Pacific operating segment have been classified as discontinued operations for all periods presented. The Company has not had significant ongoing involvement with the operations of the Asia Pacific operating segment and has not had any economic interests in the Asia Pacific operating segment since the completion of the sale. Accordingly, the sale of the Asia Pacific operating segment is treated as a discontinued operation under the relevant accounting literature.

At the completion of the sale, the Company received \$2.1 million, net of cash provided, and has a net receivable from Travelzoo (Asia) Limited and Travelzoo Japan K.K. of \$1.1 million. The Company realized a gain of \$3.4 million related to the sale of the net assets of the Asia Pacific business segment to Azzurro Capital Inc. The resulting gain on the sale is reflected as an addition to additional paid-in capital in the accompanying Consolidated Statements of Stockholders’ Equity as both the Company and Azzurro Capital Inc. are under the common control of Ralph Bartel. The Company recorded a tax benefit of \$4.4 million in discontinued operations for the tax benefit associated with the loss on investments in the Asia Pacific subsidiaries as a result of their dissolution.

The following table presents the revenues and the components of loss from discontinued operations, net of tax (in thousands):

	Twelve Months Ended December 31		
	2009	2008	2007
Revenues	\$ 2,134	\$ 586	\$ 7
Cost of revenues	<u>173</u>	<u>153</u>	<u>62</u>
Gross profit	<u>1,961</u>	<u>433</u>	<u>(55)</u>
Operating expenses:			
Sales and marketing	3,821	5,837	914
General and administrative	<u>3,828</u>	<u>4,797</u>	<u>2,086</u>
Total operating expenses	<u>7,649</u>	<u>10,634</u>	<u>3,000</u>
Operating loss from discontinued operations	(5,688)	(10,201)	(3,055)
Other income and (expense)	(33)	20	5
Income tax benefit	<u>79</u>	<u>152</u>	<u>51</u>
Loss from discontinued operations	(5,642)	(10,029)	(2,999)
Income tax benefit related to dissolution of Asia Pacific business segment	<u>4,409</u>	<u>—</u>	<u>—</u>
Loss from discontinued operations, net of tax	<u><u>\$(1,233)</u></u>	<u><u>\$(10,029)</u></u>	<u><u>\$(2,999)</u></u>

The Company has reclassified assets and liabilities held for sale on the balance sheet as of December 31, 2008, excluding cash and cash equivalents of approximately \$1.4 million. The assets held for sale consist primarily of prepaid expenses, other current assets, and deposits of \$459,000, accounts receivable of \$185,000 and property and equipment of \$159,000. Liabilities relating to assets held for sale consist primarily of accrued expenses of \$1.0 million and accounts payable of \$171,000.

(12) Unaudited Quarterly Information

The following represents unaudited quarterly financial data for 2009 and 2008:

	Quarters Ended							
	Dec 31, 2009	Sept 30, 2009	June 30, 2009	Mar 31, 2009	Dec 31, 2008	Sept 30, 2008	June 30, 2008	Mar 31, 2008
	(In thousands, except per share amounts)

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

As of December 31, 2009, we carried out an evaluation, under the supervision and with the participation of the Company’s management, including the Company’s Chief Executive Officer along with the Company’s Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(e). Based upon that evaluation, the Company’s Chief Executive Officer along with the Company’s Chief Financial Officer concluded that the Company’s disclosure controls and procedures are effective as of December 31, 2009 to ensure that information required to be disclosed in the reports that the Company files or submits under the Exchange Act, including this report, is recorded, processed, summarized and reported, within the time periods specified in the Commission’s rules and forms, and to ensure that information required to be disclosed in such reports is accumulated and communicated to management, including the Company’s Chief Executive Officer and the Company’s Chief Financial Officer, to allow timely decisions regarding required disclosure. For these purposes, “disclosure controls and procedures” means controls and other procedures of the Company that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission’s rules and forms. “Disclosure controls and procedures” include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the

Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

During the quarter ended December 31, 2009, there was no change in our internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Travelzoo's management is responsible for establishing and maintaining adequate internal control over financial reporting for Travelzoo Inc. Travelzoo's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. Travelzoo's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of Travelzoo; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of Travelzoo are being made only in accordance with authorizations of management and directors of Travelzoo; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of Travelzoo's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Travelzoo's management assessed the effectiveness of Travelzoo's internal control over financial reporting as of December 31, 2009, utilizing the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control—Integrated Framework*. Based on the assessment by Travelzoo's management, we determined that Travelzoo's internal control over financial reporting was effective as of December 31, 2009. The effectiveness of Travelzoo's internal control over financial reporting as of December 31, 2009 has been audited by KPMG LLP, Travelzoo's independent registered public accounting firm, as stated in their report which appears in Part II, Item 8 of this Annual Report on Form 10-K.

Item 9B. Other Information

Not applicable.

PART III

Item 10. Directors, Executive Officers and Corporate Governance of the Registrant

Information required by this item is incorporated by reference to Travelzoo’s Definitive Proxy Statement for the 2010 Annual Meeting of Stockholders to be filed with the SEC within 120 days after the end of Travelzoo’s fiscal year ended December 31, 2009 and is incorporated herein by reference.

The following table sets forth certain information with respect to the executive officers of Travelzoo as of March 1, 2010.

<u>Name</u>	<u>Age</u>	<u>Position</u>
Holger Bartel, Ph.D.	43	Chief Executive Officer
Wayne Lee	38	Chief Financial Officer
Christopher Loughlin	36	Executive Vice President, Europe
Max Rayner.	49	Chief Technology Officer
Shirley Tafoya	46	President, North America

Holger Bartel, Ph.D., has served as Chief Executive Officer since October 2008 after serving as Executive Vice President from 2001 to 2007 and Vice President of Sales and Marketing from 1999 to 2001. From 1995 to 1998, Mr. Bartel was an Engagement Manager at McKinsey & Company in Los Angeles. From 1992 to 1994, Mr. Bartel was a research fellow at Harvard Business School. Mr. Bartel holds an MBA in Finance and Accounting and a Ph.D. in Economics from the University of St. Gallen, Switzerland. He is the brother of Ralph Bartel.

Wayne Lee, CPA, has served as Chief Financial Officer since September 2006 after service as Director of Finance and Vice President of Finance since 2005. From 2003 to 2005, Mr. Lee was Business Group Controller and North American Sales Controller of Novellus Systems, Inc. From 1998 to 2003, he was Assistant Controller of Allegis Corporation. Mr. Lee is a Certified Public Accountant who received his B.S. in Business Administration from the Walter A. Haas School of Business at the University of California, Berkeley.

Christopher Loughlin has served as Executive Vice President, Europe since May 2005 after serving as Vice President of Business Development since 2001. From 1999 to 2001, he was Chief Operating Officer of Weekends.com. Mr. Loughlin holds a BSc(Hons) in Technology Management from Staffordshire University and an MBA from Columbia University Graduate School of Business in New York City.

Max Rayner has served as Chief Technology Officer since September 2009 after having served as Chief Information Officer since November 2007 and oversees Travelzoo’s global IT function, including software development and information management. From 2005 to 2007, Mr. Rayner served as Executive Vice President of Products and Services and CIO at SurfControl. From 2004 to 2005, Mr. Rayner was Vice President, System Architecture at Salesforce.com. Mr. Rayner has a B.A. in Computer Science and Digital Engineering from Dartmouth College and an MBA in Finance from the University of California, Los Angeles.

Shirley Tafoya has served as Senior Vice President of Sales since 2001 and was appointed as President, North America in July 2008. From 1999 to 2001, Ms. Tafoya was the Director of Western Sales at Walt Disney Internet Group. From 1998 to 1999, Ms. Tafoya was a Sales Manager at IDG/International Data Group. Ms. Tafoya holds a bachelor’s degree in Business Administration from Notre Dame de Namur University.

Item 11. Executive Compensation

Information regarding executive compensation and compensation committee interlocks is incorporated by reference to the information in the definitive Proxy Statement relating to our 2010 Annual Meeting of Stockholders to be filed with the SEC within 120 days after the end of our fiscal year ended December 31, 2009, which is incorporated herein by reference.

Item 12. *Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters*

Information regarding security ownership of certain beneficial owners and management and related stockholder matters is incorporated by reference to the information in the definitive Proxy Statement relating to our 2010 Annual Meeting of Stockholders to be filed with the SEC within 120 days after the end of our fiscal year ended December 31, 2009, which is incorporated herein by reference.

Item 13. *Certain Relationships and Related Transactions, and Director Independence*

Information regarding certain relationships and related transactions, and director independence is incorporated by reference to the information set forth in the definitive Proxy Statement relating to our 2010 Annual Meeting of Stockholders to be filed with the SEC within 120 days after the end of our fiscal year ended December 31, 2009, which is incorporated herein by reference.

Item 14. *Principal Accountant Fees and Services*

Information regarding principal accountant fees and services is set forth in the definitive Proxy Statement relating to our 2010 Annual Meeting of Stockholders, which is incorporated herein by reference.

PART IV

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF THE
SARBANES-OXLEY ACT OF 2002**

I, Holger Bartel, certify that:

1. I have reviewed this annual report on Form 10-K of Travelzoo Inc.;
2. Based on my knowledge, this annual report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this annual report;
3. Based on my knowledge, the financial statements, and other financial information included in this annual report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this annual report;
4. The Registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
 - a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this annual report is being prepared;
 - b. designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this annual report based on such evaluation; and
 - d. disclosed in this report any change in the Registrants' internal control over financial reporting that occurred during the Registrants' most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
 - a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

**CERTIFICATION OF CHIEF FINANCIAL OFFICER PURSUANT TO SECTION 302 OF THE
SARBANES-OXLEY ACT OF 2002**

I, Wayne Lee, certify that:

1. I have reviewed this annual report on Form 10-K of Travelzoo Inc.;
2. Based on my knowledge, this annual report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this annual report;
3. Based on my knowledge, the financial statements, and other financial information included in this annual report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this annual report;
4. The Registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
 - a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this annual report is being prepared;
 - b. designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this annual report based on such evaluation; and
 - d. disclosed in this report any change in the Registrants' internal control over financial reporting that occurred during the Registrants' most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
 - a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.
